

ELECTRICAL CODE DRAFTED; WILL BE CONSIDERED SOON

Creation of an electrical board to have supervision over the work of electrical contractors, electricians and other persons doing electrical work in Eugene is provided for in the newly drafted electrical ordinance being considered by the city council.

The ordinance has been revised and put into shape for final consideration of the city council and may be inspected at the city engineer's office.

The new ordinance provides that the board shall consist of three members, one electrical contractor, one electrical engineer and one journeyman electrician, to be appointed by the mayor and confirmed by the council. Members will be appointed for one year.

The ordinance provides that all electrical work must be done under city license and lists four classes of licenses as follows:

1—Electrical contractor's license necessary for installation, alteration, maintenance or repair of electrical fixtures and equipment.

2—Electrical maintenance license for doing maintenance work in the building or office of the employer of the man doing the work.

3—Supervising electrician's license for persons supervising or directing electrical work.

4—Electrical dealers license for persons selling electrical devices and equipment.

Permits for electrical work are required and the ordinance sets forth fees to be charged for each type of work.

The ordinance is to be known as an electrical code and will be enforced by an electrical inspector who shall inspect electrical devices and equipment periodically.

CHLORATES GOOD FOR WEED KILLING

Chlorates have been proven generally effective in controlling Canada thistles, wild morning glory, blackberry plants, poison oak, wild rose bushes and other plants in this county, O. F. Fletcher, county agent, announced Saturday. Demonstrations and field trials conducted in the county by the agent during the past five years have been satisfactory.

Both sodium chlorate and the calcium chlorate weed killer known as atlacide were used in the tests which showed that five pounds of atlacide per square rod were required to give as good kills as three pounds of sodium chlorate.

Best kills of all kinds of plants were obtained where there was a heavy growth and where power spraying outfits were used, it was said. However, caution is necessary in using sodium chlorate, as was shown by the fact that there were a number of fires caused by the chemical.

In order to assist Lane county property owners in their weed control work, the county agent will again pool orders for sodium chlorate and atlacide at cost. Pools will be closed Monday and Thursday of each week. All chlorates ordered on Monday should be ready for delivery on Wednesday, while supplies ordered to Thursday should arrive on Saturday. Prices will be quoted upon request.

Sodium chlorate comes in 100-pound drums only, while atlacide may be obtained in either 100-pound or 50-pound drums. Orders for less than one drum will not be accepted by the county agent. Parties desiring less than a drum should arrange to purchase it from or with a neighbor.

Good Crop For Melons Forecast In Oregon Areas

PORTLAND, July 15.—(AP)—Although there is a decrease of perhaps 20 per cent in Oregon's cantaloupe acreage this season, at least in the western sector, surveys completed here indicate current crop prospects are for a total yield very close to last year's figure. A large acreage is in cultivation in Douglas county, and production there is estimated at from 30,000 to 35,000 crates.

The Journal said today that C. Wesley Williams, widely known Dillard grower, will this year start shipments of the Umpqua valley melon to the Orient, presumably to Yokohama, Manila and Shanghai, as an experiment. A few crates were shipped last year, some going to Hastings, New Zealand, and were said to have arrived in perfect condition after being enroute for 30 days.

The trade here says this season's crop of Oregon cantaloupes is growing very rapidly and is making unusual progress since the cold rainy weather was left behind. Distributors here say the fruit is sizing up well and should be of excellent flavor as a result of continued growth. Shipments are expected to start August 15.

TRAGEDY, GAYETY MARK PROGRESS OF ITALY'S AIR ARMADA!

Episodes that evoked tears as well as cheers in the historic flight of Italy's air armada to Chicago are shown in this pictorial diary of the expedition's flight across the Atlantic. On arriving at Londonderry, Ireland, General Italo Balbo, leader, was acclaimed by 10,000. He is shown, upper left, conversing with some of the colleens who strewed flowers and rose petals in his path. The crack-up of one of the armada's seaplanes at Amsterdam (lower right) causing the death of one aviator, did not deter the armada from lining up again (center) for Londonderry. The remaining 24 planes arrived safely at Chicago Saturday afternoon under escort of 42 U. S. army planes from Selfridge Field.

TRAFFIC HEAVY ON M'KENZIE HIGHWAY

WALTERVILLE, July 15.—(Special)—Traffic was especially heavy Saturday and Sunday of this week owing to the large picnic up the McKenzie for the Odd Fellows from all parts of the western side of the state. Many reunions of different families and friends were planned for Sunday and several were planning on attending from Walterville. Owing to the hot weather a few families who were going decided against the trip.

Friday registered the hottest day for the summer when the thermometers reached 92. Due to the warm weather and the hot afternoons and children and young people are finding the swimming pools where ever they have access to them. According to those who have been in the habit of swimming at the Anderson pool the sport there is not so good this year as the winter high water has deepened the pool and with the fuller volume of water makes the temperature of the pool colder than in previous years. Shallow places in the ditch are being used and also the river.

Swimming seems to be the main pleasure of the hot afternoons and children and young people are finding the swimming pools where ever they have access to them. According to those who have been in the habit of swimming at the Anderson pool the sport there is not so good this year as the winter high water has deepened the pool and with the fuller volume of water makes the temperature of the pool colder than in previous years. Shallow places in the ditch are being used and also the river.

Mrs. R. W. Woodruff and two children, Marilyn and Rolland, of Portland, and Mrs. F. D. Smith were guests Thursday at the home of Mr. and Mrs. J. W. Fountain. The ladies spent a day at the home of Mrs. O. L. Stacy and one with Mrs. Everett Wearin. Mrs. Woodruff and children are visiting a few days with Mr. and Mrs. Smith and plan to return to Portland soon.

Mrs. O. L. Stacy and Mrs. A. J. Irvin accompanied Mrs. Esta Polley to Eugene Friday.

Baptist Juniors To Hold Services

The Baptist junior church will hold special services Sunday at 11 a. m. and the boys will conduct the entire meeting. The boys' choir will sing. Robert Miller will tell the story of David, Richard Gunder will give a reading and Charles Devereaux will give a "cello solo and a talk, giving a demonstration with the use of an electric magnet. Monroe Shelley will read the scripture lesson.

After the service C. P. Devereaux will have a surprise for the group. A special invitation is being extended to all boys and girls to attend the services.

SERVICES LISTED

Rev. R. Bogstad, superintendent of the Sunset Home, will conduct services in Sunset Home chapel at 10 a. m. this morning. He will preach in English on the subject: "God-Touched Men."

Two Drown When Squall Tips Boat

VANCOUVER, B. C., July 15.—(AP)—Alvin Hendry and his wife, Vancouver, were drowned in Queen's lake, Cariboo range, when a sudden squall tipped their small boat, spilling Hendry and his wife into the lake last night.

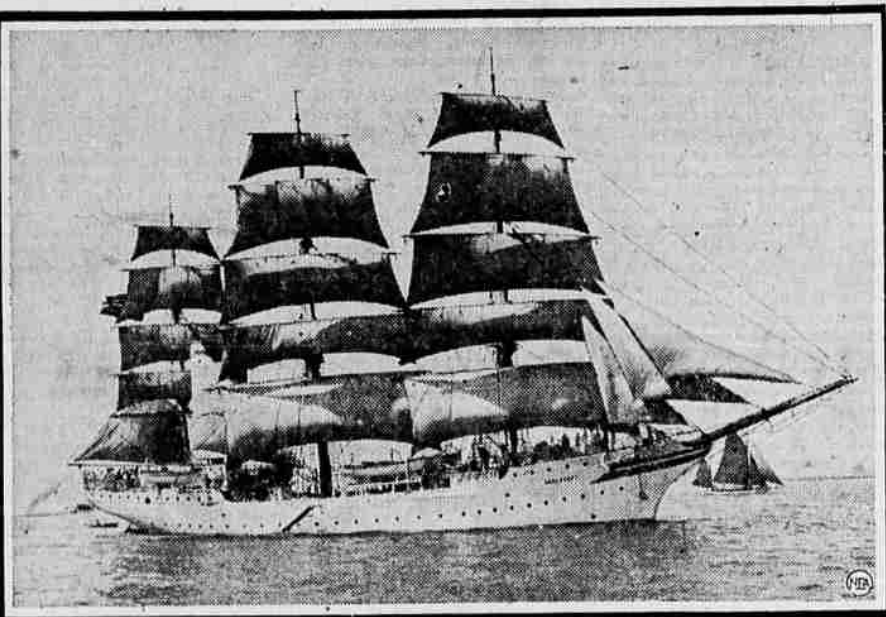

The two had been fishing when the squall hit.

In seating guests at dinner, it is customary to separate married couples but to allow an engaged man to take in his fiancée.

The body of Emperor Frederick the Great was not embalmed because of his expressed wish; two regimental surgeons bathed the body and prepared it for interment.

Ph. S. E. Stevens for piano tuning.

SQUARE RIGGER SAILS FROM NORWAY TO FAIR!

The day of the big sailing ship is almost past, but A Century of Progress at Chicago has brought the first square rigger from Europe into the Great Lakes. The picturesque craft, the Sorlandet, Norwegian naval training ship sent to the World Fair as Norway's exhibit, is shown here as she slipped along under full sail into Chicago's harbor.

MANY VETERANS MAY HAVE TO BE AIDED BY COUNTY

Out of a membership of 29 Spanish war veterans in the camp at Cottage Grove, 20 have received notice from the veterans' administration at Washington, D. C., that their pensions have either been cut off altogether or greatly reduced. The Lane county court was told by a committee of veterans from that city Saturday afternoon.

The committee consisted of Rev. I. G. Shaw, who is department chaplain of these veterans, W. H. Miller and H. A. Gallagher. They placed this information before the court to inform the members as to the extent that the county may be called upon to assist veterans when the new national legislation affecting their pensions goes into effect. It is presumed to be effective at the present time, July 1 having been set as the date.

The veterans told the court that some of those whose pensions were reduced will receive as low as \$8 a month and the highest will receive but \$30, which is the amount set for those totally disabled. Of the 20 who have been cut off the rolls or reduced in pay at least 15 will be compelled to ask the county for aid, it was stated, as their pensions were all the income they had and they are not able to work.

It was admitted that most of these notices were sent out after the original economy bill was passed and before the compromise measure was enacted in June, and these veterans may not be hit as hard as they think they are, but in any event the reduction in pensions will be drastic and many of the veterans in the county may have to depend upon charity for a part of the living after all, it was pointed out.

Local veterans of the Spanish war have been "up in the air" about their pensions ever since the compromise measure was passed by congress. This bill provides that all veterans over 55 will receive \$15 a month, "if they are in need," and are 50 per cent disabled. Those 62 and over will receive this amount without being subject to the "need" clause. A majority of the veterans here who are 55 and older have a disability rating of 50 per cent or over, but the uncertainty of the situation lies in the fact that nobody knows how the veterans' administration is going to determine whether or not the men are "in need."

The records of the local camp of Spanish war veterans show that more than 25 of the members are under 55 years of age, and their pensions will be cut off entirely, under the new act, unless they have a rating of total disability.

Vets in Session At Roseburg Ask Hines To Resign

ROSEBURG, Ore., July 15.—(AP)—Claiming that administration of the national economy act has been featured by many injustices, the Veterans of Foreign Wars in their annual state encampment, which entered its final sessions here today, adopted a resolution demanding the immediate resignation of General Frank T. Hines, as head of the veterans administration. The veterans in the discussion of the resolution, placed blame for the alleged injustice upon the administrator.

Other resolutions adopted at the morning session urged that service records be made available to men who have served in the army on the same basis as to men who served in the navy or marine corps; proposed that the state of Oregon borrow R.F.C. funds in the sum of \$3,000,000 to be used for the relief of disabled veterans and recommended executive clemency for LaVerne Carter, LaGrande veteran recently sentenced to imprisonment on a charge of manslaughter.

Bright Spots

By UNITED PRESS
NEW YORK, July 15.—(AP)—Consumption of crude rubber by American manufacturers reached a new high record of 51,326 tons in June, up 15.1 per cent over May and 23.8 per cent over June, 1932. The Rubber Manufacturers Association reported.

TOLEDO, O.—A 10 per cent wage increase, affecting 3,700 workers, was announced today by the Libby Owens Ford Glass Co.

NEW YORK—Electric output of the Associated Gas & Electric System for the week ended July 8, was reported today at 48,307,554 kilowatt hours, a gain of 16.1 per cent over the corresponding week of 1932.

WASHINGTON—A total of 75,026 new automobiles was financed at retail in May, against 55,387 in April and 63,885 in May, 1932. It was reported today by the department of commerce.

PHILADELPHIA—Wage increases averaging 11 per cent were announced today by Philco Radio & Television Corp., to become effective Monday.

Challenge on Milk Prices Said Likely

CHICAGO, July 15.—(AP)—Legal challenge of the right of the federal government to set a standard price for milk in the Chicago area is likely, independent milk operators said today.

Attorney Joseph E. Green of the Independent Milk Distributors' association of northern Illinois said he would bring a test case in the courts unless the price fixing agreement included a clause allowing a price differential for roadside milk stand operators.

SPRINGFIELD, July 15.—(Special)—Friends of Mrs. H. O. Dibble gave her a surprise dinner at the home of her parents, Mr. and Mrs. G. T. Fellows, near Santa Clara Thursday evening. The guests included Mr. and Mrs. E. C. Stuart and children, Nellie and Frank, Mr.

Springfield Celebrates With Vim, Vigor and Lotsa Barbecue

The holiday spirit marked the crowd of hundreds who attended the barbecue in Springfield Saturday evening celebrating the opening of the Booth-Kelly mill. From the time several dozen youngsters teetered on the edge of the barbecue pit as the dirt was being dug out, everybody was happy.

The thrilling anticipation of the "Thanksgiving" guests who "oh" and "ah" when the turkey is brought in was matched by the several hundred who had gathered to watch the barbecue meat taken from its "oven" four or five feet underground.

Every scrap of the 350 pounds of beef disappeared within 30 minutes after the meat was taken from the pit. Even the bones were claimed—and not by the numerous dogs which were underfoot everywhere. Every other little boy, and several little girls, were chewing on a bone before the evening was half over. One youngster was seen struggling with a huge leg-bone.

The keynote of the festivities was marked by the wrestling match between Jerry "Prosperity" Lake and Jimmy "Depression" Lake, aged six and six respectively, in which "Depression" was soundly walloped.

A more serious note was sounded by Mayor W. P. Tyson, only speaker on the program following the barbecue, when he expressed the city's gratitude to the management of the Booth-Kelly company in reopening the mill, stating, "We congratulate them on the speed with which they responded to the appeal of our

ident F. D. Roosevelt."

During the barbecue music furnished by Cox's juvenile orchestra of Eugene, the Melody Makers. The short program which included popular music by Ted Hart's orchestra, negro spirituals popular melodies by the Lums quartet, a vocal solo by Merline Mae, and trombone solos by MacManiman, accompanied by Levi Neet.

Committees for the celebration which marked the end of the week of operation at the Booth-Kelly mill in two years, included following: H. E. Maxey, chairman, W. C. Wright, L. M. H. son; program committee, Dr. J. Rehban, chairman, Floyd P. and P. J. Bartholomew, chairman, W. K. Barrett, chairman, M. B. Hunter, and John P.

Beryllium is a metal about third lighter than aluminum. Over \$2,000,000,000 has been by the world-at-large for radio the last 10 years.
