# China Paper Complains of Russian Treaty

CHUNGKING, Feb. 20-(AP)-The Hina Times declared today Premier T. V. Soong had signed a treaty with Russia "sacrificing Manchuria" at a time when Japan was being crushed without soviet help.

The Times joined the swelling criticism of Russian occupation of Manchuria as the government was reported drafting a reply to asserted soviet demands for a share of Japanese industry in the former puppet state.

The Times said the Sino-Russian treaty of last August was negotiated when Japan's surrender was imminent and China had no reason to bow to the big three decisions in Yalta in Feb., 1945, which, it asserted, violated Chinese sovereignty and the Cairo agreement to restore Manchuria to China.

Ho Feng-Shan, foreign office spokesman, replied to a barrage of questions on Manchuria at a press conference by saying that China was bound by the Russian treaty — not the Yalta agreement. He did not elaborate.

Chinese press dispatches said government troops had recaptured Siushuihotze, 45 miles northwest of Mukden, from communist forces. The Manchurian Guild said fighting had broken out near the communist-occupied port of Yingkow, in southern Manchuria.

"Our organization would like to remind you that older people love too. - - - We in the older age levels have our favorites too. Charles Bickford, for example, was selected in a poll of our group as the adult theater-goers' answer to the bobby-sockers' Van Johnson."

# Albany Thief's Loot Half-Fills Police Station

Salem's police station Wednesday was half filled with looted hardware, tools and machinery valued at several thousand dollars, after local police picked up the equipment from hiding places which Albany authorities said Arthur S. Hildebrandt had disclosed in confessing to an Albany burglary.

Hildebrandt was arrested Monday night in Salem upon radio advice from Albany police, and then turned over to the Albany authorities, who booked him on a charge of larceny from a lumber company there.

Most of the loot found Wednesday was tentatively identified by Portland and Multnomah county authorities here as property stolen in recent Portland burglaries.

Police records show that Hildebrandt was convicted on larceny charges seven times between 1929 and 1941 and that his sentences included two terms at the Oregon state penitentiary.

## Erosion Battle Cost Shared by Triple A

AAA committeemen are helping farmers and ranchers plan an all-out attack on erosion and depletion with the assistance of the 1946 agricultural conservation program.

The conservation work for each farm will be charted on a farm plan, the basis for participation in the program, says E. H. Miller, chairman of the State AAA committee.

At community meetings, county offices, and in individual visits with committeemen, operators will show on the farm plans the practices for which they want assistance during the year. May 1 is the final date for filing a plan for participation in the program. Payments will average 50 per cent of the cost of performing the practice.

Butterflies, said to be the most far-sighted of insects, can see movements five or six feet away.

From where I sit ... *by* Joe Marsh

Bird's-Eye View of America

A fellow took an aerial photograph of our town, and it makes the place look like Utopia.

Folks argued that the new firehouse would never look well beside the old Town Hall. But they harmonize perfectly from the air. One side of the railroad tracks looks as good as the other. All the different landmarks blend in nicely with surroundings.

From where I sit, there's a lesson in that photograph. A community's made up of different elements—people as well as landmarks. Some vote one way, some another; some enjoy a glass of beer and others don't. You might think there was a lot of reason for friction.

But it's all in your point of view. Get up high enough—see the community as a whole—and those little discords blend together into what we call America—a free, harmonious land. The differences only look big to people who see them from too close!
