

# SOMETHING More Than Just a BOTTLE of MILK

## Milk and Whipping Cream in the same bottle

Instantly Available

Here is a new milk bottle that has solved the old, old problem of the housewife, how to separate the rich, pure cream "in the top of the bottle" from the milk—

*Cream Top Bottles does it for you*

*ask Kristof*

## The Separator is Free

We furnish all users of Gold Medal Quality Milk, with one of these Nickled Cream Top Separators Free of charge. Phone 393 or ask your grocery man.

## Here's Real Cream

In this distinctive bottle the cream rises to the top compartment as illustrated. By inserting the "Separator" which we furnish free, the inner neck is closed. The cream can then be poured off without dilution by the milk. It is real, thick, whipping cream—over twice as rich as the cream poured from the same quantity in the old style bottle.

Remember—for the children to drink simply tip the bottle upside down and let the cream and milk re-mix.

No one else gives you this service—And we give it at the price of ordinary milk—Write or Phone us today—or ask your Grocery man.

### NOTICE . . .

For those who prefer It we will always have Gold Medal Quality Milk in the old style bottles.

## The Medo-Land Creamery Company

(Formerly The Corvallis Creamery Co.)

Now a Eugene owned concern, is glad to announce they have secured the exclusive rights to use the well-known and justly famous Cream Top Milk bottle in Eugene and Springfield—This practical milk bottle has met universal favor in the thousands of cities where it is being used.

## Just Imagine

Rich, thick Whipping Cream and GOLD MEDAL Quality Milk in the same bottle—Simply insert the cream top spoon, and pour off the cream—and you still will have almost a quart of good milk left.

### Our Adoption of the Famous CREAM TOP BOTTLE

Acclaimed as the greatest improvement in milk delivery service since the modern bottle supplanted the old, tin, quart measure.

And we now use this bottle! We show you that our milk proves its quality every day, day in and day out, by filling the bulging neck with cream so rich you can whip it. The slightest variation would be instantly perceptible because the cream line is your indicator: It demands the best of better milk.

No straight-neck bottle proves or shows so clearly day by day the quality of your milk.

## GOLD MEDAL Quality Milk

Both Pasteurized and Raw is produced and distributed under the New Federal Milk Ordinance which insures you GRADE "A" Milk at all times.

Where rich, whole milk is desired for growing children, the Cream Top Bottle is a certain indication of the finest quality.

*it costs no more than ordinary milk*
