Hitler Given Six Hours To Get Majority

BERLIN, Nov. 21.—(AP)—President von Hindenburg gave Adolf Hitler, Nazi leader, six hours today in which to obtain a reichstag majority which would support a cabinet headed by a member of Hitler's party, presumably Hitler himself.

It was understood Hitler firmly reiterated his claim that he must be appointed chancellor before the Nazis would co-operate with any cabinet.

Police reserves were called out to clear a way for Hitler's automobile to pass over the 200-yard route from the Kaiserhof hotel to the presidential palace.

Von Hindenburg is seeking a successor to Chancellor Franz von Papen, who resigned last week because he lacked support for a coalition regime.

Representative Prepares To Push Measure During Short Session

WASHINGTON, Nov. 21.—(AP)—Representative Britten (R., Illinois), after a conference with President Hoover at which he said possible beer legislation was discussed, told newspapermen he "was quite satisfied Mr. Hoover would not veto a beer bill."

Long an advocate of modification of the Volstead act, he said he had devoted his entire conference with the chief executive to discussion of this subject.

After spending about ten minutes in the president's office Britten spoke with newspapermen on leaving for the capitol. He refrained from making any statement on Mr. Hoover's direct reaction to the views he had expressed to him.

President And Roosevelt To Meet Tuesday

WASHINGTON, Nov. 21.—(AP)—Plans for American participation in the world economic conference probably will be discussed tomorrow by President Hoover and President-Elect Roosevelt at the White House, it was stated today in a high official quarter.

This revelation was considered significant in view of Europe's desire to consider the war debts in connection with other economic issues at the world conference.

The administration source which suggested the probability of the economic conference arising at the White House discussions, did not, however, connect it with the debt issue.

In accepting the League of Nations invitation to the conference the state department specified that war debts and tariff rates should not be discussed there.

Delegates Told Withdrawal Now Dangerous For Peace in East

GENEVA, Nov. 21.—(AP)—Japan refused before the league of nations council today to relinquish her position in Manchuria, and China retorted by threatening to extend the Chinese boycott against Japanese goods.

The position of the two nations was outlined in speeches by Yuzoku Matsuo for Japan and Dr. Wellington Koo for China.

The deadlock created a grave crisis for the league, with the withdrawal of Japan from membership threatened.

Citing the American, British, and French interpretations of the Kellogg pact to prove that Japan was not guilty of treaty violation in Manchuria, the Japanese delegate told the council that Japan cannot consider any substitute for the present government in the Manchurian state of Manchukuo.

Denies Jap Initiative

Matsuo's voice rose nearly to a shout when he read the United States senate's ratification of the Kellogg pact recognizing that the right of self-protection may be extended beyond the borders of a country.

Matsuo said the mere consideration of a solution other than the maintenance of the Manchukuo government "might possibly lay the whole far eastern question open to serious disorders... We can enter no such consideration."

Matsuo denied Manchukuo owed its existence to Japanese initiative. "Such a suggestion flatters Japan, SEE JAPAN REFUSAL STORY PAGE 3

ASHEVILLE, N. C., Nov. 21.—(AP)—Allenists examined Col. Raymond Robins in a sanitarium today to discover what, if any, ailment the noted prohibition leader and friend of President Hoover has been suffering from since he disappeared in September.

Col. Robins still maintained, according to officials at the Appalachian hospital, that his name was "Reynolds Rogers," the pseudonym under which for six weeks he roamed the North Carolina mountains, prospected for minerals, mingled with Cherokee Indians, and made friends with the natives.

The colonel, who disappeared when he was on his way to a White House meeting with President Hoover, still insisted on retaining his identity as "Rogers" and refused to recognize his wife and other relatives.

Physicians who have attended him declined to make a public diagnosis of his case, although they admit that amnesia, from which he may be suffering, very frequently has phases in which only partial obliteration of the memory faculties is noted.
