What! Me pay more money for other tires? Don't make me laugh! I USED to judge a tire by what it cost. What a mistake that was. Last year I discovered that Riverside tires are made of the finest materials by skilled workmen—in one of America's largest tire factories. The factory that makes millions of tires for America's leading cars. The only important difference between Riversides and other famous tires is price. Ward's prices are 10% lower. What's more, Riversides are guaranteed to give absolute satisfaction. When I heard that, I put them on my Lincoln and I've been using them ever since. That saving of 10% will buy a lot of things I need. No tire salesman will ever get me to pay extra for other tires again. I'm married to Riversides.
