Institute Will Be Held Friday

An event for Friday afternoon will be the county institute of the W. C. T. U. in the park back of the bottle. Now after all these years of sacrifice on our part to give him everything he wants, he fails to see that he must do something for himself—or try to repay us in some way. We thought the boy was made of different material.

And Bill, suddenly thrust into man's estate is criticizing himself more than any of them, that is, if his bewildered mind can concentrate enough on anything to give a name to the effort. Here we shall have to make a hypothesis—and suppose that times are normal and the young man just stepping out of college can "just step" into a job.

Because "Bill" belongs to all times and all ages, to good times and bad. We are taking it for granted that there are half a dozen jobs he could do. He is a young man with a few dollars in his pocket and a few more in his head. He is a young man who would have to rise at seven, put in eight or ten hours a day at hard work and get ten and a five in an envelope on Saturday night.

"Good night!" That wouldn't keep him in cigars! No, he "doesn't mind work," but there's a difference. He's been "studying and preparing for big things."

Reared on Big Ideas

The old story of stepping from mountain top to mountain top, from money-come-easy life at school to money-come-easy life thereafter.

Bill has big ideas because he was brought up on big ideas.

How was he to know that every indulgence his parents made possible was matched by some very great sacrifice of their own? Nothing had ever been too good for him from the time he got his first bicycle to the day he stepped into his snappy little roadster given to him for a commencement present.

He had been "conditioned" to be a prince—only princes as a rule are not so indulged. His whole life had been filled with nice big easy things. He had never been warned that there was a day of hard work ahead, real work with little pay. He had been led to believe that the world would hand him a big fat purse on his own account some day after he graduated just because he was he.

The 1932 Bill may not have any such illusions. They know times. The tragedy of our unemployed boys is legion. It is a disheartening state of affairs, too, but sometimes I think it is a good thing in one way. The past three years have been "conditioning" him to a new order of affairs and it may be as well. To take any "job" and be thankful for it, no matter what it is or how little it pays, is a whole lot more attitude toward life. It is a whole lot more attitude toward life. It is a whole lot more attitude toward life.

An especially interesting part of the evening's entertainment is the prologue between shows. Miss Cora Moore has arranged a good program. A group of Boy Scouts form a semicircle on the stage and give the huge calls for each act. A large screen is in the center with special lighting effects. Performers appear in back of the screen for a minute or so for picture effect before coming out on the stage. The program is carried out in the theme of showing the different characters and nationalities that go into the make-up of the country, those appearing including pilgrims, an Indian, colored dancers, the pioneer, a special hit on the program is the tap dance number done by the Weston children—M. L.

LIONS SHOW WILL CONTINUE THURSDAY

The second night for the benefit show sponsored by the Eugene Lions club will be held Thursday evening at the Fox McDonald. Funds go to the aid of the club's Boy Scouts pledge.

A good crowd was out for the opening event Wednesday. "The Man From Yesterday" is the picture starring Olive Brook and Claudette Colbert. The theme is a war-time one. The picture offers an absorbing story and plenty of drama and emotionalism. Spectators coming out too much of the movie war scenes, the story dealing mainly with the before and after period of the war. Ronald Cobby is a very attractive child artist who takes the part of Ray Tony.

YOUR CHILDREN

By OLIVE ROBERTS BARTON

"He will never amount to a hill of beans. Twenty now, and just lies around and thinks the world owes him a living."

That is what the relatives and family friends say.

His parents vary it a little. Aloud they say nothing. To themselves they admit: "We are disappointed in Bill. Now after all these years of sacrifice on our part to give him everything he wants, he fails to see that he must do something for himself—or try to repay us in some way. We thought the boy was made of different material."

TODAY'S RECIPES

By SISTER MARY

ICE CREAM is a favorite dessert at any time of year, but we all have a special craving for its cool deliciousness when the hot summer days come. There are many attractive ways of serving it, but none more popular than with a sauce.

A plain vanilla cream is preferred by many mothers for children. If the vanilla cream is served with a sauce for the grown-up members of the family the dessert is suitable for young and old alike.

Another pleasant way to carry an ice cream and cake dessert is to serve it sandwich fashion, putting ice cream between and on top of two thin slices of sponge cake. Cup cakes can be hollowed out and filled with ice cream and a sauce poured over the whole. Cream puff or éclair shells can be filled with ice cream and covered with a sauce. Sauce is so poured over the ice cream sandwich.

Chocolate Sauce

Chocolate sauce always is popular and the following recipe is excellent. One and one-half cups milk, 3-4 cup sugar, 2 squares bitter chocolate, 1 tablespoon cornstarch, 1-8 teaspoon salt, 1-2 teaspoon vanilla.

Cut chocolate into small pieces and put in top of double boiler. Put over hot water until melted and stir in sugar mixed and sifted with cornstarch. Be sure the cornstarch and sugar are well mixed. Slowly add milk, stirring constantly. Cook over hot water until thick. It will take about 20 minutes. When ready to serve, add vanilla and beat well with a Dover beater.

This sauce is not too rich for children.

Caramel Sauce

Caramel sauce is rich but delicious. It keeps well in a cold place and can be reheated when wanted.

One cup light brown sugar, 1-3 cup granulated sugar, 4 tablespoons corn syrup, 1 cup heavy cream, 1/2 cup milk, 1-3 cup boiling water.

Cook sugar, corn syrup and salt with water over a low fire until a firm but pliable ball is formed when a few drops are tried in cold water. If you use a candy thermometer, it should register 241 degrees F. Stir until the mixture begins to boil and then cook without stirring. Remove from fire and let cool a few minutes. The mixture should be more than lukewarm but not unbearably hot. Stir in cream and serve.

Strawberry Sauce

Fruit sauces are well liked, and the secret in making them with fresh fruit lies in heating the sugar before adding it to the fruit. For strawberry sauce, use one quart berries, 2-3 cup granulated sugar, 1 tablespoon lemon juice.

Wash and hull berries. Crush with potato masher and add sugar which has been heated in a cool oven. Add lemon juice and bring to the boiling point. Remove at once from the fire and let cool before serving. The hot sugar dissolves quickly and the fruit retains its fresh flavor. The addition of lemon juice intensifies the red of the fruit.

All small fruits can be treated this way.

Pineapple sauce is made by adding two or three tablespoons sugar to one cup pineapple juice drained from canned crushed pineapple. Cook until reduced one-half and add crushed fruit. Let stand until cool before serving.
