From  
Roberts'  
Decorating  
Studio

Excitement filled the studio when David set up our display of new carpets yesterday. We will be very proud to show this line because for carpeting of rare distinction in design, texture and coloration this famed collection is beyond compare. It shows hand-made carpeting combining cut with uncut pile in swirled patterns, beautiful sculptured designs, and nubby weaves reminiscent of the crocheted popcorn stitch. There are samples of beautiful long pile carpeting, the fibers set into the strong backing in bunches, giving an interesting surface texture. Their tweed designs are entirely different from others on the market for they have an irregular hand-hooked texture and show interesting combinations of colors. The samples of close uncut pile have a silky sheen and are different from anything ever made up for floor covering. And the colors — what beautiful, beautiful new colors are introduced in this line: Persimmon, creamy beige, butter yellow, gold, avocado green, clear turquoise, plum, pink, cerise and many others. In fact, this entire line can be had in custom-dyed colors. Another wonderful feature of our new carpeting is that its maker weaves carpets to fit the exact measurements of a given room, which allows one to lay it in rooms of L or U shapes, or where bays occur, without the usual showing of unsightly seams. This is a money-saving feature since there would be no expensive cutting waste. This line is exclusive with Roberts in Salem. Even though you are "just looking," you will enjoy a visit to our studio to see "what's new" in carpeting.

Bye till later. EM
