

### Pet Deer Clad in Red

MANISTEE, Mich., Nov. 20 (AP)—A pet deer has been clad in a bright red coat for the duration of the Michigan deer hunting season. Two boys who have been feeding the deer and trained it to answer their call told conservation officers: "We can't tie him up because it's against the law. But we thought if we made him a red coat, nobody would shoot him." The coat is a wide band of bright red material fastened around the deer's middle.

### Minor Errors in Canvass of Vote In County Noted

Official canvass turned up minor errors Tuesday in all of the eight state and district offices in Marion County returns of the November general election.

Biggest change turned up in the race between Sen. Wayne L. Morse and Douglas McKay for U.S. Senator where Morse lost 203 votes previously accredited to him in unofficial tallies. The change widened McKay's Marion County margin over his Democrat opponent to 2,566 votes.

In nearly all cases for the president, senator, congressman, governor, secretary of state, treasurer, attorney general, and district attorney offices the candidates gained some votes from the unofficial counts which followed the election.

**Single Exception**

One exception was Miss Hattie Brazzel, Republican candidate for district attorney whose victory margin over Thomas C. Enright was further narrowed to 629 votes in official returns. A total of 97 votes were added to Enright's count and 49 subtracted from Miss Brazzel's.

The official returns by offices were:

President, Dwight D. Eisenhower, 28,900; Adlai E. Stevenson, 16,170; Senator, Douglas McKay, 23,398; Wayne L. Morse, 21,032; Congressman, Jason Lee, 18,483; Norblad, 25,834; Governor, Robert D. Holmes, 19,235; Elmo Smith, 25,635.

Secretary of State, Mark Hatfield, 29,355; Monroe Sweetland, 15,186; State Treasurer, Wiley Smith, 15,012; Sig Linauder, 29,077; Attorney General, Carl Francis, 19,632; Robert Thornton, 23,815; District Attorney, Hattie Brazzel, 20,979; Thomas C. Enright, 20,350.

### Meningitis Victim Said Improved

The condition of George Schroeder, 4½, seemed to be further improved Tuesday, two days after an attack of meningitis, the doctor said.

George, son of Mr. and Mrs. George Schroeder, 3037 Hulsey Ave., was taken to Salem General Hospital when he became suddenly ill Sunday.

No further cases were reported to the Marion County Health Department Tuesday after two cases, one fatal, were diagnosed Monday, according to the office of Dr. Willard Stone, county health officer.

Eight-month-old Richard E. Bouchie, son of Mr. and Mrs. Forest E. Bouchie of Turner, died Sunday after a short illness which was later determined to have been meningitis.

### FHA Okehs Two Board Size Rules

WASHINGTON, Nov. 20 (AP)—The Federal Housing Administration said today it will continue to approve the use of ¾-inch lumber stock for housing construction, as well as the standard 25-32d thickness.

The announcement followed work from the Commerce department of a delay in proposed revision of lumber standards under which ¾-inch boards would be accepted.

West Coast producers had requested the change, reducing the approved thickness of common green lumber from 25-32 of an inch to ¾ of an inch, a difference of 1-32d of an inch.

The Commerce department said it withdrew the proposed revision after receiving a number of protests, principally from Southern pine producers, who asked that a moisture content limit be included in the revision.

The American Lumber Standards Committee now will reconsider the matter.

### Flood Fight Plans Form

ROSEBURG, Nov. 20 (AP)—A county-wide alert system to minimize perils in event of another disastrous flood such as occurred last winter has been devised by federal, county and municipal agencies in Douglas County.

Ben B. Irving, director of the system, said it would keep county residents advised of river stages during critical periods. Participating in the plan are the Douglas County Water Resources Survey, the U.S. Weather Bureau and Civil Defense units.

Irving said volunteers have been enlisted as stream gauge watchers at 15 points along major streams. They will report when rainfall exceeds one inch a day, and provide additional information if a heavy rain continues.

### Early Plans for UNICEF Urged

Early planning will result in greater participation in the United Nations International Children's Emergency Fund Halloween drive, it was decided Tuesday evening at a meeting of the Salem chapter in the YWCA.

Miss Fay Dickerson, chapter chairman, said at least 200 children and 15 churches participated in this year's drive and that the number can be increased considerably if next year's plans are laid during the summer months. Two Brownie troops and junior high school students at St. Joseph's Parochial School also participated.

In examining the drive just completed, Miss Dickerson said that it was found that children between the ages of 9 and 11 showed the greatest interest. "It is the group's intention," she said, "to increase the number of students in this age group during the 1957 drive."
