 H. R. Good, superintendent of schools, will talk on character education.
 Indiana leads the country in producing onions.

COLDS
 must be driven out from within
 The cold germ is not an ordinary germ but an invisible ultravirus. Science knows that it is a poisonous infection that gets into the system and multiplies rapidly—often causing other serious ills.
 Internal infection must be destroyed and expelled from within. Bromo Quinine tablets have won the recognition of the entire civilized world as the safe and proved remedy for colds.

ONE HALF OF OUR MAGNIFICENT STOCK FREE! SACRIFICED

Souvenirs To Ladies Attending Sale Thursday Morning!

The condition of the retail merchandising market is far from being any secret—in fact, EVERYBODY is well aware that many merchants and manufacturers are in distress because they have not been able to move their stocks.

We have contemplated some sort of sale for several months, but we have waited, hoping that conditions would change and enable us to reduce our big stocks without serious loss. But we have come to the conclusion that such hopes for the immediate future are just like "chasing the rainbow" and decided to take DRASTIC ACTION in order to turn ONE HALF of this stock into immediate cash. THEREFORE THIS BIG AUCTION.

Remember The Place 625 Will. St. 3rd Floor

SALE STARTS THURSDAY MORNING 10 O'CLOCK 3 SALES DAILY 10 A.M.—2 P.M.—7:30 P.M.

AUCTION!

BE HERE EVERY DAY!

KEY: Res—Residential Lighting REE—Same With Range COM—Commercial Lighting PWR—Power	FLT—Flat Rate WTR—Water MIS—Miscellaneous ARR—Arrears
--	--

* Consumption of Electric Energy is in Kilowatt Hours; Water in Hundreds of Cubic Feet.

On the first line of the card the figure "24" to the right of the abbreviation "Res" means 24 kilowatt hours of residential lighting, as indicated by the key at the bottom of the card.

The figure "7" on the second line of the card at the right of the abbreviation "wtr" means 700 cubic feet. The star refers to the footnote in the lower right hand corner of the card, which says that "consumption of water is in hundreds of cubic feet."

The "7" does not mean just 7 cubic feet, but as stated in the footnote, 100 x 7 cubic feet, or 700 cubic feet.

If the figure in the "consumed" column were 30 cubic feet, the total amount would be 100 x 30 cubic feet, or 3,000 cubic feet.
