FROM MOTHER TO DAUGHTER THIS COOKING SECRET IS HANDED ON

So often I get letters like this one from Connecticut: "I am very fond of cooking... I have been using Carnation Milk since I've been married." I wonder where she got her first start on such a valuable cooking secret.

Then I pick up my batch of unopened letters—and find a clue in a letter from West Virginia: "I have used Carnation Milk ever since I began to keep house. And my mother always used it."

So that's how it begins. Some mothers take no chances—as for example, Mrs. B—, also of Connecticut. She writes for a cook book for her daughter. "She is a young housekeeper just starting out to keep house this spring. Wise mother—she knows that with a Carnation Cook Book around, her daughter is sure to cook with Carnation Milk—and that anyone who cooks with Carnation is sure to have success!

Carnation Milk gives better results than even the best of bottled milk—making more buttery soups and sauces, richer creamed vegetables, creamier puddings, smoother, finer-textured ice creams and candies and custards.

These results it gives because it is evaporated to double creaminess and because the cream content is broken up into finest particles, making a finer-bodied milk.

Carnation Milk is simply the purest of rich whole milk, protected at the source. It comes from clean herds, housed in clean barns, milked by clean hands into clean utensils. This safeguarded milk is so uniform in quality that results are certain, so dependable that spoiled dishes that result from an uncertain milk supply never occur, so rich it continually saves butter and cream, so convenient that once you use it, you will use it always. Try the recipe below. And send for the Carnation Cook Book and Baby Feeding Book. They are free. Address Carnation Company, Albers Bldg., Front and Lovejoy Sts., Portland.

Pork Chops and Potatoes is a Carnation—6 potatoes, 1 1/2 tsp. salt, few grains pepper, 1 tsp. butter, 1/2 cup Carnation Milk, 1 1/4 cups water, 2 tsp. flour, 6 pork chops, 1 egg, bread crumbs. Scald Carnation and water in a double boiler. Pare and slice potatoes in 1/4 inch slices. Place a layer in a buttered baking dish, sprinkle with salt and pepper, dredge with flour, and dot over with bits of butter. Repeat and add the scalded milk until it can be seen through the top layer. Dip pork chops in egg and roll in bread crumbs. Place on top of potatoes and bake in a moderate (350° F.) oven until the potatoes are soft. Serves 6.

A quality you would want
if you know all of the FACTS about coffee

On your grocer's shelves are hundreds of delicious products. None of them harmful—otherwise the Government would step in. Few of them are distinctly poor in quality—otherwise you would detect it. But there are certain products, whose makers are not content with what you can detect. Their number is increasing. You can find them sooner or later. Any woman does, who believes that fine things are worth looking for. It would be easier for you to find

them, if you knew more of the facts. Here is one of the facts. FACT 15. Schilling produces only the first grade of coffee—but only Schilling does it. Contrary to common practice, Schilling specializes on fine coffee. There are no 2nd or 3rd grade Schilling coffees—no cheap blends—no dual standards of quality. The finest things usually come from those who devote themselves to fine things exclusively. There are many excellent coffees—but where is the finest apt to come from?
