IT SAVED HER DAUGHTER

IT IS the daughter herself—Miss Rose Lama—who willingly gives the facts in a letter:

She says, "My mother wanted me to take Lydia E. Pinkham's Vegetable Compound when I was younger. But I wouldn't. If I had, I might have been a well girl now. I suffered terribly every month."

Finally the girls in her office convinced her. She tried it at last. Now she is on the way to greater health and happiness. Mothers—tell your daughters. And daughters—take your mother's advice. Suffering is unnecessary.

OUTLAW OF THE JUNGLE

"Nature in the Raw"—as portrayed by the great animal painter, Paul Bransom . . . inspired by the leopard's fierce fighting power and relentless hunt for prey which makes him the terror of every beast of the African jungle.

Copr., 1922, The American Tobacco Co.

—and raw tobaccos have no place in cigarettes

They are *not* present in Luckies . . . the *mildest* cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"

That package of mild Luckies

"If a man write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, tho he build his house in the woods, the world will make a beaten path to his door."—RALPH WALDO EMERSON.

Does not this explain the world-wide acceptance and approval of Lucky Strike?
