What's New in Getaway? Try a '56 Buick and See!

Tou've probably heard us say a lot, I recently, about the 1956 Buick's new Variable Pitch Dynaflow.*

And maybe you've wondered just what that "new" means.

Well, it means a brand-new principle in transmission design. A new way to make whirling oil add to its own velocity and produce fast torque build-up at only part throttle.

What does it do for you?

It gives you a quick new getaway response right in the first inch of pedal travel-right where you do most of your normal driving-and right where you get better gas mileage every inch of the way. It gives you more safety-surge breakaway when you floor the pedal and switch the pitch-more electrifying fullpower acceleration to pull out of a tight

And it gives you all this with absolute smoothness-because no gears ever shift in Dynaflow.

But if you think this great new getaway is the only reason for Buick's strong position in the Top 3 of America's best sellers

In every 1956 Buick there's newness from end to end.

New 322-cubic-inch V8 engines, New brakes, new frame, new rear end. A new deep-oil cushioned ride. New handling

ease, new quiet, new comfort. New carburetor "deicing." New exhaust manifolding. New interlocking safety door latches. New Safety-Aim headlamps. New features everywhere you look including new styling and beauty inside

What it all adds up to is the Best Buick Yet, by far. And we cordially invite you to come see and sample all the new thrills ! a '56 Buick has in store for you.

You'll find them packaged in a price that makes any model you choose your smartest buy yet. Can you make it this week?

New Advanced Variable Pitch Dynaflow is the only Dunaflow Buick builds today. It is standard on Rendmaster, Super and Century-optional at modest extra cost on the Special.

AIRCONDITIONING M & COOL NEW LOW PRICE It coals, filters, dehumidifies. Get 4-Season Comfort in your new Buick with gr PRIGIDAIRE CONDITIONING Best Buick Yet
