Morse Urges Filibustering

PORTLAND, Ore., Feb. 13-(AP)-Changes in "ancient and archaic" senate rules are needed to end Morse (R-Ore) said here today as he paused en route to Corvallis and Eugene.

He proposed changes in rules to prevent filibustering; election of committee chairman rather than automatic elevation by seniority; majority vote control of bills in committee, ending the chairman's authority to kill measures by refusing to bring them out.

Morse also said:

The atomic bomb belongs to mankind, not to the people of the United States: that there is no basis for hope that taxes can be reduced; the people probably will demand more, rather than day night after he was apprehendless, government service in the future, and that the republican party must not be anti-labor.

Road to Reopen On Columbia

Reopening of the Weston-Elgin highway after several days' closure by heavy snow, and prediction that the Columbia river highway at Multnomah falls will be reopened Thursday noon, marked generally improved Oregon highway conditions Wednesday, as reported by State Highway Engineer R. H. Baldock. Since temperatures remained

unchanged, however, many roads in central and eastern Oregon continued to be packed with snow and ice, according to Baldock, who recommended chains for travel over passes on the Santiam and Willamette highways.
