

WEDDING DATE FOR MISS DORIS HELEN PATTERSON, WINSOR CALKINS SET FOR JULY 18

Ceremony To Be Evening One At Church

By MARIAN LOWRY

THE date for the wedding of Miss Doris Helen Patterson, daughter of Mr. and Mrs. John B. Patterson, and Winsor Calkins, son of Mr. and Mrs. S. M. Calkins, has been announced for Monday evening, July 18. The ceremony will be at eight o'clock in the First Congregational church, Rev. Cecil E. Riatow of the Methodist Episcopal church officiating. Only relatives and a few friends are being invited for the wedding. Miss Patterson is to name her attendants later.

Both Miss Patterson and Mr. Calkins are graduates of the University of Oregon where Miss Patterson is a member of Kappa Kappa Gamma sorority and he member of Phi Delta Theta fraternity.

LEAVE FOR PORTLAND

Mr. and Mrs. William G. Hale, former residents of Eugene, who have been visiting from Los Angeles, have left for Portland to visit two weeks. They will return south by way of the Roosevelt highway.

HOSTS FOR CLUB

Mr. and Mrs. Frank L. Chambers entertained for the Pastime club Saturday evening last, honoring Mr. and Mrs. Edwin L. Knapp, Medford, and former members of the club. The group went to Jeff Beach for a picnic supper, returning to the Chambers home where Mr. Chambers told of his recent visit in Russia.

HERE FROM PORTLAND

Miss Jane Fraley has been visiting here from Portland as the house guest of Miss Marjorie Wilhelm. She came to attend the wedding of Miss Dorothy Wade and Fletcher Pyle, solemnized Thursday afternoon. Miss Fraley left late Thursday for Portland, accompanied by Miss Wilhelm who will remain there for a few days.

BACK FROM NORTH

Miss Martha Patterson has returned from a trip to Vancouver, B. C.

Mapleton Church Will Have Choir

MAPLETON, July 1.—(Special)—Wednesday night at 7:30 Glenn Cole, Edgar Loomis, Donald Johnson, Everett Doster and Margaret Johnson met with Mr. and Mrs. Archie Knowles and their two daughters, Mary and Della at the Archie Knowles home to discuss the possibilities of a choir and to practice a few songs to be given Sunday. Mrs. Knowles will be the director and Margaret Johnson the organist for the group. This is the first time any effort has been made to organize a choir here and judging from the first practice it will be a success.

Bessie Christensen is here spending a week or two of her vacation with her grandmother, Mrs. Robert Bernhardt.

Mr. and Mrs. Ralph Bernhardt were in town Thursday. They live on Bernhardt creek near Cushman. Mr. Bernhardt is the son of Mr. and Mrs. Robert Bernhardt of Mapleton. Mrs. Bernhardt and her daughter, Margaret, went to Eugene Thursday morning with Verne Whitaker who drives the bus between here and Eugene. She plans to return Sunday morning.

Mr. and Mrs. Dan Avery and their two sons, Pat and Donald spent the week-end in Mapleton at the home of Mr. and Mrs. Wallace Robinson. Mr. Avery, it will be remembered, was employed by Mr. Malcolm, who had the road contract below Mapleton last summer. The Averages renewed their many old friendships here and had a very enjoyable week-end in which Mr. Robinson's speed boat played no small part.

Mrs. Robinson is at home again after a visit to Eugene. Her small son, Daryl, accompanied her.

A new enterprise has developed in Mapleton. Mrs. P. T. Colles has installed a supply of toilet articles, perfumes, powders, lotions, etc., at her house. Mrs. Colles has been selling perfume and face powders for some time.

Ruth Wilkinson recently began work as a waitress at Beck's restaurant. She expects to work there all summer.

Eldon (Bill) Holmes and Theren Ferris left Monday morning at 7 o'clock for their respective look-out stations at Roman Nose and Prairie Mountain. Mr. Ferris will later be transferred from Prairie Mountain to Cummings peak when Mr. Ferris is able to relieve him of the Prairie Mountain station. Mr. Holmes was on Roman Nose and Mr. Ferris on Cummings peak last year. Riley Thompson, last year's lookout on Saddle mountain, has also returned to his former station.

Waldport News Notes

WALDPOR, July 1.—(Special)—Mrs. E. W. Cranford and daughter, Mrs. E. W. Cranford, arrived in Waldport last week-end to remain until after July 4. Mrs. Cranford is a sister of Mrs. W. E. Evergreen.

Mr. E. Polle, Rev. Goodwin, and Louis Neff attended a fire guard training camp in the forest service at Sultonia lake in Lane county. Forty-five men of the Siuslaw forest service were present.

Al Jensen made a business trip to Toledo Monday.

A large sign, sponsored by the Lions club, will be placed at Philomath, directing tourists over the Alsea road to the Grand Old Bluff and the Bluff in position soon. It is highly colored. A large crab and clams adorn the board. The reading is: Come to Waldport—Most scenic spot on Oregon's finest playground. Many of the local people have taken out membership cards on the newly erected tennis court.

C. E. Bruley made a business trip to Vancouver.

Thompson, Parry and wife were in Waldport Wednesday. Mr. and Mrs. Parry own "Ye Drift Inn" resort on the coast highway. Guests at the Rickard auto court include: Carl Powell and family; Grand Old Bluff and wife of Woodburn; G. E. Smith, Portland; Thomas Beck, Seattle; D. L. Reese, Mt. Lake, and Mr. and Mrs. A. R. Cook.

INDIA HAS RIOTS

BOMBAY, India, July 1.—(AP)—A riotous situation has developed here as a result of Hindu-Muslim rioting which ran persons have been killed and 200 wounded in the past hours.

Now we have the "chisel bob," designed for a car-penter—that is to say, Charlotte Carpenter of Los Angeles. They call it the Olympic Chisel Bob in honor of the Olympic games at Los Angeles. Quite an event, eh?

TODAY'S RECIPES

By SISTER MARY

CAN'T you spare a corner in your perennial border for a few of the old-time sweet herbs that were always to be found in our grandmother's gardens? You will find that they will give you much pleasure as well as being a means toward economy in cooking. All seed catalogues contain lists of sweet herbs and some include instructions for culture with information regarding the kind of soil and the habits of the plants.

Because of their aromatic "bouquet," the sweet or "pot" herbs add much to the flavor of all foods but are particularly valuable in soups and salads where elusive and intriguing flavors are necessary. These not used for seasoning, such as lemon verbena and sweet lavender, are deliciously fragrant and suitable for use in the household linen closet. Sheets and pillow-cases, towels and wash-cloths are delightfully refreshing to us if they are faintly scented with one or the other of these herbs.

Some of the herbs are perennial and, when once established, will come year after year. Thyme, sage, sweet marjoram, lavender are all perennials that are easily grown.

Many of the sweet herbs can be dried and stored for winter use. Some can be used fresh, just as they come from the garden. Borage, burnet, sweet basil, thyme, sage and savory are used after being dried. Chives, parsley, dill, chervil and mint are used fresh as well as dried.

Cook Must Learn Seasoning
The secret of fine cooking lies in the seasoning and no French housewife ever makes a soup without a "bouquet of herbs" or "kitchen bouquet." This kitchen bouquet usually contains bay-leaf, parsley, peppercorn, carrot, celery and chives. Soups and stews seasoned with these herbs have a savoriness impossible to gain by other means.

Sage, thyme, savory and marjoram are used in stuffings for poultry and meats.

Dill, caraway, fennel, mustard, burnet, horseradish and mint are used in salads and are pungent and stimulating.

Herb vinegars are particularly good in salad dressings. Basil, tarragon, garlic and parsley vinegars are easily made at home and are excellent to keep on hand. Most fancy grocers also keep these vinegars on their shelves. Very often it is the vinegar which is the source of indescribable taste found in French dressings served in fine hotels and restaurants.

Tarragon vinegar should be made in August when the leaves are at their best, although the dried leaves can always be purchased and used. Four cups of hot vinegar are poured over one cup of fresh leaves and allowed to stand three weeks, stirring each day. The vinegar is then strained and bottled, ready for use.

Basil vinegar is made by steeping the leaves in vinegar. For two weeks the vinegar is heated each day and poured over the leaves. The infusion is strained and more basil added until the desired strength is obtained. Garlic vinegar is unusually good with summer vegetable salads. Head lettuce, sliced tomatoes, cucumbers, new cabbage—in fact, any vegetable served with French dressing made with garlic vinegar gains a distinctive flavor that is sure to please.

Garlic Vinegar
Six cloves garlic, 8 leaves basil, ½ nutmeg, 3 lemons, 2½ cups vinegar. Grate nutmeg. Squeeze juice from lemons. Heat vinegar to the boiling point. Combine all ingredients and bring again to the boiling point. Bottle and let stand three weeks. Strain, bottle and seal.

Tomorrow's Menu
BREAKFAST: Chilled apple sauce, cereal, cream, rice and bacon patties, toast, milk, coffee.
LUNCHEON: Baked peppers stuffed with rice and cheese, lettuce with French dressing, blackberries and cream, corn cakes, grape juice.
DINNER: Stuffed fillet of veal, new potatoes in parsley sauce, chard greens, tomato and cucumber salad, meringues with fruit, milk, coffee.

YOUR CHILDREN

By OLIVE ROBERTS BARTON

DO the children have a pet of some kind? I hope so, because there is something invaluable in the relationship between a helpless animal and a small child.

Perhaps a child instinctively feels the similarity of their cause—the same dependence on him that he has on his parents.

The affinity of a boy and a dog cannot be analyzed, or the love of a little girl for a kitten. It might be reduced to a philosophy that Horatio did not know, but whether or not there is a name for it does not matter. Children can become fonder

of animals at times than of other children.

This being the case it seems unwise to deprive them of such satisfaction. There is another side to it that is valuable, besides the creation of a bond.

Children should learn responsibility early in life. If it is planted in their small breasts in some form when they are young it takes its own turnings quite easily later on. The responsible child is the responsible adult. The irresponsible one, with nothing to think of but his own interests, becomes only too frequently a selfish man or woman.

In this matter of a pet, it is well to allow the child to take charge of it himself whenever possible. In the first place it should be a nice, friendly, safe little dog or cat, and in the second place a clean one. If it is to be handled, then it must be kept clean. I knew a little boy once who had a pet lamb and he bathed it in soap suds, probably to its amusement, but with very satisfactory results.

Lessons in Hygiene

Now we have hot weather. The drinking water, it must be impressed on the small master, must be changed twice a day and not maybe. The pan, or better still, the china or enameled dish, should be washed out with fresh and water every morning and fresh, clean, clear water put in and replenished later.

The food pan or bowl is quite as important. No scraps of food should be allowed to lie in it. It should be taken up and washed well after a feeding. Animals get sick from old sour food the same as human beings. Too much feeding is as bad as too little feeding. Dogs need a variety of food besides some meat, but sweets and candy are not good for them. A little dog friend of mine eats nothing almost but green vegetables—uncooked—and she is very very well. What is good for one is not good for all—it depends, of course.

Books on animal feeding cost almost nothing. Go to a pet store, I recommend, and get a booklet on what you want.

Then show the children how and when and what to do.

Hot weather causes illness in animals if they are not cared for properly. Some dogs are often called mad are not mad at all, but cross because they are in pain. The proportion of "mad" dogs is small.

I love all animals and birds and it makes me miserable to see them suffer or neglected. This is just my annual S. O. S. in their behalf.

Camp Creek Cookers Have Camping Trip

LOWER CAMP CREEK, July 1.

(Special)—Members of the Camp Creek club had an over-night trip Monday when they went to the Lewis dam on the McKenzie. They left Camp Creek at 2:30 p. m. and reached the camp at 3:35. After making camp, some of the group went swimming while the others prepared lunch. Club songs and yells were sung before retiring.

Early Tuesday morning the camp was aroused at the hour of 4 a. m. After preparing breakfast the group walked to the fish hatchery where many interesting things were seen. After their return they enjoyed a dip donated his time and the use of his boat, the McKenzie and a hot dinner.

Mr. Hotfield of Lower Camp Creek truck to accompany the group. Members present were Gladys, Mable and Margaret Chase, Pauline, Earl and Ernest Conley, Lucille and Gene Terpening, Vincent Chase, and Marvin Shanander and their leader, Erma Shanander.

At Roosevelt Beach

ROOSEVELT BEACH, July 1.

(Special)—The thermometer registered the warmest day Tuesday, the temperature being 80 degrees.

Haying is in operation in the Big creek district. Good crops are reported.

Mr. and Mrs. J. E. Thompson and Mr. and Mrs. Cliff Poole have returned from Portland, where business called the Pooles and Mr. and Mrs. Thompson attended the commencement exercises of their son, Orville, who was among the 177 graduates of Benson Polytechnic high school.

W. F. McCollum, J. S. Mechem and Mark Lansbury were callers at Waldport last Monday. Mr. Mechem expressed much surprise over the improvements of the past 15 years, when he last visited the town. He could also appreciate the new Coast highway as he once traveled the route by horseback over a very narrow trail for many years after locating in this section. This was his first trip over the highway.

INFANTRY ORDERED OUT

SHANGHAI, July 1.—(AP)—The 1st U. S. Infantry which was sent here last February to assist in negotiation of the international settlement will sail for Manila early tomorrow.

Miss Wade Is Wed At Church Event Thursday

The marriage of Miss Dorothy Wade, younger daughter of Mr. and Mrs. I. D. S. Wade, to Fletcher Stanhope Pyle II of San Francisco, was solemnized in a beautiful setting at St. Mary's Episcopal church Thursday afternoon at three o'clock. Rev. H. R. White, rector of the church, officiating. The church was elaborately decorated with roses, lilies, ocean spray, and syringas, and with lighted candles.

The wedding music was played by Miss Margaret Eweney, violinist, who accompanied by Miss Cora Moore at the organ, and by Miss Moore who played the Lohengrin wedding march for the processional and the Mendelssohn wedding march for the recessional.

The bride was given in marriage by her father. She wore a dress of egg-shell satin, made with deep yoke and small puff sleeves of lace in a deeper shade of egg-shell. She wore an ivory tulle turban that had a cluster of pearl flowers at the back. Her flowers were a bouquet of yellow roses.

Mrs. Wilder Estey (Martha Wade) of San Diego, Cal., was matron of honor for her sister. She wore a

Violin Student Is Presented In Recital

Miss Elizabeth Means, violin student of Miss Martha Patterson, was presented in a violin recital Wednesday evening at the home of Miss Patterson's grandparents, Mr. and Mrs. George Dillard. Miss Means is the daughter of Mr. and Mrs. Edgar Means.

U. L. Aid

Forty-three attended the meeting of the United Lutheran Ladies' Aid society Thursday afternoon with Mrs. William Ashworth as hostess. At the Kappa Delta sorority, Mrs. Herbert Rienecke was assistant hostess. For the program Miss Ruth Sappenfield gave two readings and the regular business session followed. Refreshments were served. The next meeting will be July 28.

H. E. MORRIS RECOVERING

H. E. Morris, former music goods dealer here, has been quite ill lately. He is recovering from a major operation.

Lodges Plan For Picnic Monday

The Rebekah and Odd Fellows lodges will hold a joint picnic July 4 in Riverview park behind the butte. Those attending are to bring a basket lunch and coffee, cream and sugar will be furnished by the lodges. The I. O. O. F. band will play several selections and other musical numbers will be given. Games will also be played.

News of Deadwood

DEADWOOD, July 1.—(Special)—Mr. and Mrs. John Hudson, and daughters, Dorothy and Shirley, of Rainier visited at the C. T. Haude with home Thursday of last week. Mr. and Mrs. R. F. Brandon were shopping in Eugene Tuesday. Lucille and Ailes May Shirley of Medford are visiting with Mr. and Mrs. Leo Meadows. Mr. and Mrs. S. Stanley, George McMan, Audrey Wilson and Mr. and Mrs. N. E. Warner of Eugene visited over the week-end at the F. W. Taylor home. Archie Brown returned to the Pacific Christian hospital Sunday to have another operation on his finger that was injured last April at the Triangle lumber mill. Mr. and Mrs. Bruce Moffitt left Thursday for their home at Medford after a few days' visit at the Leo Meadows home. Mrs. Moffitt and Mrs. Meadows are sisters. Mrs. Trainie Campbell is working at the cannery in Junction City. Mrs. N. J. Brown and granddaughter, Mildred Keeler and Gladys Handwith visited with friends at Franklin Sunday. Charles and George Acheson called at the F. W. Taylor home Wednesday. Miss Garnet Clark returned home last week from the Eugene hospital.

Miss Helen Gould Is Hostess For Visitor

Miss Helen Gould entertained at a bridge breakfast party Friday morning to honor her guest, Miss Doris Clark of Benton, Wash. A group of twelve was invited.

Miss Clarke leaves next week for her home.

Eugene Folk Will Be At Reunion

Several from Eugene are invited to attend the eighth annual reunion of the Irvine-Claggett families Sunday, the event to be a picnic at the Archibald Claggett farm, four miles north of Salem.

Mr. and Mrs. Frank L. Chambers, Miss Maude Kerns, and Mr. and Mrs. Joe E. Hayward are among those invited from here. Mrs. Chambers, Miss Kerns, and Mr. Hayward being descendants.

INSULL FIRM FILED ON

NEW YORK, July 1.—(AP)—An involuntary petition in bankruptcy was filed in federal court today against the National Electric Power company, a \$600,000,000 Insull concern.

Octane stability—proved on the road

FLYING A

ASSOCIATED GASOLINE

"PUTS WINGS ON YOUR CAR"

Aeroplane performance in your car—buoyant, quiet, exhilarating!

IT'S NEW. It's quiet. It's powerful. Associated "FLYING A" is the finest performing non-premium gasoline made! Yet at no increase in price.

Here's a gasoline which proves its value in performance. It's there when you're driving. Not left behind in the laboratory. We proved this statement. On the road. In cars like yours.

Associated "FLYING A" has a new performance feature. It is aero-type. Try it today. It gives you aeroplane performance in your car. Buoyancy.

Only fractions are used that work—and work at highest efficiency. No heavy sluggish gasoline fractions. No light, popping, gassy fractions either.

The new Associated "FLYING A" Makes Airways Out Of Highways. It's aero-type—because of

4 Exclusive Developments

- 1. OCTANE STABILITY.** "Octane numbers" are based on laboratory ratings. In actual road performance they fail to indicate anti-knock efficiency. Gasolines with so-called "high octane" numbers but without octane stability are rejected for aviation service because they knock under severe operating conditions. Associated "FLYING A" has an identical octane stability required in aviation gasolines. Hours of driving in cars like yours proved its sustained anti-knock performance no matter how fast or hard you drive. It's road-proven octane stability that counts!
- 2. HEART-CUT OF THE CRUDE.** Associated "FLYING A" is refined from the heart-cut only of selected gasoline crudes. Heavy fractions and too-volatile fractions are rejected. That's how you get aero-type quality, for aeroplane performance in your car. You need not fear dreaded vapor-lock—those "popping," gassy fractions are gone.
- 3. EQUI-FRACTIONATING PROCESS.** This "cream of the crude" then goes through our exclusive Equi-fractionating process to assure all 5 vital performance qualities—Starting, Pick-up, Power, Speed and Mileage—not just one alone. A truly balanced motor fuel is the result.
- 4. CLIMATICALLY CORRECT.** Whenever you drive you'll find Associated "FLYING A" specifically refined for climatic conditions there and then. We studied 10-year temperature records for districts and seasons. Now, 4 times a year we adjust your Associated "FLYING A" in accord with the weather in each of the 4 coast sections. This seasonal adjustment assures 5-quality performance at all times.

Today—right now—give your motor a treat with the new Associated "FLYING A" Aero-type Gasoline. Its smooth, dynamic, quiet performance is the result you've been looking for in gasoline. Fill up at the red, green and cream "FLYING A" pump.

The diamond painted pumps offer Associated Ethyl Gasoline, made with Associated "FLYING A" as a base.
