### PORTLAND LIVESTOCK

PORTLAND, Ore., Jan. 7.—(Special)—Cattle, 808, calves 58 for week. Most sales were at steady prices. Strictly good heifers and steers were absent, but the best steers available, grading medium to low, sold at 5.00, with the best next grade 4.75 and the bulk of desirable sorts 3.00 and higher; low grade was down to 2.75, but generally 3.00 and better; bulk of carload heavy and best grade available sold at 4.50, but the bulk ruled at 3.50 and better; high medium to good cows were 3.50-3.75; low cutters to common sorts were 1.00-2.50; medium to good bulls were 2.00-3.00; calves were scarce but nominally quoted 2.00-5.50.

Hogs, 4013 for week. Trade started slightly under pressure early Monday a couple of loads of quality light butchers sold at 4.00, the same as the previous week's close. Later in the day and thereafter during week 3.85 was the extreme top for the bulk of best quality; heavyweight sorts scaled around 3.25-3.50, with packing sows 2.75-3.00; the pig alley killer stuff sold 3.00-3.25, but mostly at 3.25; feeders were quoted at 3.00.

Sheep and lambs 1588 for week. While there was a showing of strength in ewes, which have been scarce, lambs were about 10c lower with the best stuff not above 5.00 during the week. Bulk of lamb arrivals sold at 4.75 down with this sorts mostly down to 2.50 with poor demand; choice yearlings were quoted to 3.00 and ewes 2.00 and lower.

Market for country killed meats showed a rather firm tone during the last 24 hours, suggestion not only of the improved demand, but of light supplies. Lamb especially were scarce and firmly priced.

Very sluggish trade tone was continued in the market for potatoes. Primary points were quoting steady to strong prices but it was noted that rollers and truck offerings are sold slightly easier.

## RESPECTS ARE PAID TO CALVIN COOLIDGE IN FINANCE CENTERS

NEW YORK, Jan. 7.—(Special)—American security and commodity markets, with few exceptions, remained closed today as a mark of respect to Calvin Coolidge. In New York the only markets open were the grain division on the produce exchange and the dairy and poultry market. Some of the large business concerns also closed, but the banks, because of their charter requirements, transacted business as usual.

## HOTHOUSE LETTUCE FOUND ON MARKET

Apples and nuts continue plentiful. There is a good display of squash, too, considering the season is pretty well advanced.

A fine display of parsnips can be found on the market, too.

Oyster plant is more plentiful. Stall 75 had it Saturday, quoted at 5 cents a bunch.

Eggs, poultry, and butter all remained unchanged.

## SPREAD IN BUTTER PRICES NARROWED

PORTLAND, Jan. 7.—(Special)—Spread between top grade butter and standards was narrowed to the normal of 1 1/2c during the week-end session of the produce exchange. During the week the spread was 1 1/2c, in the cube trade with a like slash in lower grade of firsts. Both standard and prime firsts lost 1/2c, each. Extras were therefore dropped to 2 1/2c, but with standard 2 1/2c. There is now a spread of 1c between top and bottom grades.

Butterfat bids were generally reduced 1/2c, with the lowering of the cube and print market. Some cut churning cream to 12c, but others were offering 20c; although both showed the same cut from former figures. The country station buying price was cut to 12c, generally.

Receipts of butter continue to increase with a like showing in local churning.

There was some suggestion of price shading again in the market for potatoes, although local crops were still quoted former figures. Shading by outsiders was reported as general.

Very sluggish trade tone was continued in the price of live chickens appear to have failed locally for the time being. Little supply was now coming forth and these were moving into fresh consumption channels.

No change in the general turkey market situation was suggested with receipts of quite fair volume. There was little real top stuff coming forth; a larger per cent of ordinary to poor stuff being shown.

Market for country killed meats showed a rather firm tone during the last 24 hours, suggestion not only of the improved demand, but of light supplies. Lamb especially were scarce and firmly priced.

Very sluggish trade tone was continued in the market for potatoes. Primary points were quoting steady to strong prices but it was noted that rollers and truck offerings are sold slightly easier.

## TECHNOCRACY IN LIMELIGHT AT SCIENCE MEET!

"Technocracy" dominated the meeting of the American Association for the Advancement of Science at Atlantic City with verbal clashes occurring on whether man's productivity is becoming obsolete through encroachment of machine age improvements. An offshoot of the technological development is the discussion led by John Norton (left) of Suffield, Conn., who is proposing adoption of the "electrical dollar" as a monetary unit along with the gold standard. The new unit would be measured in terms of kilowatt hours, which are the same the country over—40 kilowatt hours equaling one "Edison Dollar." Meanwhile Prof. Walter Rautenstrauch (right) of Columbia presented the case for the Technocrats and told of what he indicated was mankind's diminishing productivity.
