## Pilgrimage Route at Mt. Angel Prepared

MT. ANGEL—Mt. Angel business men took time out Saturday to go to Crooked Finger and set up large rustic crosses all along the half-mile Marian Pilgrimage route. Led by Carl Mucken, president of the Business Men's club, the men set the crosses which stand at least 10 feet high, 75 feet apart on alternate sides of the wide sawdust path along which many thousand will walk Wednesday in the annual pilgrimage of prayer to Holy Rosary Chapel. There will be two processions, one at 2:30 p.m. and one at 8 p.m.

Large blue and white banners of plastic cloth were attached to the cross pieces on Monday. The crosses were made by Carl Hoebsch, a member of the club, from young fir trees cut down while clearing the grove to be used as the starting point for the pilgrimage. A flood light at each cross will outline and light the path for the night pilgrimage.

The Crooked Finger women, assisted by some of the men, are erecting four of the six large shrines to hold the statues depicting the queenship of Mary. The other two, Queen of the Rosary, and Queen Concealed Without Sin, will be put up by Father Alcuin Heibel and his Rosary Guild of Portland and by the pastor and parishioners of St. Paul's church in Silverton.

A special joy to the hardworking people of Crooked Finger, Mt. Angel and other communities that have been assisting with the work, is the new wide highway passing in front of the church which was completed on Friday.
