

Here's One For "Curious World"

COTTAGE GROVE, Oct. 28.—(Special.)—An incident worthy of the "Curious World" is reported by Dr. Harold Axley, who has a cabin on the ocean about 10 miles north of Bandon. A huge log, four feet in diameter, of either spruce or spruce, comes to anchor at the Axley place every summer, floats away every winter and returns to almost exactly the same spot the next summer.

Mr. Axley knows that this has happened for the three years that he has had a cabin there and doesn't know how many years it may have happened before that.
