

France Accuses Egypt of Aid To Algeria, Seeks U.N. Probe

By WILLIAM N. OATIS
UNITED NATIONS, N.Y., Oct. 26 (AP)—France accused Egypt today of direct responsibility in the Algerian rebellion and brought the matter formally before the U.N. Security Council.

French Ambassador Bernard Cornut-Gentille said Egyptian intervention was an attack on French sovereignty violating the international law of non-interference among governments.

He said irrefutable evidence to back up France's charges was obtained with seizure Oct. 16 of an Egyptian-owned yacht, the Athos. He charged the vessel carried arms, ammunition and six Egyptian-trained military technicians destined for an underground rebel

Fight Erupts In Algeria; 40 Reported Dead

ALGIERS, Oct. 26 (AP)—Violence flared again today in Algeria with over 40 reported killed—most of them rebels against French rule.

There have been few reports of action from Algeria since the French capture Monday of five rebel leaders flying to a conference in Tunis. But yesterday, however, there were at least 15 attacks against Europeans—most of them in and around Algiers itself—with 9 killed and 15 wounded. They were preceded by rebel leaflets declaring the fight would go on.

French headquarters reported at least 33 rebels killed in actions throughout the territory, most of them in the Kabylie region east of the capital. There were scattered reports of new attacks against Frenchmen today, but full French information—none is available from the rebel side—is usually 24 hours late.

Frenchman Resigns
In Paris, the French Cabinet minister in charge of Tunisian and Moroccan affairs, Alain Savary, resigned Premier Guy Mollet out of acceptance until next Wednesday's Cabinet meeting, but a spokesman for Savary said the job is now vacant so far as the minister is concerned.

Savary was reported to have disapproved of the way the rebel leaders' plane was diverted to Algiers, where they were clapped into handcuffs by the French. His spokesman said this had brought a break in negotiations between France and the newly independent Tunisian and Moroccan governments.

Eugene Man Finds Bridge Just Illusion

EUGENE, Oct. 26 (AP)—A motorist taking a short-cut to work early this morning started to drive across a wooden plank bridge spanning the Willamette River. Part of the bridge had been washed away and the car stopped with its front end hanging over the water.

George Patterson, engineer at radio station KASH, said "all I could see was black out there," as he started across the bridge, about a mile upstream from the regular highway bridge. He braked to a stop just in time.

In the night the rain-swollen stream had washed out a dirt ramp at one end of the bridge, a private span owned by a gravel company. It usually washes out each rainy season and is rebuilt in the spring.

Rain Pounds Southwestern Oregon Areas

By THE ASSOCIATED PRESS
A drenching storm dumped large amounts of rain in Southwest Oregon Thursday night, easing off Friday. Forecasters expect occasional showers Saturday.

The rainstorm got worse as it moved southward, after Eugene measured 1½ inches in 24 hours, North Bend and Roseburg nearly two inches. Brookings, on the Oregon coast near the California border, received nearly four inches of rain—3.72—in the 24-hour period ending at 8 a.m. Friday.

Little damage resulted but "the streets got a little muddy," said Bud Pisarek of the weekly newspaper in Brookings. "The rain didn't seem much worse than usual, and besides we're used to it," he said.

"The rain roiled some of the streams, and the drinking water from the reservoir got a little muddy, too, but it's clearing up now," Pisarek reported.

The storm ranged into Eastern Oregon as well. Nearly an inch of rain fell at Burns and Redmond had three-quarters of an inch. There was snow in the Cascade mountains Crater Lake National Park received six inches of snow for a total depth of 15 inches.

A-Scientist Urges Atomic Army Groups

WASHINGTON, Oct. 26 (AP)—Dr. Edward Teller, who helped develop the first A-bombs, urged the Army today to create small, mobile battle groups equipped with nuclear weapons. They could liberate "oppressed people without blowing them to bits," he said.

Teller said the thinking of many people has been "paralyzed" by the mistaken conclusion that "nuclear bombs as such are weapons of terror and cannot be used except to create wholesale destruction."

The Hungarian-born scientist is now a professor of physics at the University of California at Berkeley and at the Atomic Energy Commission weapons laboratory at Livermore, Calif.

He made an unscheduled speech at the convention of the Assn. of the United States Army. At about the same time the White House announced Teller's appointment by President Eisenhower to the general advisory committee of the AEC.

Teller urged the Army to realize that nuclear weapons, particularly the hydrogen bomb, will make mass concentrations of soldiers and equipment a "futile and obsolete procedure."

He said that by proper thinking and planning ahead the Army can make just as good use of nuclear explosives as has the Air Force.

MORAL EDUCATION SET
TOKYO, Oct. 26 (AP)—"Moral education"—banned in Japan after World War II because it taught emperor worship and glorified war—will be reintroduced on a trial basis next year. Education Minister Ichiro Kiyose has announced the new course will stress character building.

Portland City Club Takes Ballot Stands

PORTLAND, Oct. 26 (AP)—The Portland City Club, a businessmen's study and luncheon group, today took stands on three measures which will appear on the Nov. 6 state election ballot.

The club approved without opposition measures that would raise state legislators' pay from \$600 to \$1,200 a year, and prohibit salmon or steelhead fishing except by hook and line in Oregon's coastal streams.

There was some opposition to the constitutional amendment which would permit use of the emergency clause on tax measures. But members approved this by a margin of almost 3 to 1.

Suspect in Slaying Taken To The Dalles

YAKIMA, Oct. 26 (AP)—Eugene Hatch, 29-year-old Yakima parolee, was taken to The Dalles, Ore., tonight by Wasco County officials investigating the slaying of a 76-year-old Great Falls, Mont., businessman.

Hatch last night led Yakima County officials to a crude grave near Satus Creek, 23 miles south of Toppenish, Wash., where the body of Walter Freeborn was uncovered. Hatch said he stabbed Freeborn to death Oct. 13 in The Dalles after a quarrel in the latter's house trailer.

He said he later drove the house trailer into Washington and buried Freeborn's body, then took the trailer to a point near Yakima where it was found last week by police.

The trailer was hauled to Yakima for storage but was set afire Wednesday. Hatch and David Kardack, 22, were arrested yesterday and Hatch told of the stabbing. Kardack signed a statement saying he fired the trailer at Hatch's request to destroy evidence.

Kardack is being kept in Yakima County. Neither he nor Hatch have been formally charged.

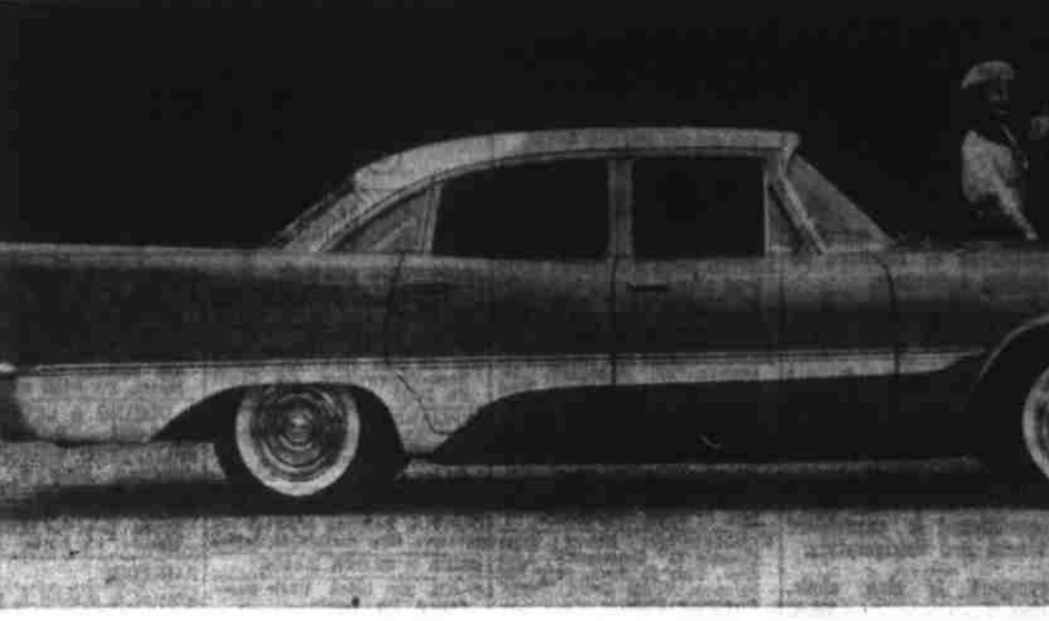

Fire Drives Publisher From Home

PIEDMONT, Calif., Oct. 26 (AP)—Fire early today drove Joseph R. Knowland Jr., assistant publisher of the Oakland Tribune, and his family from their home.

He is a brother of U.S. Sen. William F. Knowland (R-Calif.) and son of Joseph R. Knowland, Tribune publisher.

Knowland, his wife Norma and their three children escaped in their nightclothes before flames destroyed the master bedroom and part of the roof. Damage was estimated at \$12,000. Defective wiring was blamed.

1957 DeSoto Termed 'Brand New' Car

DETROIT, Oct. 26—De Soto introduces what it terms a brand new car to its 1957 line as the 245-horsepower Firesweep joins the Firelite and Firedome models. Described as having long, low and sleek lines like its predecessors, the

City Candidate Discovers Farmer Woes First Hand

NASHVILLE, Tenn., Oct. 26 (AP)—A fledgling politician who allowed as how the nation's farmers are lacking in "get-up-and-go" spent a day on a rain-soaked middle Tennessee farm today trying to find out if he knew what he was talking about.

Republican congressional candidate George Spence put in a day of toiling on the Herbert E. Bernal farm from "can't to can't"—farmers' jargon meaning from before daybreak when you can't see until after dark when you can't see.

Spence, 33, a city-dwelling manufacturer's representative, is the GOP candidate for congress from the 5th District (Nashville). The seat was held by the late Percy Priest, Democrat.

The Democratic candidate is Dist. Atty. Gen. J. Carlton Loser. Democrats have held the job without break since the Civil War, and there is little likelihood of a Republican victory this time.

Spence recently figured in the national news when he said after a White House conference in Washington that "if a man is to make a living on the farm, he has to get off his butt and go to work." The White House quickly denied this reflected the President's views.

This sort of talk got Bernal, 50, hot under the collar. He dared Spence to "come out and spend a day, any day, with me and if you can follow in my footsteps from early morning till late at night, I won't only vote for you but I'll also write a letter of apology."

Spence was banging on Bernal's door at 5:02 a.m., and they took off to the barn to milk 40 cows before breakfast.

Wasted Effort?
Because of the rain, they confined their work to odds and ends about the 327-acre farm. A flock of newsmen and photographers followed for a few hours but soon

Thief, Captured By Teenagers, Gets One Year
VANCOUVER, B. C. (AP)—A burglar who was captured by four victims' four teen-aged children was sentenced today to two years less one day in prison.

Robert MacKay, 22, pleaded guilty last week to a charge of breaking and entering the home of Dr. David A. Steele, Oct. 3. Heroes of MacKay's capture were Dr. Steele's children, David, 17, John, 14, Betsy Ann, 13, and Margaret, 16.

When police arrived at the Steele home they found MacKay being held down by the two boys and being whacked over the head with a hand mirror by Margaret. MacKay had to be taken to a hospital for treatment of bruises on his head.

COPPER THIEVES HELD
CALLAO, Peru, Oct. 26 (AP)—Copper stolen from a pier where it was in Springfield with her husband awaited shipment to the United States was to have been sent instead to the Soviet Union or one of its satellites. Callao police reported. They recovered the metal in bars after arresting a gang of six men said to have been working for agents in Tangier and Spain.

New Models To Be Shown Next Tuesday

DETROIT, Mich., Oct. 26—De Soto Friday introduced an "all-new" lower-priced Firesweep, a third model that is declared to make the company's 15-car line the largest ever offered in the division's 20-year history.

The new model, which dealers display Oct. 30, is described by L. Irving Woolson, De Soto president, as "the greatest value ever offered in the medium price field."

The new car "features many automotive advances, including a revolutionary new suspension system, a newly designed V-8 engine, a triple-range push-button transmission, and an all-weather new air conditioning system."

According to Woolson, the Firesweep, with its sister cars, the Firelite and Firedome, now gives De Soto a price coverage in 91 per cent of today's car market, excepting the very low-priced field.

A highlight feature of the new De Soto Firesweep is cited as a 123-inch wheelbase incorporating a number of revolutionary suspension advances. This results in the smoothest, most comfortable ride possible and is termed Torson-Air-Ride, Woolson said.

Mechanical torsion bars replace conventional front springs. It is declared to save space and reduce weight by 30 per cent. Safety-Sphere joints reduce steering gear friction, "greatly reducing steering effort." An anti-brake dip device, which reduces forward pitch by 65 per cent, is also standard.

Rear-end stability is said to be increased by mounting rear springs outboard of the frame. De Soto's redesigned Oriflow shock absorbers give "heightened performance" on any road surface.

The new De Soto Firesweep engine is a V-8 powerplant rated at a highly-competitive 245 hp, with a 325 cubic inch displacement, 8.5 to 1 compression ratio and a new "high-intensity" camshaft.

The Firesweep offers four transmissions, including De Soto's new Torque-Flite.

A near-full range of optional equipment is offered with Firesweep, including De Soto's "four-season air conditioning."

The new cars are available in 64 different color combinations, 14 solids and 50 two-tones.

Air Pollution Unit Delays Smoke Law

PORTLAND, Oct. 26 (AP)—The state Air Pollution Authority yesterday scheduled its next meeting for December after delaying action on adoption of a statewide anti-smoke law.

The agency granted industry spokesmen more time in which to study its proposed regulations to control industrial smoke. One trade association said a report is expected shortly on a study by the Stanford Research Institute of air pollution in the Portland area.

Springfield Has Youngest U.S. Grandmother

EUGENE, Oct. 26 (AP)—A Springfield woman who became a grandmother a week ago Sunday is three years younger than the recent winner of a nationwide "youngest grandmother" contest.

Mrs. Lola Taylor, 32, who lives in Springfield with her husband and two sons, said her 16-year-old daughter gave birth to a 6½ pound boy. The daughter is Mrs. Lola Wilkie of Buckeye, Ariz.

Lola was married at 15, as was her mother. Mrs. Taylor said she is happy to be a grandmother and is anxious to see the new baby.

Severe Quake Recorded

BERKELEY, Calif., Oct. 26 (AP)—One of the most severe earthquakes of the year was recorded at the University of California seismographic station today.

Assistant seismologist Don Tocher said the tremor began at 3:02:59 Pacific standard time with a Richter magnitude of 7, making it one of the five or six big quakes this year.

Tocher said the shock was located about 5,700 miles from Berkeley, probably in the south-west Pacific.

Truman Hits 'Part-Time' Role of Ike

BUTTE, Mont., Oct. 26 (AP)—Former President Harry S. Truman tonight called President Eisenhower "a part-time do-nothing Republican President."

"Some people say they like Ike," Truman said in a prepared speech.

"I like Ike, too, but I don't like him as President. He is a good man at taking orders. I employed him, myself, a couple of times, and he does a pretty good job when he has a good boss."

Truman said Eisenhower has broken as many of his 1952 campaign promises as "the Republican 80th Congress did at that special session."

"In many ways," Truman said, "the campaign this year reminds me of 1948. The main difference is that in 1948 we were running against a do-nothing Republican Congress. This year the Democrats are running against a part-time do-nothing Republican President."

Truman also criticized Vice President Richard Nixon.

"You can't vote for Ike without voting for tricky Dicky," he said.

Truman told a Democratic rally here that Adlai Stevenson and Estes Kefauver are "putting on a terrific campaign." He added that he hoped the people are listening to the Democratic candidates for president and vice president because they are telling the truth.

MORE WOMEN IN CABINET

NEW DELHI, Oct. 26 (AP)—The Congress party, controller of both national and local governments in India, has decided state administrations must have more women Cabinet members. Cabinets are to be appointed for governments of reorganized states next month.

Woman Convicted of Killing Mate, In-Laws

CROWN POINT, Ind., Oct. 26 (AP)—An all-male jury found Mrs. Opal Collins, 25, guilty today of murdering her husband and three in-laws and recommended a sentence of death in the electric chair.

The verdict was brought in exactly 23 hours after the case went to the jury.

If the Hammond housewife is executed, she would be the first woman to meet that fate in Indiana.

FFA Livestock Judging Planned Today at Portland

PORTLAND, Oct. 26 (AP)—A regional championship FFA livestock judging contest will be a feature of tomorrow's closing day program at the Pacific International Livestock Exposition.

Some 600 Future Farmers of Oregon, Washington and Idaho are expected to compete.

Count Gives Demos Edge in Alaska Vote

JUNEAU, Alaska, Oct. 26 (AP)—Completion today of the absentee ballot count from Alaska's Oct. 9 election assured Democrats of 31 of the 39 territorial offices and legislative seats.

The final count added one more seat to the Democrats' sweep of the territorial House, making it 21-3.

Democrats won all six of the territorial-wide offices at stake in the election, but the Republicans won five territorial Senate seats to the Democrats' four. Seven hold-over seats, however, will give the Democrats control of the Senate.

The Democrats' victory is less one-sided than in 1954. They won 32 of 36 in that midterm election. In the 1952 presidential election year, the Republicans won 27 of 37.

The Alaska results were watched nationally because of the accuracy of the legislative results in past elections in presaging the national trend in November.

Lunch Date Near Fight for Solon, Consul

SAN FRANCISCO, Oct. 26 (AP)—Sen. George W. Malone (R-Nev.) and Sir Robert Hadow, British consul general here, almost came to blows at a luncheon today.

Malone, long-time foe of the reciprocal trade agreement and of foreign aid, said in a speech at the weekly Commonwealth Club luncheon that the United States and Russia are the world's only major nations.

Afterward, during a question and answer period, he said England is living in the glory of a 300-year-old imperial reputation and likened the current status of Britain to that of Spain after the Spanish colonial empire had crumbled.

Shortly afterward, as the audience was filing out, Sir Robert passed the speaker's table, and according to those in the immediate vicinity, charged that Malone was "a bloody liar."

Malone leaped over the table and, as Hadow jumped back, swung a round-house blow at the diplomat.

Herbert Hanley, San Francisco insurance broker, and Ray Marks, Southern Pacific railway executive, restrained Malone, while others talked Hadow into leaving.

Refuses Comment
Hadow refused to comment on the incident afterward, but was reported to have relayed an apology to Malone through Commonwealth President David Bohannon.

Malone, a one-time college boxing champion, said "I'm sorry it happened. He's just another Britisher and in my opinion he doesn't represent the majority of the British people."

Salem Obituaries

Baby Sharon Prescott
Late resident of 2333 Evergreen Ave., Salem, Oregon 24th. Survived by parents, Mr. Dennis and Mrs. Marjorie Prescott, both of Salem, Grandchildren, Mr. and Mrs. Ward Prescott, Salem and Mrs. Marjorie Taylor of Salem. Services will be Saturday, October 27 at 1:30 p.m. Interment in Hayesville Cemetery. The Clough-Barrick Funeral Home in charge.

Dr. Grover C. Bellinger
Late resident of 1700 S. Winter St., at a local hospital Oct. 24. Survived by wife, Mrs. Mattie Bellinger, Salem; daughter, Mrs. A. T. King, Salem; son, Grover L. Bellinger, Salem; sister, Mrs. Edith Skene of Gig Harbor, Wash.; brother, Clifford Bellinger, Salem. Also 7 grandchildren. Services will be held in the Virgil T. Golden Chapel, Saturday, Oct. 27 at 4 p.m. Dr. Brooks Moore officiating. Interment at City View Cemetery.

Vester Neal Bonas
At a local hospital Oct. 25. Late resident of Turner. Survived by wife, Mrs. Edith Bonas, Turner; daughters, Mrs. Melvin Holt of Turner, Mrs. Jack LaFont of Astoria, Mrs. Lester N. Bonas of Turner, six grandchildren. Sisters, Mrs. Cora Scott, Portland; Mrs. Emma Standifer, Salem; brother, Archie L. Bonas, Salem. Services will be held in the Virgil T. Golden Chapel, Saturday, Oct. 27 at 2 p.m. Dr. Lloyd T. Anderson officiating. Interment, Belcrest Memorial Park.

SWIFT...SURE...SPACIOUS

MARK II MODELS ENGLISH-BUILT FORDS

SWIFT Ford Motor Co., Ltd. has designed powerful new 4- and 6-cylinder "oversquare" engines to cut over-all operating costs and give a smooth, vivid performance. Famous "GLIDE RID" suspension—superb acceleration and positive cornering ability offer unexcelled motoring pleasure.

SURE The ideal power-to-weight ratio of the new MARK II MODELS gives alert performance in congested traffic and responsive road performance on the highways.

SPACIOUS The new Mark II cars are designed with spacious interiors for your comfort, featuring a generous allowance of interior and trunk room for six-passenger capacity. Panoramic windows for excellent visibility—you see all four fenders from the driver's seat. Extremely low turning radius—modern styling and traditional English Ford economy of operation.

There are eleven models of the new English-built Ford designed to meet the discriminating demands of the car buyer who wants LOW FIRST COST—LOW OPERATING COST—plus the comforts of a modern, luxurious car. Test drive them at your dealer. OVERDRIVE IS AVAILABLE AS AN OPTIONAL EXTRA—Zephyr and Zodiac models.

Tom McCahill says: "If you're in the market for a small car for any reason, give the Zephyr a trial before making your decision."
MECHANIX ILLUSTRATED Magazine—August 1956

Joe Wherry says: "England's Zephyr II and Consul II blend old-style economy and new-found liveliness."
MOTOR TRENDS Magazine—August 1956
