

YWP Review

Many hours of cooking and menu planning go into the annual YWCA-YMCA Smorgasbord set for this Wednesday at the YWCA. This benefit dinner for the YWCA-YMCA World Service Fellowship funds will be a feast for the best of gourmets. Dinner will be served continuously from 5 to 8 p.m.

Mrs. Oscar Lindahl has planned the food fare for the nine previous dinners and again this year is at the helm to serve the best of traditional Scandinavian food.

Each year 700 adults and children have been fed and this takes a lot of food which is prepared by a large number of YWCA members. All day Tuesday the smell of broiling meat balls will be sniffed through the halls of the YWCA, but this doesn't end it, foams, turkeys and creamed cod fish balls are also prepared.

The salad line includes cabbage, potato, vegetable, gelatine and a special herring salad with sour cream dressing.

Breads Baked
Breads, baked especially for this affair are rye, Christmas bread, flat bread and lefsa. Goat, Danish, carrot and Swiss cheese are also specialties.

To top off this dinner typical Scandinavian desserts are fläddpanna, krumböcker and fruit pudding.

Decorations this year will carry out the autumn theme with fall fruits, nuts and by decorating the tables. A new service will be two smorgasbord tables to speed up the serving.

Folk dancers will entertain during the dinner with typical dances which should delight the adults as well as children.

Y-Teens Plan Sale

A group of Leslie 8th grade Y-Teens are planning a rummage sale for Saturday, Nov. 17 at 471 Court Street beginning at 10 a.m. Sandy Calaba is general chairman, assisted by Ann Fisher, Gail Elliott, Pat Warden and Bonnie Burgess. Proceeds will be used by the group to carry on their philanthropic projects.

Modern Etiquette

By ROBERTA LEE

Q. My sorority is holding a dance soon and we are supposed to bring dates. How do I go about asking a boy to accompany me?

A. Merely say, "My sorority is giving a dance on the 20th, Johnny. Would you like to go with me?"

Q. Is it the duty of the person who is pouring tea to put the sugar or cream into the guest's cup?

A. Yes, but she should first ask how much of either of both ingredients is desired.

Q. Do the men attendants at a wedding pay for their own bouquets?

A. No; the bridegroom is supposed to furnish these.

Needlecraft

Golden Reception At Church Sunday

Mr. and Mrs. J. I. Wagers will celebrate their golden wedding anniversary on Sunday, Nov. 18 at a reception at the First Christian Church between 2 and 5 o'clock.

Friends of the couple are being invited through the press to call and the goldenweds request there be no gifts.

Hosts for the anniversary party are the Wagers' four sons and daughters-in-law, Mr. and Mrs. Robert Wagers, Mr. and Mrs. Vicer Wagers, Mr. and Mrs. Lee Wagers, all of Salem, and Mr. and Mrs. Ralph Wagers of San Luis Obispo, Calif.

Couple to Wed On Saturday

Mr. and Mrs. Arnold Phillips of Turner are announcing the forthcoming marriage of their daughter, Rita, to Louis J. Heuberger, son of Mr. and Mrs. N. J. Heuberger of Sublimity.

The ceremony will take place on Saturday, Nov. 17 at St. Boniface Catholic Church in Sublimity at 10 o'clock before members of the immediate family.

The couple will live in Salem on return from their honeymoon.

Students Will Tell Of Summer's Trip

The Salem Lions Club auxiliary will meet Thursday evening, Nov. 15 at the home of Mrs. Everett Wilcox, 700 S. Church St., at 8 o'clock.

Mrs. Victor Sword will be hostess for the evening, assisted by Mrs. Jacob Fuhrer, Mrs. Don Foster, Mrs. William Kinsey, Mrs. Marc Seale and Mrs. Morrill Cray.

The evening's program will be presented by Miss Dignie Jones and Gary Zwicker, who were American Field Service exchange students in Europe this past summer.

Mrs. George Hug will entertain the Kappa Alpha Theta alumnae at her Fairmount Hill home Thursday night at 8 o'clock. Assisting hostesses will be Mrs. George S. Hoffman and Mrs. Clifford Robinson.

Dear Ann Landers:

Sharp Replies Given To Solvent Bachelor

By ANN LANDERS

The letter which appeared in this column recently signed Single, Solvent and Smiling has created such heated differences of opinion among the readers that I am reprinting it along with The Voice of the People:

Dear Ann Landers: I'm an average American male. My wife does not run around with married men. My daughter is not involved with an ex-convict. My in-laws don't come over uninvited and they have never borrowed money. I have a nice bank account and no debts. I'm not a nervous wreck, nor am I alcoholic. What is the key to my success? Simple—I'm not married. Why don't you pass on this magic formula to your readers?—SINGLE, SOLVENT AND SMILING

Dear Single, Solvent and Smiling: If everyone used your magic formula there wouldn't be any people around—Single, Solvent, Smiling or Otherwise. It must be wonderful to be free of the woes you've catalogued, but so long as you're listing the things you DON'T have, include the following:

You'll never have the encouragement and moral support of a woman by your side when the going gets rough. The cleaning lady won't be much help, especially on her day off.

No joy can match a father's pride when the first son gets taller than his dad. You'll miss the immense thrill of having a daughter who thinks her dad is the greatest guy in the world. Money in the bank is a poor substitute for the grandchildren you'll never have.

Traveling life's road solo is no guarantee against being nervous, alcoholic or broke. Many a bachelor is one or all three. The young man who today congratulates himself on being Single, Solvent and Smiling, may wake up tomorrow to find he's been Selfish, Smug and Stupid.—ANN LANDERS

Dear Ann: My wife and I just read the letter signed Single, Solvent and Smiling. We'd like to comment if we may.

Perhaps being Single, Solvent and Smiling doesn't solve all life's problems, but neither does being Parental, Patient and Proud. After devoting 20 years to raising four children, my wife and I have decided parenthood is for the birds.

You speak of the "satisfaction" of seeing your son grow to manhood and aid. . . "no joy can match a father's pride when our first son gets taller than his dad." I'd like to tell you what happened when our first son got taller than his dad. He belted me one and I carried a black eye for days.

You speak of the thrill of having a daughter who thinks her pop is the greatest guy in the world. We have a 13-year-old monster. If she thinks her pop is the greatest, she's certainly keeping it a secret.

Kids today are living at a break-neck speed. The parents are strictly on the "outside." We've been through the mill with our four. If you have any questions about the youth of today, Ann, ask us. We know ALL the answers.—THE FOLKS

Dear Folks: Just one question: who raised these kids anyway?

Dear Ann: Your answer to Single, Solvent and Smiling was the best piece of writing I've ever seen in an advice column. . . and I'm 72 years old. It had plenty of sock and my hat is off to you. You're The Queen. Ann and God Bless you—HAPPY GRAMPA (Copyright 1956, Field Enterprises, Inc.)

NOW AT YOUR

Silverton Dateline

Mrs. Stewart Heads for Indiana

By LILLIE MADSEN

SILVERTON—Mrs. I. L. Stewart left mid-week for a visit to Indiana and Kansas, returning home in time for Christmas with her daughter, Mrs. Peri Bye and family.

Mrs. Stewart is making the trip by plane, her first long flight and her first visit to the midwest in eight years. She will be met in Chicago by a nephew who will take her to Walkerton, Ind., and after visiting there for three weeks, she will go to Topeka, Kans., to visit two sisters and a brother.

Mrs. Virginia Hughes and her daughter, Ede Lou, and Mrs. Larry Ernst and son, Rickey, have returned from several days visit in the San Francisco Bay region. Mrs. Hughes and daughter were guests of her brother and his wife, Captain and Mrs. James Anderson, stationed at Hamilton Base, and Mrs. Ernst and son were guests of relatives at Redwood City.

Miss Gibby Engaged
Mr. and Mrs. L. D. Gibby are announcing the engagement of their daughter, Sarah Kay, of Corvallis to Howard Poppleton, son of Mr. and Mrs. Lyle Poppleton of Salem, formerly of Silverton. A December wedding is being planned. Both are graduates of Silverton High school. Miss Gibby, who attended the University of Oregon for two years, is now employed in Corvallis. Her fiancé is a senior at Oregon State College.

Mr. and Mrs. Neils Nelson left by car Saturday for Louisiana where they will visit until spring. They will be guests of their daughter, Mrs. Robert Warren and family. Enroute the couple will make stops in Nebraska to visit other relatives.

St. Cecilia's Guild of St. Paul's Episcopal Church will be entertained tonight at the home of Mrs. Victor Collins, 2645 Englewood Ave., at 8 p.m. Mrs. Earl Croghan will be the co-hostess.

Mrs. Margaret Willis will be hostess to the Nebraska Club at her home, 965 N. 5th St., Wednesday noon for a no-host luncheon.

Calf Embryo Skin Eyed for Human Burns

By FRANK CAREY
AP Science Reporter

WASHINGTON, Nov. 12 (AP)—The possibility that skin from calf embryos might be used as a temporary dressing to reduce skin grafting requirements in certain kinds of plastic surgery was seen today by a team of Navy and civilian doctors.

The doctors hoped eventually to demonstrate that such hairless calf skin might be applicable in a wider role—emergency treatment of burned people in the event of atomic or other large-scale disaster. But they stressed that no trials of the technique have yet been made in burns.

Do Not Know Yet
And they added that "we frankly do not know as yet whether this material is practicable for use on the burned patient" despite encouragement for certain other uses.

The scientists are Drs. Blair O. Rogers and John M. Converse of New York University College of Medicine, and Lt. Cmdr. A. N. Silvestri of the National Naval Medical Center, Bethesda, Md. They made their report to the Annual convention of the Assn. of Military Surgeons of the United States.

They said a few human experimental trials suggest the possibility of using such skin temporarily to cover relatively large areas of forehead and scalp from which flaps of skin are temporarily "rolled down" in stages.

Unlikely Scars
The researchers said present techniques of grafting a patient's own skin temporarily into "flap" areas is a time-consuming process, causes additional pain to the patient, and sometimes leaves an unsightly scar at the place from which the temporary graft was taken.

The scientists declared that the embryonic calf skin might also be used as a dressing for areas of the body from which skin for grafting has been taken.

A small-scale study indicating possible variations in potency of vaccine from four different manufacturers was reported to the American Public Health Assn., by Howard J. Shaughnessy, Ph.D., Richard A. Morrissey, Ruth E. Church, M.D., and John L. Neal of the Illinois State Department of Public Health, Chicago.

The potency of single lots of vaccine from each manufacturer was studied on small groups of children in four different areas of Illinois.

Blood tests were made before and after a series of two shots to measure how well the shots created protective antibodies against polio virus.

Except for children getting one particular lot of vaccine, the antibodies were below the level generally expected, the health team said in a formal report at the opening of the APHA's 84th annual meeting.

Some children might have produced more antibodies because they had already been exposed naturally to the virus, and thus had some antibodies to begin with.

But this probably didn't account for all the observed differences in the effectiveness of the vaccines studied, the scientists said.

A third dose gave a good booster effect in most youngsters who hadn't responded well to two prior shots of the very same vaccine, they added.

Dr. Shaughnessy said larger studies should be made to learn whether there actually are significant differences in vaccines from different makers, or whether lots from the same maker can vary in potency.

The report said it is sometimes forgotten that three shots should be given, and that undue stress is put on failure of only one or two shots to protect some children from paralytic polio.

President of U.N. General Assembly

UNITED NATIONS, N. Y., Nov. 12—Prince Wan Wathayakon, Thailand's foreign minister, is shown with wife, left, and daughter Wiwan, right, after he was unanimously elected president of 11th session of U. N. General Assembly. The prince, Thailand's permanent representative to U. N., succeeds Jose Maza of Chile. (Story on Page 1). (AP Wirephoto).

Polio Vaccine Strength May Vary, Say Scientists; Complete Series Stressed

By ALTON L. BLAKESLEE
Associated Press Science Reporter

ATLANTIC CITY, N. J., Nov. 12 (AP)—Some batches of Salk vaccine may be stronger or weaker than others in creating protection against polio, Chicago scientists said today.

They said this makes it all the more important that children take their third or booster shots. The third shot of what might be a weaker vaccine apparently creates good protection in most children.

A small-scale study indicating possible variations in potency of vaccine from four different manufacturers was reported to the American Public Health Assn., by Howard J. Shaughnessy, Ph.D., Richard A. Morrissey, Ruth E. Church, M.D., and John L. Neal of the Illinois State Department of Public Health, Chicago.

School District Number in U.S. Cut in Half

WASHINGTON, Nov. 12 (AP)—The number of school districts in the United States has been reduced by more than half since 1942, the Census Bureau said today. The reduction followed consolidation of schools and reorganization of school districts, mostly in the rural areas.

At the start of the present school year, the bureau said, there were 51,881 school district governments in the nation. That compares to 108,579 counted in 1942. The present total also shows a drop of 23 per cent from the 67,246 total in the fall of 1951.

The report showed there were 2,521 additional public school systems operated by other methods—mainly as agencies of county, municipal or township governments. These included the state-administered public schools in local school systems in Pennsylvania operated jointly by two or more school districts.

In the reduction of school districts for the last five years, Minnesota showed the largest cut of 2,648 districts or 42.5 per cent to a total of 3,579.

Witchcraft Brings Forth Two Eggs

MEXICO CITY, Nov. 12 (AP)—Witchcraft is still reported in Mexico, and sometimes the claimed result is startling.

A woman in a crowded police court hearing in the village of El Pital, Veracruz, said an enemy put the hex on her.

As a result, she complained her abdomen began swelling and later she laid two eggs.
