PORTLAND, Ore., Feb. 25.—(AP)—A lone gunman got \$5075 from a United States National bank branch in East Portland today and forced a taxicab driver to help him escape.

Detectives reported Bank Teller Lillian Schmeer said a man with a growth of beard handed her a note demanding the "money in that drawer" and thrust an automatic through the window grill. Officers said she stuffed an uncounted amount of cash into the paper bag the gunman gave her.

Desire States To Pay Old Age Benefits

WASHINGTON, Feb. 25.—(AP)—Two republican members of the house ways and means committee declared today that any expansion of the retirement and survivors phase of the social security program should be accompanied by an end of federal relief payments.

Reps. Knutson (R-Minn.) and Curtis (R-Neb.) suggested at a committee hearing that states, under an expanded social security plan, should take over the entire burden of relief payments to the needy.

A contrary view was presented by Arthur J. Altmeyer, chairman of the social security board, who said that instead of leaving public assistance responsibility solely to states the board wants even more liberal payments made to needy people and their dependents.

Altmeyer gave the committee, at the start of a complete congressional review of the 10-year-old social security plan, recommendations for expanding the scope and increasing the amount of benefit payments in old age and survivors insurance.

He called for inclusion in the plan of approximately 21,000,000 agricultural, domestic and governmental workers, as well as self-employed businessmen and farmers, now exempt.

Altmeyer recommended inauguration of a new insurance feature, pre-payment for benefits in case of partial or permanent disability of a worker, and provisions for crediting the social security accounts of veterans for the time they were in the armed forces when no contributions were made toward their social security account credits.

Definite action probably will be taken by the state board of control here this week in connection with proposed construction of a new patients' dormitory at the Oregon state hospital farm.

Low bid of \$511,930 was submitted by Charles H. Schmiedeskamp, Oswego, against an estimated cost of \$825,000.

Followers See Peron Victory

BUENOS AIRES, Feb. 25.—(AP)—Col. Juan Peron, labor party candidate for president, today issued a post-election statement indicating that "whatever may be the result" of yesterday's balloting he had no intention of abandoning politics or dissolving his party.

Peron failed to claim victory, although his followers insisted that he had won easily. His opponent, Jose P. Tamborini, in a statement last night expressed confidence that he had defeated Peron.

Electoral boards in the capitals of 14 provinces, in conjunction with the armed forces, began the arduous task of computing more than 3,000,000 votes to determine whether Peron or Tamborini had been elected.

LET'S WORK FOR INDUSTRIAL PEACE

Men want to work. Management wants to produce. The public wants to buy. The country wants prosperity. Yet good times have been held up by an agony of strikes. Strikes breed bitterness... hunger... and economic stagnation. For the sake of our country, let's change this! Change it fast. Time is running out! Let's work out a way to get - and keep - industrial peace and prosperity.

THE FIRST STEP

Isn't a sound national labor policy... one that treats workers and management exactly alike and above all one that is fair to the public... the first step toward that peace? Sincerely believing this to be so, we offer this program for peace and production and prosperity:

1. Make employers and unions equal in responsibility under the law.
2. Let Congress set the rules for genuine collective bargaining, free from coercion and violence, and then let government enforce these rules with strict impartiality.
3. Provide safeguards for the public against strikes or boycotts arising from disputes between unions.
4. Insure against strikes until all orderly procedures for settling disputes have been exhausted.

Your representatives in Congress have the power to establish this pattern for an enduring and a fair labor peace. Let them know how you feel about it. Urge them to act promptly on legislation to include these four points. Time alone won't bring industrial peace. Doing nothing won't bring it. Positive action is the only way. For your own sake and for the future of our country, let your voice be heard!

FREE! A timely, authoritative booklet entitled "The Public and Industrial Peace," gives full details of this program, including specific suggestions for legislation. It is a useful handbook for every citizen, program chairman, or group leader. A postcard brings it. Address: National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y.
