Babson Reports:

Mideast Struggle To Bring Inflation

Z,

Copyright-1958-Publishers Financial Bureau, Incorporated BABSON DISCUSSES THE MIDDLE EAST AND PROSPECTS FOR WAR By ROGER W. BABSON

BABSON PARK, Mass., Nov. 29-Israel will withdraw from the Middle East situation. She has been warned that if there is a real war, she will probably be wiped out. If there is real trouble, it will he between Egypt, supported by Russia, and England, supported by France. France has probably lost the Arab countries. So it would be Egypt, supplied by munitions and airplanes and 'volunteers' from Russia, against England,

backed by France. HOW PRESIDENT EISENHOWER FEELS

Mr. Eisenhower knows the situation probably better than anyone else; he has spent a year in North Africa with the Arabs. We must count on possible two or three year struggle,—which probably means inflation. The United States will supply arms at least to England and possibly to Egypt would do that because we want to be on friendly terms with the Egyptians and Arabs.

Mr. Eisenhower is very much disappointed i both England and France. Not only did they not ask his advice, but they went ahead very contrary to his wishes. Mr. Eisenhower has also been disappointed in the way the Western Powers have failed in connection with NATO. He would not object to having these Western Powers-including England-get a good scare Mr. Eisenhower was elected on the platform of Peace, Prosperity and Progress. He will now either refuse to take an action or else will dump the problem in the lap of the United Nations. He certainly wishes to avoid another Korea.

PRICE OF GASOLINE WILL RISE

oil interests have notified Washington that, on the basis solely of supply and demand, fuel oil and, indirectly, gasoline will move up 1/2 cent a month until oil is again coming from the Middle East. The Mid-East has pipe lines and the most important one has already been blown up. England and France have already gone on a rationed basis for oil

I think that the present uncertainty will drag on until the next Congressional elections. If it does, Eisenhower may think be can win Congress by just going to the people and telling them it is a choice between paying 10 cents a gallon more for oil or sending their boys to Europe, and that he will leave it to Congress. Therefore he and his advisers feel the Republicans have a chance of getting control of both Houses in the next Congressional elections. Eisenhower favoring free enterprise, he would very much hesitate to interfere with the natural flow of oil in either the East or West, but would leave the price to supply and demand.

INTERNATIONALIZE THE DARDANELLES

The Middle East oil fields are the plum of the world until we get organized on nuclear energy. A month ago the land there was the most valuable land in the world. Russia claims that she is not interested in the oil-that the only thing she will insist upon is the following: If the Suez is internationalized, the Panama Canal and the Dardanelles must also be internationalized. Russia insists that the Dardanelles and Panama be put on the same basis as Suez.

Egypt pretends to represent the Arab world, but what is happening in Hungary should make the Arabs fear Russia and no longer trust her. The United States, therefore, stands a better chance of winning the Arab world. Eisenhower was over there for a year and he knows North Africa far better than does Eden or Mollet,

EXPERT'S CONCLUSIONS

Under the above conditions, I now see no chance of a real slum net year (1957); but 1957 may be a leveling-off year. A big break may not occur, especially in view of all the pension funds and unemplayment legislation, minimum wage laws, and the Employment Ac I still have faith in the Law of Action and Reaction; but when I developed the Babsonchart, we had been on a Gold Standard for many years. We had a natural ceiling and a natural floor Hence, it was fairly easy then to make correct forecasts based on the Babsonchart areas.

Now we are on a Political Standard and not a gold Standard. And elastic band can be stretched, but sometime it will break. Hence, laste band can be safetched, but sometime it will be a last in the Law of A etion and Reaction. Those Babsonchart areas can be manipulated by political action for perhaps four or five years before we go below the X-Y line but ultimately we will have to pay the price.

Forest Lands **Funds Sent**

PORTLAND, Nov. 29 - Checks amounting to \$13,736,252 were mailed within the last few days to the state treasurers of Oregon and Washington by the U.S. Treasury as the share of these two states in last year's receipts from national forest lands.

The amount is based on revenue from the 19 national forests comprising the Pacific Northwest Region and two others, the Colville and Klamath, portions of which extend into Oregon and Washing-

Regional Forester J. Herbert Stone said Oregon and Washing ton receive \$9,422,817 and \$4,313. 435, respectively. The payment represent 25 per cent of receipt from timber sales, grazing of live stock, land and other uses of the

The total received by the trates is up \$4.125,091 over what was the preceding fiscal year,

Variety Store | Chicago Grain To Open Soon

Munkres Thriftwise Variety will open its doors here Monday with a complete line of variety mer-

Regular hours for the new Salem firm will be 9 a.m. through 9 p.m. at its location on 3098 N. Portland Rd., former site of Man gus Variety.

Walt Munkres, owner and manager, operated a similar business for three years in McMinnville before moving to Salem. He plans a grand opening for the store in the near future.

14 New Tree Farms Certified

PORTLAND, Nov. 29-Fourteen

The new tree farms, all taxpaying non-industrial forest properties, push the total Douglas fir region tree farm area to 4,830,656 acres.

The new tree farms (by name ownership and county) include these in the Salem area: Silverim, John Lalicker and R. F. Watson, Marion; Marvern, Vern D. and Mrtha E. Bronson, Polk.

Women employees on British rail-ways are regularly given "aids to beauty" lectures.
