John Robert Powers says:

the right foundation color makes you look younger, lovelier!

Special—3 days only:
Consult Mr. Fitzgerald, make-up specialist for John Robert Powers, New York, regarding your various make-up problems.

Don't let the wrong color age you!

You can look lovelier—your complexion more youthfully beautiful, if you apply the right shade of foundation to your face. But the wrong color leaves a drab, uninteresting look.

The patented Powers Cosmetoscope takes all the guesswork out of selecting the exact shade of Fluid Foundation and Powder to beautify your complexion. It's the only scientific method offered today that can actually determine your true skin tone, and prescribe your correct make-up shades of Fluid Foundation and flatter-finish Face Powder.

You'll discover, as the lovely Powers Girls have, that Powers Fluid Foundation creates the illusion of a truly flawless complexion. It hides tiny imperfections, smooths away little blemishes and conceals minor discolorations and shadows. This perfect powder base holds make-up much longer—much more evenly than you ever dreamed possible!

And because Fluid Foundation contains no waxes, it keeps all make-up on the surface instead of in your pores—allows your skin to breathe naturally under its Fluid flattery! Your Cosmetoscope analysis is complimentary.
