Eggs Drop Cent Here; Stocks Continue Down

TRADING SLASHES RAILWAY SHARES TO LOWER LEVELS

NEW YORK, April 21.—(AP)—The railroad issues were whittled down in today's market to the general level of the six-year low recorded at the bottom of the bear market last December.

Several individual issues fell to new low levels for the past several years, but the Rail stocks generally appeared to meet some support around the general level of December 17. Virtually all of the day's decline was recorded by early afternoon, and the market drifted along almost horizontally during the late trading. There were a few rallies of a point or so in the last few minutes, but the market as a whole closed near the day's worst, with a weak tone. Transfers were only about 2,000,000 shares.

U. S. Steel dropped 3 points to a new low since 1927 at 127 1-2 and closed within a fraction of the bottom. Illinois Central dropped six to the lowest in at least 30 years, then recovered a point.

Closing prices on the exchange today were:

MOVEMENT OF EGGS GAINING VOLUME

PORTLAND, Ore., April 21.—(U.P.)—Heavier movement of eggs into local storage and generally along the coast is confirmed. This is the direct result of a further lowering of the price at eastern points. Values now offered for Pacific coast eggs are so low that some operators refuse to make further sales or shipments at the moment.

One interest was reported as trying to advance the price of butter on the produce exchange while selling below the market for big chains. There was however no change in quotations.

Limited trade is reported in the market for live chickens with an increasing supply reported from the country. This included both light and medium weights. Turkeys continue in call.

Sharp cut in the price of livestock caused a general drop in the price of country killed lambs along the wholesale way with a general top selling mark of 18c for fancy goods. Poor stuff is slow.

Lower prices are again being named for country killed veal and hogs along the street with general easiness in the entire trade. Sales of hogs show an extreme of 11 with top calves around 12½c mostly.

Stringent orders of the state dairy and food commissioner have cut in half, at least, the normal demand for strawberries in the Portland trade, while Seattle is grabbing California berries at the lower prices.

While there is a rather fair volume of supplies of asparagus coming from the mid-Columbia, a general cleanup is reported with most sales of fancy at $1.40-1.50 dozen bunches to retailers.

First carload of Cochella Crystal wax onions of the season is rolling toward Portland. It is the first carload from the coast. Only one carload has arrived from Texas; the season there being over almost as soon as it started insofar as the coast is concerned.

Carload California cauliflower in with Sacramento $1.85-2.00 crate.

Small supplies of troll chinook salmon caught off Warrenton.

There is again a short supply of fresh crabs.

New potatoes are weaker and lower; generally 5¾c lb. top.

Fancy Arizona grapefruit is arriving and finding good sale.

Potato market is in a jam for old crop. Little primary business.

Mexican tomatoes are firmly priced at the new high mark.

Artichoke movement is better than season, reports George Pearson, specialist.

Spinach market is very firm with a local scarcity.

Rhubarb is finding a fairly steady sale.

Cheese—Selling price to jobbers: Tillamook county triplets, 16c; loaf, 17c lb. f. o. b. Tillamook. Selling prices to Portland retailers: triplets, 18c; loaf, 19c lb.

Strawberries — Fresno, $2.50-2.75, for 20s.

New potatoes—California Garnets, 5¼@5¾c; Texas, 5c lb.

Spinach—Local, 90c-$1.00 orange box.

Mushrooms—Hothouse, 50-60c lb.

Cauliflower — California $1.85-2.00 per crate.

Country meats—Spring lambs, 17-18c.

CHICAGO GRAIN

CHICAGO, April 21.—(AP)—Late upturns in wheat prices today more than overcame early losses. Speculative selling during transient uncertainty over rumors about alleged changes in farm board export plans was overdone. Subsequent re-purchases to offset such speculative sales disclosed that the market was relatively bare of offerings. Rallies were promoted also by fears of crop damage by low temperatures.

Wheat closed irregular, ⅜c lower to ⅝c advance. Corn ¼-⅝c advanced, oats ⅛c off to ⅛c up and provisions unchanged to 12 cents down. Corn equalled season low price records and oats outdid the record.

April 1 Estimate On Wheat Is Given

In Oregon on April 1 there were 2,807,000 bushels of wheat remaining on farms, according to the estimate of the federal-state crop reporting service. On April 1, 1930, wheat stocks were estimated at 2,025,000 bushels and on April 1, 1929, 1,865,000 bushels. The five-year average is 1,803,000 bushels.

A month ago, March 1, Oregon farm stocks of wheat represented 18 per cent of the 1930 production compared to the 10-year average of 11 per cent. The unusually large March 1 stocks have been reduced by large disappearance from farms during March which was estimated at 1,403,000 bushels compared to 980,000 bushels last year and only 234,000 bushels in 1929, the report says.

Advice on Alfalfa Sowing Is Given

Farmers who contemplate the sowing of alfalfa this year are advised by O. S. Fletcher, county agricultural agent, to wait until some time about the middle of May.

"Farmers should not be in a hurry to sow their alfalfa," said Mr. Fletcher. "If the ground is already plowed they should wait until the weeds grow, then work the ground to kill the weeds before sowing the crop."

Freedom from weeds is necessary to have a clean field of alfalfa and one that will maintain itself for a period of years, it was pointed out.

Discing and harrowing are recommended to get rid of the weeds.
