"IT'S TOASTED"

You don't have to tell me a thing about "Toasting"

Now, don't misunderstand me. I probably don't know just how the "Toasting" process works...but I certainly know enough about the good it does. To me my cigarette is personal, so when I light a Lucky and taste its fine, pure tobacco fragrance...when I smoke Luckies in any number and still find them cool and mild...do I have to know how "Toasting" works? Frankly, I don't care much...just so long as I can keep on saying—and mean it—"Luckies Please!"

because "It's toasted"
