Among Our Neighbors

A Daily Feature to Make Lane County People Better Acquainted

By MARIAN LOWRY

O. A. Houghlum, cashier of the First National bank, has been in Eugene since 1911.

He has been in the banking business for 25 years, coming to Eugene from Detroit Lakes, Minn., where he was assistant cashier in a bank. He was first a bookkeeper at the bank here, later becoming teller and then assistant cashier for several years. He has been cashier since January 1929.

"I always had it in mind to go into banking on a farm where I was born," Mr. Houghlum said. He was born on a farm at Lake Park, Minn., June 4, 1885, one of a family of six sons and two daughters. He grew up there, receiving his education in that place and in Minneapolis. He graduated from the Minnesota School of Business and the local chamber of commerce, both in Minneapolis. He has taken several American Institute of Banking courses since coming to Eugene and was the first president of the local chapter of the A. B. P. here.

Prior to going into banking, Mr. Houghlum was in charge of an abstract office in Becker county, Minn. Besides a fascination in the work itself there is a great deal of human interest in banking, Mr. Houghlum says.

Mr. Houghlum has been treasurer of the First Baptist church here since 1911 with the exception of three years. He is a past president of the Eugene Y. M. C. A., a former director of the local chamber of commerce, and is a member of the Eugene Lions club.

Golf and fishing are his two main hobbies. Mr. and Mrs. Houghlum make their home in the Collette Crest district. They have two sons, Roger Houghlum, who is a junior at the University of Oregon, and Robert Houghlum, who is in the third grade at the Dunn school, and one daughter, Kathleen Houghlum, who is in the eighth grade at the Roosevelt school.

SPAIN GOVERNMENT STORY

also offered his resignation could not be confirmed. It was said that efforts were being made to hold up all resignations until the king and parliament could decide upon a program.

Told by the members of his own cabinet that yesterday's republican victory was a disaster from a monarchist viewpoint, King Alfonso, it was said, is considering whether to accept the resignations of the cabinet members and to form a new government, probably liberal, as an alternative to a military dictatorship.

The king is also faced with the problem of deciding whether to go into exile, or to remain in Spain, or to call a new parliament, or to call general elections, either under Premier Aznar or with a new cabinet.

The huge republican vote rolled up Sunday indicates, it is believed, that the republicans can elect a majority in a new parliament, so that the king would be inviting the loss of his throne if he agreed to parliamentary elections.

The assets, which recently had been improving, slumped this morning to around 9.43 to the dollar, compared with a Saturday quotation of about 9.90. Bankers considered that the reaction was due to the election and future political uncertainty.

GROVE PERSONALS

COTTAGE GROVE, April 13.—(Special)—Col. and Mrs. J. C. Johnson of Gold Beach, who were in Cottage Grove for the armory dedication, left for their home Sunday.

The Women's Relief corps meeting scheduled for Saturday, was postponed until Saturday, April 18, on account of the armory parade Saturday afternoon.

Lelloy Woods and daughter Carrie of Eugene were visitors in Cottage Grove Saturday and Sunday night to attend the dedication of the armory. They are former Cottage Grove residents.

Big Piling Order Filled Promptly

JUNCTION CITY, April 13.—(Special)—To C. K. Kubli, Junction City logging contractor, goes the record of probably turning out the largest order in the shortest time on record in Lane county.

Friday Kubli obtained an order for 13 carloads of 100-foot piling. The purchaser wanted it as soon as possible, so the local man assembled a crew and commenced work early Saturday morning.

Saturday and Sunday they worked, getting the logs in the Bear Creek region west of here, Monday morning the 13 cars were all loaded on the tracks here, ready for transit.

HEBRON PERSONALS

Miss Gertrude L. Skow held an all-day meeting here April 3. Her subject was kitchen improvement. Twenty-one ladies were present.

a candidate offered us by Tammany leadership.

She added that the democratic party "to become the liquor party, would tend to divide rather than to unite the same."

Catherine Waugh McCullough, a Chicago lawyer, asserted that the democratic party must remain dry if it hopes for success in 1932.

More than 100 of the democratic women went to the White House later to pay their respects to President Hoover.

"We are constitutional democrats going to pay our respects to a constitutional president," Mrs. Nicholson said as she entered the women into line at the executive office.

Mrs. Nicholson added the women's purpose was "to endorse his stand in the past of prohibition."

In the past prohibition the convention Mrs. Nicholson described, without naming them, four "disqualified wet candidates" for the democratic nomination. She later told reporters that they were Governor Ritchie of Maryland, Governor Roosevelt of New York, Alfred E. Smith and former Senator Reed of Missouri.

WOMEN FAVOR WETS

WASHINGTON, April 13.—(Special)—The shock troops of the women's anti-prohibition forces began to appear in Washington today, and by tomorrow "over a thousand live and vigorous refutations of Mrs. Henry W. Pen-bod's statement that 'women favor prohibition'" will have arrived, according to notices of the women's organization for national prohibition reform.

Washington, the Verdon of many factions favoring or opposing many things, has taken back under the impact of branding and secure laws. The measure, which would have placed Illinois sixth in the column of states repealing their prohibition enforcement acts, had been enacted by the state senate by only a two vote margin, 28 to 24. For more than two decades the state senate has been traditional a dry, while the house has thrice passed repeal bills.

At Veneta

VENETA, April 13.—(Special)—James M. Alley went to Portland on business the last of last week. He returned in time for his part in the road performance Sunday.

division work. Possibilities of education under such a system are limited only by the imagination, Dr. Cooper declared.

Because of the variability of measurements and of students ability from day to day, measurements must be repeatedly applied in order to have any real meaning, Howard H. Taylor, of the personnel bureau of University of Oregon, said in discussing the reliability of college grades.

Extensive experiments conducted in the department of psychology have shown that women are more consistent in their scholarship than men, that high marks tend to mark university progress, and that the reliability of grades as a measure of ability is high if a great deal of data is used.

Individual study, student government with close supervision over the school's progress, the faculty through a careful and patient system of conference is the way in which Reed college has built up a strong intellectual institution in the 20 years, declared Dr. Norman F. Coleman, president of the college. No fraternities and no intercollegiate athletics are two of the unusual factors in the school's development.

Complications of numerous added functions to the program of higher education have increased college and university administration into a complicated and often unintegrated maze of machinery, George W. Zook, president of Akron college, Akron, Ohio, declared. How to integrate these into a unified program is still an unsolved problem, and this problem is what must occupy the institutions in the immediate future.
