

Dixie Delay Tactics in House Slows Civil Rights Measure

By WILMOT HERCHER
WASHINGTON (AP)—Southern Democrats pulled the brake on the Civil Rights Bill Thursday with an assortment of delaying tactics in the House.
As the legislation moved slowly toward a decisive vote, they

forced two quorum calls on technicalities. These roll calls consumed about an hour.
Rep. Davis (D-Ga.) also demanded that the journal of yesterday's proceedings—a 7,500-word document—be read, but he abandoned this maneuver when the

House agreed to suspend consideration of the bill at 4 p.m. EST.
Many Speeches
Then the anticipated parade of amendments began. Speeches can be made on each amendment to postpone the time when the House takes final action on civil rights.
The bill would create a bipartisan commission to investigate alleged violations of civil rights.
It would also set up a special division in the Justice Department to handle civil rights matters and empower the attorney general to give legal assistance to persons whose voting privileges or other civil rights were threatened.

Wanted Allow Suits
Another section in the bill would enable individuals to sue in Federal Court on their own behalf without first going through all available state courts.
It looked like the debate would drag through tomorrow, at least. Test votes have already indicated the bill has enough support for passage eventually, but is not given a chance of getting through the Senate before Congress adjourns around the end of the month.

The southern fight against the bill was directed from the floor by Chairman Smith (D-Va.) of the House Rules Committee.
House Rejects Plan to Trade With Satellites
WASHINGTON (AP)—The House Wednesday flatly rejected Eisenhower administration pleas to permit barter of American farm surplus with Soviet satellite nations.
It rebuffed both President Eisenhower and Secretary of State Dulles in refusing to include the barter provision in a bill increasing authority for disposal of government-held farm surpluses to friendly nations for foreign currencies.
Then on a 399-6 rollcall vote, it passed the bill raising from 1½ to 3 billion dollars the amount of surplus commodities which may be sold to non-Communist nations in return for their own currencies.
Payments by foreign nations in their own money go toward construction of military housing at U.S. installations abroad, to pay for construction of U.S. overseas bases, and to defray other U.S. expenses like embassy costs.
The bill now goes to conference with the Senate to settle differences in Senate and House versions.

Stars Take Separate Orbits

HOLLYWOOD—Michael Wilding and Elizabeth Taylor, a close twosome on this smiling arrival in London last November, have decided on a legal separation. No imminent divorce was mentioned in the Hollywood studio announcement of the rift between the British-born theatrical couple. Miss Taylor, 24, and Wilding, 44, were married in 1952 and have two children. (AP Wirephoto).

Liz Taylor-Michael Wilding Split Added to Long List of Ex-Child Star Marital Woes

By BOB THOMAS
HOLLYWOOD (AP)—Filmmakers viewed the wreckage of the Elizabeth Taylor-Michael Wilding marriage Thursday as further evidence that former child stars face high odds against finding marital happiness.
The breakup of luscious Liz' four and a half year marriage to the British actor was announced with this terse message through her studio:
"Much careful thought has been given to the step we are taking. It is being done so we will have an opportunity to thoroughly work out our personal situation."
Legal Separation
Neither Miss Taylor nor Wilding was available to elaborate on the statement, and it was said that they plan a legal separation, not a divorce. But the odds-makers were ready to count out the marriage, if only from past performances by other child stars.
Here are the numbers of marriages for them: Mickey Rooney, 4; Jackie Coogan 4; Judy Garland 3; Deanna Durbin 3; Shirley Temple 2; Jackie Cooper 2; Freddie Bartholomew 2.
For 13 Years
Liz has been in the movies for 13 of her 24 years. At 16, she was playing opposite Robert Taylor, who was a star when she was an infant. At 17, she married hotel heir Nicky Hilton in a lavish ceremony that was said to unite an ideal pair. He proved to be less than an ideal husband, she told a divorce judge eight months later. Among her complaints: He preferred the gambling casinos to her on their Riviera honeymoon.
Eyebrows were raised in Hollywood when she chose Michael Wilding as her second mate. She was 20, he was 38. But she seemed taken by the wit and wisdom of a mature man after Nicky.
Why did Liz and Mike break up?
"It's the same old thing—career troubles," answered a friend. "Liz has been a big star since 'National Velvet.' Mike was a good name in England, but he never clicked in Hollywood films. A man just doesn't like being a baby sitter while mama's working."
After a few film roles, Wilding

was released from Liz' studio, MGM, at his own request. Since then, he has done a few TV shows and will leave shortly for a film in Sweden.
The pair has two children, Michael Howard, 3, and Christopher, 1.

Legislative Unit Plans Meet on Sales Tax Plan

The Legislative Interim Committee on taxation is slated to meet in Salem July 27 and 28 to continue consideration of a sales tax bill for presentation to the 1957 legislature.
Study of such a tax has been in progress for several months. Chairman is Rudie Wilhelm, Portland.
Also under discussion by the interim committee are amendments to the current timber yield law and the utilities tax structure.
A range of mountains under the Atlantic Ocean extending from the Arctic to the Antarctic is the world's largest, says the National Geographic Society.

Military Plane Crash Death Toll Now 46

FT. DIX, N.J. (AP)—The death toll in last Friday's military transport plane crash rose to 46 Wednesday when Army Specialist Third Class Jesse Banks Jr. died in the army hospital.
Banks, 22, of Navasota, Tex., succumbed from a brain concussion and a fracture of the force arm, according to Capt. Thomas Hamrick, Army public information officer.
Banks was on his way to England from a California post. He was not one of the five originally listed as in critical condition.
An Air Force board is still looking into the cause of the crash of the C118 four-engine plane, which plunged into the piney woods of Ft. Dix reservation 90 seconds after takeoff from adjacent McGuire Air Force base.

Young Brodie Twin Back In Hospital

CHICAGO, Ill. (AP)—Rodney Brodie, 4, of Ferris, Ill., the survivor of a Siamese twin separation in 1952, Thursday re-entered the University of Illinois research and educational hospital for another general checkup.
The boy, released from the hospital on May 6 after more than a three month stay, returned because of the accumulation of fluid in his head. Hospital authorities said the excess fluid, which has been tapped for withdrawals, may be the cause of Rodney's unbalanced walking that developed last week. Since that time, his mother has had to help her son in his walking.
Rodney, who appeared quite cheerful at the hospital, was separated from his twin brother, Roger, on Dec. 17, 1952. They had been joined at the head. Roger died 34 days after the operation. Rodney has been in and out of the hospital since the separation.

BIRTH CONTROL LAUNCHED

SINGAPORE (AP)—Red China has launched a birth control campaign to check its annual 12 million increase in population, says Han Suyin, Miss Han, a doctor who wrote the novel "A Many Splendored Thing," has just returned from a visit of her family in China.

ROAD WRECK FATAL

REEDSPORT (AP)—An automobile swerved off Highway 38, west of Scottsburg, and smashed into a tree Wednesday, killing Harry B. Fogelberry, about 65, Portland.

New Polio Cases Across Nation at 6-Year Low for Comparable Week

WASHINGTON (AP)—The states reported 455 new cases of polio last week, the smallest number for the comparable week in six years.
Illinois, with severe localized outbreaks in sections of Chicago, had 104 cases, the only state with more than 100.

Dogs' Maternity Fee Suggestion Unenforceable

LOS ANGELES (AP)—Love laughs at locksmiths, and the dogs hereabouts are laughing at a proposal that female dogs be subject to a \$25 license fee before they have puppies.
Mrs. Sally Moody, president of Animal Allies, suggested that the number of stray dogs could be reduced if such an ordinance were passed.
Richard L. Bonner, manager of the animal regulation department, said Tuesday the proposed licensing was "probably legal, but unenforceable."
Dogs, he pointed out, "have a hard time reading the fine print in city ordinances."

A Public Health Service spokesman Thursday said Illinois is the only state showing any considerable concentration of cases in specific areas.
Span Nation
Between Jan. 1 and July 14 polio cases totaled 3,365 compared with 4,676 in the similar 1955 span for the entire country.
For the "disease year" which began about April 1 there had been 2,298, compared with 3,613 a year ago.
The health service spokesman did not give all credit for the reduction to use of Salk polio vaccine but said apparently the vaccine is having an effect.
The 435 cases in the week ended July 14 compared with these totals in comparable weeks in the previous five years: 565 in 1955; 1,053 in 1954; 1,245 in 1953; 1,044 in 1952; and 615 in 1951.
Chicago Cases
This weekly communicable disease summary said the sharp increase in cases in Illinois, 104 last week as compared with 35 in the week ended July 7, "is almost entirely due to localized outbreaks in certain sections of Chicago, mainly in the southern part of the city among persons of low economic status."
"Approximately two-third of the cases have been under five years of age, and two-thirds have been paralytic," the report said.
The report presented additional information indicating a high proportion of polio cases among children under five years of age in other states. Use of the vaccine was concentrated first in children between five and nine years of age.

Princess Grace May Make Israel Visit
TEL AVIV, Israel (AP)—Princess Grace of Monaco says she would like to visit Israel, but not as an actress.
She declined a Tel Aviv theatrical agent's invitation to appear here, said she hopes to pay a personal visit some day, and added in a letter: "But I must make it very clear that it will be in no way a professional visit from one who is no longer in the profession."

IDEA DROPPED

YONKERS, N.Y. (AP)—City Manager Charles L. Curran is dropping the idea of appointing five women as parking enforcement officers at \$2,800 a year. There's been only one applicant and she didn't meet requirements.

U.S. VISIT RUMORED

LIMA, Peru (AP)—Persistent reports say President Manuel Odría will go to Washington for treatment of a leg fracture after he completes his term July 29. He suffered the fracture June 14 and it has not healed properly.
