in the district in a report by Supt.

Schmidt showing an elementary teacher-pupil ratio of 27.04 which is about the same as last year.

Keizer School at 30.1 was the only school over the 30-pupil average and Schmidt said shifting of 7th and 5th graders from there into the hands of a joint commission to speed up the campaign and head off the ugly vertester states. The U. S. Forest ge and Schmidt said shifting of 7th and 5th graders from there into new junior highs would provide several classrooms.

Class size problems were more to reason and vitb additional process of the several classrooms.

Class size problems were more to reason and with additional process of the several classrooms. SAN FRANCISCO US - The in-

In California, most of the charcoal production is in the Pase Robles and Healdsburg areas. The wood used is chiefly liveoak, with some associated hardwoods.

E. W. Morris, a tree farmer living near Cave Junction, Ore., speciates two kilns turning out about tons of charcoal monthly. He uses such hardwoods as madrone, mantanita and oak.

Several classrooms.

Class size problems were more of distribution in particular schools than in classrooms, he said.

Sischo, who said Portland schools accepted his product as equal to the one standardized by Salem, asserted "we feel that we are being treated unfairly" in not being able to bid. He added that loss of a master key would force the changing of all the locks in the

regards as dequate safeguards.

Tonight, in a nationwide television-radio address prepared for a Madison Square Garden rally, the President said he wanted to:

"Reiterate—as we constantly do—America's instant readiness to lay aside all nuclear weapons—including this testing—when, but only when, we have sure safeguards that others will do the same."

Elsenhower has said all along that this country cannot now join in any ban on testing because Russia has refused to agree to what he regards as adequate safeguards.

Tonight, in a nationwide television-radio address prepared for a Madison Square Garden rally, the

CAMBRIDGE, Mass., Oct. 25 (h)

—A group of prominent scientists, commenting on the desirability of ending H-bomb tests, said today

"It seems likely that the radiation hazard is more serious than is suggested in recent official state-ments."

The Radiation Hasards Commit.

strement, trying to clear away indictments so he could be he for parole, lost in circuit today.

The Radiation Hazards Committee of the 3,000-member Federation of American Scientists made public a report which said "it may well be true that in certain areas of the world," the health hazard from atomic and H-bomb fall-out "has already passed the danger point, to say nothing of the additional production of this material in further tests."

AMMAN, Jordan, Oct. 25 ^(A) — Egypt turned over five Britishtype jet fighter planes to Jordan's army today.

The Egyptian army's commander in chief, Gen. Abdel Hakim Amer, handed over the jets to the Jordan army chief of staff, Gen. All Abu Nuwar, at Amman mili-Ali Abu Nuwar, at Amman military airport. King Hussein also was present.

The gift was the largest Egyptian contribution yet to Jordan in the drive to build up this country's strength following the deteriora-tion of the Israeli-Jordan frontier situation in recent weeks.
