### King Dies of Heart Failure: Rites Pending

PORTSMOUTH, N.H. UP-Fleet Adm Ernest J. King, 77, who commanded the world's mightiest sea force in World War II, died Monday at Portsmouth Naval hospital after acute heart failure in-duced by high blood pressure. In failing health since a brain hemorrhage in August, 1947, the state Democratic chairman to wartime chief of Naval operations the national campaign was stricken early Sunday.

King still carried on the Navy's active list, came here June 5, following his custom of recent years to spend the summer residing at the Naval hospital to avoid the heat of Washington. Winters he at the Navy's medical spent center, Bethesda, Md. King's death left three five star fleet admirals - Leahy.

"Snark," one of the newer weapons under development. Each missile which leaves the

launching area in Florida travels down a flight corridor averaging 40 miles in width, from which all ships and planes have been cleared in advance.

All along the way the flight observed by radar, by p watchers on island stations a ped observer planes.

Power to Destroy

A safety officer at all times has the power to destroy the missile if it gives any indication of getting out of control.

The extension of the range li its from 1,000 to 5,000 miles carried the implication that the United States is nearing the time when it will be testing missiles of much preater range than those already

### Navaho Tested

In addition to the Snark, the Navaho is another interconfine which has been ut through its paces at the teground at Cape Canaveral, Fla. Both the Snark and the Navaho have ranged up to 5,000 miles.

Two agreements were signe Secretary of State Dolles and British ambassador Roger Makwith relation to Patrick Air Force base in Florida. Britain today agreed to allow the United States ins. Besides the Ascension Island agreement there was one extending the missile range from Puerto Rico to St. Lucia in the Windward Islands, roughly 400 miles.
