

Alien's Commie Activity Upheld By High Court

By KARL BAUMAN
 WASHINGTON, May 20 (AP)—The Supreme Court held today that the Justice Department lacks authority to ban Communist activity by an alien who has been under a deportation order for six months.
 It affirmed a decision of a special three-judge U. S. District Court in the case of Mrs. Antonia Senter of St. Louis.
 Justices Burton and Clark, who dissented, said the action makes ineffective clauses of the McCarran-Waller Immigration Act of 1952 which "are vital to effectuation of the purpose of Congress in controlling subversives whose order of deportation has been forestalled by technical difficulties."
 Burton and Clark said the "summary affirmation of this appeal without argument enlarges a recent holding in a similar immigration case. That decision limited supervision of aliens who have been under deportation orders for six months to questions 'reasonably calculated to keep the attorney general advised regarding their continued availability for deportation.'"
 In St. Louis 30 Years
 Mrs. Senter was admitted to this country for permanent residence in July 1914 when she was 8 years old, and has lived in St. Louis for nearly 30 years.
 She was ordered deported in April 1953 on the ground she was a member of the Communist party. In October of that year she was served with an order of supervision. The order provided among other things, that she terminate and remain disassociated from membership in, if any support or other activity of any in or in furtherance of the doctrines and policies of the Communist party.
 "Abuse of Discretion"
 The three judge court called this order an abuse of discretion on the part of Lewis D. Burton, district director of immigration.
 The court said that nothing in the facts in the case suggested that the security of the United States would be endangered if Mrs. Senter were permitted to associate with Communists, or to carry on some activity in furtherance of some policy of the Communist party.
 It also said the facts failed to "suggest any other reason for the exercise of discretion in this case."
 Mrs. Senter's husband has been convicted of conspiracy to violate the Smith Act. The husband and two minor children are native-born American citizens.

Senate Passes Flood, Mineral Fund Measure

WASHINGTON, May 20 (AP)—The Senate today passed a supplemental money bill containing 30 million dollars for disputed mineral subsidy purchases and 14 million to start a government flood insurance program.
 Efforts of budget-cutters to reduce items in the bill or put on spending limitations were defeated overwhelmingly. The 142 million dollar measure then was sent to conference with the House by a 71-5 final passage vote.
 The Senate's action on the bill is expected to produce a hot fight with the House conferees. The House throughout this session has flatly refused to grant any mineral subsidy money.
 Further, in passing this supplemental, the House denied any part of the 50 million dollars asked by President Eisenhower for the new flood insurance program first enacted by Congress last year. Administrators of this program said the 14 million allowed by the Senate would be enough to get it under way.
 The Senate added 62 millions of spending money to the 80 million included by the House in the supplemental.
 In addition it included 66 million of loan money for various drought, disaster and farm relief programs. The loan money was in a previous supplemental this session but was lost in earlier disputes with the House. It was not included in the 142 million given as the total of the bill on the theory that loan funds will be substantially repaid.

YMCA Endorses Hot Rod Driving, Skin Diving Clubs

PHILADELPHIA, May 20 (AP)—Skin diving and "hot rods" received official recognition from the nation's YMCA Monday.
 The national council of the Young Men's Christian Assn said its clubs should "blaze new trails" in youth activities. It mentioned development of skin diving and "hot rod" clubs.
 The suggestion was included in the council's policy statement, adopted at the close of its annual convention here today.
 The council also approved plans for raising 5 million dollars to erect YMCA buildings in overseas countries.

Dead Whale Costly

NICOSIA, Cyprus, May 20 (AP)—A whale 45 feet long died of starvation in the Mediterranean and washed up on a Cyprus beach. It took a company of British army engineers a whole day, three tons of wood and 70 gallons of oil to disperse the carcass.

To Be Sure of Getting Good Meats and Produce... All You Have to Remember is SAFEWAY
