sulted in rapid fluctuations. A few minutes before the finish it was only a half cent away from the daily 5 cent advance limit.

Oats, except the May delivery, which is at the 81 cent ceiling, failed to attract a great deal of buying interest during the early part of the session. When a dip of about a cent developed, elevator interests bought, and shorts started to cover, with the result that active deliveres closed only minor fractions under yesterday's finish.

A few minutes before the finish it was court held for the plaintiff.
