Willamette Will Welcome Fifth Sorority, Alpha Phi

A fifth sorority will come to the Willamette University campus when Alpha Phi colonizes a group in the near future, Willamette president G. Herbert Smith said Thursday.

Plans for the installation of a group are in the hands of Mrs. Wallace Brennan, Salem, a former national officer of the fraternity. Mrs. Herbert Plumb, Seattle, who is chairman of the national membership selection committee, will spend several days at Willamette when the first group of Willamette women is selected.

The new Alpha Phi chapter will be housed in University House next year. This is the former residence of the president located on South Winter street.

President Smith said Thursday that "the university board of trustees felt the need for a fifth house on campus because of the erection of Doney Hall (women's residence) and the increase in the number of women at Willamette."

Thursday the Willamette Panhellenic group, an organization of representatives of the four national sororities on campus, approved and welcomed the new group.

The last sorority established at Willamette was Chi Omega which colonized a chapter here in 1945. Delta Gamma preceded it the same year and Alpha Chi Omega and Pi Beta Phi chapters were organized in 1944.

Consenting to head the local Alpha Chi Omega alumni advisory board as chapter advisor is Miss Antoinette Kuzmanich, present dean of women at Portland State College. Miss Kuzmanich plans to marry Secretary of State Mark O. Hatfield this summer and will reside in Salem.

Alpha Phi international fraternity was founded at Syracuse University in 1872 and now consists of 59 active chapters. Early in February a new chapter was installed at the University of Wichita. On the fraternity agenda are spring installations at Drake, Pennsylvania and Arizona State. In the Northwest there are chapters at the University of Oregon, the University of Washington, Washington State College, Oregon State College, Whitman College, University of Montana, College of Puget Sound, University of Idaho, and University of British Columbia.
