

CANADIAN FARMERS WANT GOVERNMENT TO GRANT BONUS

WINNIPEG, Oct. 12.—(AP)—Representatives of the governments of the prairie provinces of Canada, meeting here to formulate a plan for aid to western farmers, urged the federal government to call an international conference of representative producers and administrators of the chief wheat-exporting countries.

The government also was asked to grant a bonus on the 1932 crop of the prairies.

A statement to be dispatched to Prime Minister R. B. Bennett made no mention of the amount of the bonus, and it was said the federal government should decide the bonus rate.

Dispatches from Calgary quoted Norman F. Priestley, vice-president of the United Farmers of Alberta, as declaring that a bonus of at least five cents a bushel should be available to Canadian farmers this year.

The government paid a bonus of five cents a bushel on the 1931 crop. The conference just ended here was called after wheat prices had declined for ten days. Among those in attendance was J. E. Brownlee, premier of Alberta, M. A. MacPherson, provincial treasurer of Saskatchewan, and J. Braken, premier of Manitoba, as well as several representatives of the western cooperative agencies.
