Savants Studying Barracks Plan

EUGENE, Feb. 15—(AP)—Presidents of the state's institutions of higher learning have not made recommendations on a proposed junior college at Klamath Falls marine barracks, President Harry K. Newburn of the University of Oregon said today.

A number of serious budgetary, administrative and educational problems are involved, he said, and a careful study is required before educational recommendations are made.

Champion Election Set For March 9 At Silverton

SILVERTON, Feb. 15—(Special)—Silverton's total school budget for the coming year will be \$9000 less than the last year's budget, estimates indicate. The local budget committee and the school board have just completed estimates. The budget with the special tax of \$31,631.73 will be voted upon March 9 at a special election. Of this amount \$20,000 will be used for retirement of warrants and \$11,000 for general operation. The total budget is estimated at \$128,716.50.

The school board finds it necessary to open an additional building for next year. The former junior high school building facing First street will be renovated for use. The building has been vacant six years. This means additional teachers and approximately \$3700 more will be added to the teaching fund this coming year if the voters of the district approve the proposed budget. Some salary raises are also provided.

Estimated supervision of instruction for the coming year, out side of the superintendent's salary, is \$5615. General control, which includes the superintendent's salary, is \$6195. Largest one item in the budget expenditures is teachers' salaries which, out side of superintendents' and principals' salaries, totals \$75,511.50.

Of the estimated budget, \$57,591.27 is within the six per cent limitation. Total indebtedness of the district is shown at \$56,000.

Earl J. Adams was chairman of the budget committee and C. A. Hande secretary. W. R. Tomlinson is chairman of the board of directors.

She added, however, that there "possibly is hunger."

Mrs. Roosevelt made her observations at a news conference and emphasized that what she said was only her "impression" as she had been in Germany only three days.
