1500 Mailmen To Get Break—3-Wheel Auto

LINCOLN, Neb., (INS) — Some 1,500 U.S. mailmen who currently cover their routes by bicycle or on foot are going to get a break. The "break" is the "Mailster," a three-wheel motor vehicle manufactured by the Cushman Motor Works, Inc., of Lincoln, Neb. The General Services Administration, for the U.S. Post Office Department, has placed a \$1.4 million order with Cushman for 1,500 of the vehicles for use in post offices in the Southeast, Southwest and California. For two years, the Post Office has been experimenting with 300 of the machines in Florida cities.

Powered by a four-cycle air-cooled aluminum head engine, the vehicle features a tough fiber-glass windshield, complete with electric windshield wiper, and two smaller triangular windows on either side. There also are two rear windows. Side curtains and removable canvas front apron insure the carrier complete protection for himself and the mail during foul weather.

Housewives: Budget Low? Try Whale!

By ARCHIE TEAGUE SAN DIEGO, Calif. (INS) — A professional whale-counter offers an intriguing approach to problems of the palate-jaded gourmet. And the budget-harassed housewife. Dr. Raymond M. Gilmore of the United States Fish and Wildlife Service says let them eat whale meat. He does it himself. Twice a day, sometimes.

Dr. Gilmore, mammologist and chief whale-counter on the Pacific Coast, just completed his winter count of California gray whales. Whales head south during the winter, just like people. But these specimens might have scudded farther out to sea if they could have known what the scientist had in mind.
