"Of course, it's Schilling's"
If everybody preferred Schilling Coffee!

--but what's the use, that's asking too much of Providence. So some prefer one, and some another. But there remain a surprisingly large number of people not quite content. If that includes you--try, once again--try Schilling this time--at our risk. Possibly it is the one coffee you have sought--possibly not. If not, just 'phone your grocer. He will return your money instantly. We pay, him. You keep the coffee. That is not a casual advertising offer. It is printed on every tin of Schilling coffee. And frankly we are occasionally called upon. But isn't a coffee supported with such confidence worth a trial, in a quest so important?
