IN PLACE OF COFFEE

There are millions of people today who cannot or dare not drink coffee, which beverage goads their nervous system into painful activity producing irritability, indigestion, nervousness, constipation, etc. Many of these people try a "Substitute."

KOFIC

Is a fortunate alternative—the original fig cereal coffee. Used in California since 1906, growing in favor every year. Once tried always used. Goes twice as far as coffee and other substitutes. Your money back if you are not satisfied.
