

Butter, Butterfat Up, Stocks Gain Slightly

CENT ADVANCE IS REPORTED; PRICES ON LIVE HOGS DOWN

Butter and butterfat were boosted a cent along the line in the quotations given out Thursday. This marks the first change in them for some time.

In the butter list, wholesale prices are 22 cents on both the sweet cream and extra quarters, 21 cents on the extra prints, and 19 cents on the standard prints.

Buying prices on butterfat bring the sweet up to 15 cents and the sour 14 cents.

In the poultry list from Swift and company, a change was reported on broilers, Broilers from 1 1/2 to 2 pounds are listed now at 11 cents, buying prices, and over two pounds, 9 cents. All other poultry was unchanged.

No further change on eggs was reported. There is a prospect that the pool from the Pacific Cooperative Poultry Producers' association may show a slight advance, Friday.

Little is doing in the wool market here. A little comes in now and then. Laine hogs dropped 25 cents all along the line here Thursday, bringing top hogs down to \$4.50 and \$4.75, and the heavy hogs to \$2.50 and \$3. No other change in the livestock list was reported.

Raspberries and logans will probably wind up their main season this week. They were very scarce Thursday.

Cherries are likewise getting scarcer, the black being the main ones in now.

Green corn continues scarce. Green beans are coming on the market slowly, too.

Following were the prices for the day on the local markets:

Chicago Wheat Values Sagging

CHICAGO, July 21.—(AP)—Wheat values sagged late today, owing

largely to absence of sustained buying force. Export demand for United States wheat was inching, although 1,000,000 bushels of Canadian was taken today and an equal amount yesterday. Price declines were in the face of the fact predictions of rain had been unfulfilled.

After reacting to below yesterday's finish all around, wheat closed irregularly at 1/4 decline to 1-8 advance, corn 1-8@3-8 down, oats 3-8@1/2 off, and provisions at a rise of 12 to 17 cents.

PORTLAND CASH WHEAT SHRINKS

PORTLAND, July 21.—(AP)—Bears continue in control of the Portland wheat market as they are also in charge of the leading markets of the North American zone. While there was no change in wheat futures here for the day and no trading, and despite the receipt of export business, cash wheat lost 1/4 to 1 1/2c on the Merchants exchange. It was the most complete expressions of bearish control nothing sold early.

SPECULATORS GET FAIR RESPONSE IN THURSDAY'S DRIVE

NEW YORK, July 21.—(AP)—By concentrating their efforts on issues whose earnings have held up relatively well, speculators for the advance managed to chalk up a few gains of 1 to 2 points in today's stock market, although the list as a whole refused to push through its upper resistance level of its July trading range. The closing tone was firm. Turnover approximated 900,000 shares.

Tobacco, foods, Atlantic and a few specialties made substantial headway and some rails were given a boost, on the strength of the promise of the executives association to cooperate to reduce expenditures. Persistent strength of bonds was helpful, shares, but principal commodities failed to provide much encouragement.

A good business was reported for the producers' market, but prices practically all continued steady.

A few Blue Lake beans were seen. New beans, generally, are coming in slowly.

Strawberries were seen Thursday. The black varieties are the main ones in now, along with pie cherries. Raspberries and logans are considerably scarcer. Strawberries are off a bit, so few come in. Currants are another fruit practically off the market.

Corn is improving in quality but the supply is still short.

All eggs and poultry remained unchanged Thursday.

BRITISH REFUSE AMERICAN PLANE

LONDON, July 21.—(AP)—The fastest plane in Britain, except for the Schneider Trophy machines, is for sale, but nobody wants it because it is American.

The machine, a Lockheed, is the one in which the late and famous Captain Glen Kidston beat all existing records from London to Capetown when, starting on March 31, 1931, he flew 7500 miles to Capetown in 11 hours at an average speed of 131 miles an hour. Previously on Feb. 21 of the same year Kidston beat the record for a London to Paris flight by flying 210 miles in 72 minutes—an average of 175 miles an hour.

Kidston's machine can fly faster than any other machine in Britain (except Schneider Trophy machines) at less than 5000 feet up. Not far from the ground it can do 200 miles an hour. Air force machines have to climb to heights above 5000 feet before they can attain such a speed.

Lieutenant Owen Cathcart-Jones, who pilots the white and red record-breaker for the Kidston estate exceptors, told the United Press that he had flown all over England in an attempt to sell the plane. Because it is American, however, it cannot be sold in Britain. It is a free export for profit. Because it is a free export, a private individual in these hard times wants to take the machine because of the cost of upkeep.

DUCK HUNTERS GET TWO-MONTH SEASON

WASHINGTON, July 21.—(AP)—The open season for hunting wild ducks and geese has been extended from one to two months for the coming fall by President Hoover at the recommendation of Secretary Hyde.

The lengthened season, it was said at the department of agriculture, is made possible by improvement in the waterfowl following drought on their breeding grounds in 1931.

The earliest open season in any state will be Oct. 1 and the latest opening date, Nov. 16, with the exception of Florida, where the season will open Nov. 20. In Alaska Sept. 1 will be the opening date.

The new open season for ducks, geese, brant and cranes includes: Oct. 1 to Dec. 15—New Mexico, Arizona, Idaho, Oregon and Washington; Oct. 1 to Nov. 30—Nevada; Nov. 1 to Dec. 31—California.
