

Our Valley

By CHARLES IRELAND

Back on the valley beat after "second honeymooning" briefly in Santa Barbara, Calif., where the wife and I were married in 1943... Santa Barbara is a lovely town and had weather to match for a few days... Then some clouds drifted by and somebody sent up a whole squadron to plant seeds in them. Result: A heavy rain—the first measurable one at Santa Barbara since last spring... What a naughty trick to play on anyone on vacation from the Willamette Valley!

People down south were bemoaning the lack of rain just as much as valley folks ever gripe about too much of it... The heavy rain a week ago brought Santa Barbara's total since last spring to little over an inch... Normal for the period is about 13 inches... Los Angeles was gasping even harder than Santa Barbara... L. A. is a city that certainly won't "get the blues when it rains."

The Rose Bowl gave Oregon quite a splash of publicity in the Los Angeles papers; otherwise news from the old home town was scarce as hens' teeth... Bought about 40 editions and noticed only one Oregon dateline in the whole caboodle... And what do you think it was?... Portland? Salem?... No, it was a little story datelined Valsetz, in which young Teddy Goodell informed those parched Southern Californians that 1956 had been a relatively dry year in his neighborhood, too, with only 12½ feet of rain measured.

The Rose Bowl is just a lump in Oregon State's throat now, but there's one thing that hasn't been reported... Too bad the Los Angeles sports writers missed it while they were shedding so many quarts of tears over the result... It came from the Iowa team trainer who said "there was blood on every single one of those white Iowa jerseys when the game ended"... Where could you find better evidence that those Oregon State players battled their hearts out every minute of that bruising game?

The Statehouse isn't the only place where faces are changing fast since the election... The Independence Enterprise reports that its neighboring town of Monmouth has seen five city employees resign since a new mayor and several new councilmen were elected in November... Latest was Police Chief Cy Leum, who resigned last week.

Aumsville Boy Scouts came up with the ultimate in service this year when they sold Christmas trees... They not only sold the trees, they came around after the holidays, collected the trees and burned them up... They made \$60 on the project.

A package mailed from Sheridan to Boise, Idaho, over a year ago contained a (1955) Christmas present... It was delivered just in time for Christmas this year... Sheridan Postmaster Cliff Bride says it left his office promptly and must have got snarled up inside a mail sack where it remained for a year.

An unusual statistic comes from George Mills of Jefferson who says his family kept tract of all the callers who visited them during the past year... Total for the year was 1,492 visitors... George, that is a lot of company... Hope they didn't all stay for dinner!

Several Thousand Expected At Benedictine Home Dinner

Statesman News Service
MT. ANGEL, Jan. 12—Alumnae of Mt. Angel Academy and Women's College were contacted this weekend to help with the "Buy A Brick" campaign for the new Benedictine Nursing Home that is to culminate with the benefit dinner Sunday, Jan. 20. All former students were also asked to support the ticket sales for the dinner which will be served in the Academy gym and the girls' dining room from 11:30 a. m. to 2 p. m., serving about 300 at each sitting.

Women of the parish will help the Sisters with the preparation of the meal and girls from the two schools will serve. The students will also take care of free baby sitting. Added interest will be a free organ program.

The Sisters expect to serve several thousand.

Some of the alumnae have started a house-to-house canvass for the brick sale, a donation of one dollar being asked for a brick. At the same time sophomores and freshmen of the Academy are vying for the honor to act as official hostess at the dinner and to turn the first spadeful of earth at the ground-breaking to be held early in February.

Construction of the new home for old people has been timed to coincide with the 75th anniversary of the coming of the Benedictine Sisters to Oregon.

Salem Heights Added 280 Water Meters in 1956
SALEM HEIGHTS, Jan. 12—Salem Heights Water District added some 280 meters during the last year and now serves an estimated 5,000 persons, the district reported today.

The district now has approximately 1,250 meters. The number of persons served is based on a survey which indicated that at least four use the water at each hookup.

Additions during the year were described as "general throughout the area."

The USS Saratoga can change her position as much as 600 miles in one day.

DALLAS, Jan. 12—Contractor John Steinmuller, Eugene, is pushing forward construction of new 8-classroom Whitworth Elementary School here despite bad weather. Sea of mud surrounds present construction scene.

350 Loggers Recalled To Work in East Linn But Unemployment Tops Year Ago

LEBANON, Jan. 12—Approximately 350 men were recalled to employment in logging operations in December in the east Linn County area, it was revealed this week through Charles Wilson, manager of the branch of the Oregon State Employment Service.

An increase in unemployment was noted over the same period of a year ago, however over 1200 workers are seeking work through this office.

The melting of early snows aided in a return to work for many logging operations, but few new men were hired. Most sawmills operated last month, although some curtailments were in evidence. A little construction work progressed during the month, but little building. Most retail trade establishments reported a good month.

New and additional claims were 10 per cent more in December as compared to that of 1955. The number of weekly continuations for unemployment compensation in December were 26 per cent greater than a year ago. The slow lumber and plywood market in this area indirectly affected other businesses and was cited as the primary reason for the increase in unemployment.

Schoolhouse Up for Sale At Silverton
SILVERTON, Jan. 12—The Silverton School board has decided to sell the former junior high school brick building, and the lot on which it stands, reports Milton Baum, superintendent of Silverton schools.

The district has no further use for the building as it is considered obsolete and substandard for school use, he added. It was condemned as such five years ago by the state department of education, and it's use has been on a conditional yearly basis since then, according to Baum. Since the new Mark Twain School was put into operation during the Christmas holidays, the old building, first used in 1915-16 as a senior high school, is empty.

Some equipment in the old school is also for sale, including desks, ranges, cabinets, work benches and hot water heaters, Baum reports.

Dallas Postal Receipts Show Another Gain

DALLAS, Jan. 12—Postal receipts continued to climb during the 1956 year at Dallas post office, announces Postmaster Carl Black.

Gross receipts totaled \$62,467 during the last year as compared to \$61,710 registered in 1955.

Black said that the percentage of gain was the smallest in any of the last five years.

Letter mail cancellations were 1,316,753 pieces for the year, a gain of 89,112 over 1955. The comparatively large increase in cancellations indicated more revenue from letter mail and less from parcels, the postmaster said.

The December quarter showed gross receipts of \$20,554, a third of the annual total. This figure compares with \$20,371 a year ago.

Largest single day's cancellations were on Dec. 17 when 21,241 pieces went through the machines. Largest day in 1955 was December 19 when some 19,000 pieces were counted.

Letter cancellations in December totaled 224,667, an increase of 13,236 over November 1955. April had more cancellations than any month other than December, Black said.

Property Transactions
Public services included the sale of money orders valued at \$423,711 and revenue stamps in the amount of \$18,928. The revenue stamps indicated property transactions of approximately \$4,350,000 during the year.

Majority bird stamps showed a decrease. A total of 283 was sold, 18 less than a year ago.

Saving stamps sales amounted to \$1,500. Black credited the PTA program in the elementary schools with most of the sales. Prior to the school programs, annual figure of \$200 was considered good, Black said.

Henry L. Mills Services Today
A native of Hubbard, Mills had farmed a 200-acre farm in the Hubbard-Aurora area. He died on Friday, his 74th birthday, at an Oregon City Hospital. He was a member of Maplewood Grange.

Surviving are his wife, Cora; a sister, Mrs. John Blosser, Woodburn; and brother, Fred Mills, Portland.

Farmers aged 21-35 in a wide area around Stayton are eligible for nomination. Cornett said. Blanks are available at the bank here. "Dist" from Harold McCall, Blyn Humphreys, Jim Martin or Cornett. Deadline for nominations is Jan. 20.

POSTAL RECEIPTS UP
SILVERTON, Jan. 12—Money orders purchased through the Silverton post office during 1956 totaled \$223,635, a report filed by postmaster Henry Alm this week, showed.

The "bird" eagle really isn't. Those few white feathers on top of his head just make him look "bird."
