

Sacramento-DeMaggio Series Opens Tuesday Local Markets Steady; Stock Sales Irregular

SEAL OUTFIELDER AFTER ALL-TIME HITTING RECORDS

(By The Associated Press)

As the 1933 Coast league pennant battle swings into its 16th week today, Sacramento takes the field against Joe DeMaggio of San Francisco in the week's feature series.

Joe will have the regular San Francisco lineup to back him up, but just the same it will be a DeMaggio-Sacramento series. The stumbling Seals aren't rated much opposition for the fast-moving Senators, but their kid outfielder has it in him to make it quite a series.

For one thing, he has hit safely in 53 consecutive games, four more than any other Coast leaguer in the history of the circuit. For another, he is still banging away and driving towards the all-time professional baseball mark set by Joe Wilhoit of Wichita in 1919. Wilhoit's mark is variously listed at between 61 and 69 games.

Finally, the red-headed Sacramento pitcher is the only one Joe hasn't faced since he went on his hitting rampage May 28 at Portland. He thinks he can hit Solon tossing just as well as any other. The Senators think not. They are giving him a "Joe DeMaggio" night tonight to make sure.

In second place and eager to be at the top of the league ladder, Hollywood meets Seattle at Los Angeles. The Stars went wild against Mission pitching last week and slugged their way to six victories in seven games. The Indians have a difficult week ahead.

With a record of 28 defeats in their last 36 starts, the once dangerous Missions return to their home grounds for a series with Portland. The Beavers lost five of their seven games at Oakland last week and are as eager as the Reds to regain a winning stride.

Some of the season's best pitching is promised this week at Oakland where Los Angeles engages the Oaks. In beating the Beavers, Oakland hurlers allowed an average of three runs a game, while Angel tossers gave the Seals only a fraction over four runs a game in their seven meetings last week.

Al Simmons Picks Yanks to Repeat

NEW YORK, July 18.—(AP)—Al Simmons picks the New York Yankees, Washington Senators and his own Chicago White Sox to finish one-two-three in the American league race.

"The Yanks have the best team in the league," the clouting Sox outfielder declared. "If they don't repeat they will have only themselves to blame."

Snappy Service in Second Place After Defeating Activians

The Snappy Service team moved into second place in the standings of the Twilight league Monday night with a victory over the Active club 5 to 4. The Knights of Columbus team still tops the list of standings.

In the other scheduled game of the league, Underwood and Elliott beat the Farmers' Creamery 5 to 4. Moore, of the Creamery team, and Cochran, of the grocery store, dined home runs.

Batteries: Snappy Service—Wirth, Beeson and Curry; Active—Kemp and Johnson. Underwood and Elliott—Burnett, Gillette and Mercer; Creamery—Harrington, Moore and Williams.

Bulldog Jackson Defeats Japanese

PORTLAND, Ore., July 18.—(AP)—Coming back after losing the first fall, Bulldog Jackson took the next two to win from Tetsuro Higami of Japan in the main event of last night's wrestling card here. Jackson weighed 158, and Higami, 160. Higami took the first fall with an airplane spin in 17 minutes. Jackson evened it up five minutes later with a hammerlock, and then in less than two minutes took the deciding fall with a series of flying tackles.

Otis Clingman, 160, Oklahoma City, took one fall and the semi-final from Johnny Neenan, 157, St. Louis. Logger Helbert, 165, St. Helena, Ore., won the opener from Dorry Detton, 150, Logan, Utah, taking two falls out of three.

Four-Minute Mile Declared Possible

NEW YORK, July 18.—(AP)—Given proper conditions Daniel J. Fieris, secretary-treasurer of the national A. A. U., is convinced now that a four-minute mile is entirely possible.

"It may seem fantastic," he said, "but under proper conditions and particularly if it were possible to bring together the three greatest milers in the world today—Jack Lovelock, Bill Bonthron and Glenn Cunningham—

Tesura Higami, the Nipponese hurricane, who meets Otis Clingman in the main event at the armory Thursday. The boys will flip a coin before the match to see whether the first fall will be wrestled at catch-as-catch-can, or with jiu-jitsu jackets. The second fall will be at the opposite tactics to those employed in the first, and the man winning his fall in the shortest time will have his choice of the style to be used in the third.

SEATTLE GOLFERS BURN UP COURSE IN STATE TOURNEY

(Associated Press Sports Writer)

SPOKANE COUNTRY CLUB, Spokane, July 18.—(AP)—If anybody other than Walter Pursey of Seattle or Ted Longworth of Portland wins the Washington State open golf championship at the conclusion of the last 36 holes of medal play today it will be a big surprise to the spectators and a bigger surprise to Mr. Pursey and Mr. Longworth.

The two Seattle professionals yesterday exhibited as sensational a par-shooting battle as has ever been seen in the state, with Pursey nosing out Longworth by one stroke for the lead over the field, but he had to lead par by eight to gain the slim advantage.

While the morning gallery was flocking after Albert "Scotty" Campbell, Seattle's new golfer of golf, the two veterans proceeded to turn the Spokane course upside down.

Pursey captured 10 birdies before he ran into any trouble and then only slipped on two holes to complete the day's performance with 66-70-130, or eight under par. Longworth matched stroke for stroke with the Seattle ace except for an out-of-bounds ball which cost him two under a new local rule, and he fell one swing behind Pursey. His cards were 66-71-137. They led the field by such a wide margin that all except Bert Wolfe of Bellingham, Bill Miller of Spokane, Willie Price of Olympia and Campbell, were considered out of the race. And

Alvadore Leading Big Eight League After Marcola Win

(United Press Staff Correspondent)

NEW YORK, July 18.—(AP)—Eleven hundred and one years from today or July 18, 1934, to be exact, a young man in white shorts and a smiling face will be the center of attention at a new world's record of 6,000 for the mile run. In other words, the young man whom we will call Matthew for short, will cover the eight furlong route in nothing flat.

There will be the usual black-faced streamers on the sports pages proclaiming the feat, and the usual interview with Matthew in which he will express pleasure at his time and point out that but for the presence of a slight head wind he would have done even better.

"I was a little worried with my time at the first quarter," Matthew will say. "I was pocketed at the first turn and this, coupled with my slow start, made me wonder if I could break the record."

Matthew's feat will stir up the usual timing arguments. As the race will be run in the east (probably Sandwich, on Cape Cod), the west coast critics will deride the mark, pointing out that when Jug Hightower (Stanford's crack miler) ran his 6:00.1 mile he was timed by the radio-telephone-robot, whereas Matthew's judges used the old-fashioned split-atomic-relativity-cell watch.

The argument will rage for months. It will be settled, however, when the sponsors of the international track and field carnival at Chicago offer Matthew \$750 and expenses (the highest bid ever made to an amateur) to run in their meet, and Jug only \$500.

Last some readers proclaim us batty for predicting a 6:00.0 mile perhaps we should explain that our prophecy is based on mathematics or cold figures, as some of the boys delight in calling it.

In 1884 (the year Queen Victoria's letters made such distressing reading) one W. G. George of England, ran a mile in 4:18.4. Last Saturday, amid the bucolic atmosphere of Princeton, New Jersey, Jack Lovelock of New Zealand and Oxford ran a mile in 4:07.6.

For convenience sake, and out of respect for our dislike for dealing with anything improper, even though it be only fractions, let us assume that eleven seconds is the improvement made in those 49 years.

Once more for convenience sake, let us make that 49 years an even 50 years. Therefore, if it required 50 years to chop off eleven seconds, how many years will it require to bring the mark down to nothing flat?

Using a sharp No. 2 pencil and the back of a pawn ticket, we figured it would take roughly 1101 years, since Lovelock's time represents 147 seconds.

Tomorrow's little essay will take you through mammoth caves, clearing up, for all time, the difference between stalagmites and stalactites. Don't miss it!

PUBLIC MARKET'S LISTS UNCHANGED

The Produce Public market had no changes to report Tuesday. A fair trade was out.

Local celery hearts are on the market in good supply now, selling at 10 cents a bunch.

Young berries are quoted at \$1.46 a crate on the market.

More apples are coming in all the time.

Some fine quality cherries are on the market now.

Berries of all kinds remain unchanged.

Eggs, poultry, and butter were all steady Tuesday. Following was the report for the day:

RETAIL PRICES

Vegetables	Price
Leaf lettuce, lb. 5c; 2 lbs. 10c	
Spinach, lb. 5c	
Asparagus, 2 lbs. for 10c	
Radishes, 3 bunches 10c	
Green onions, 3 bunches 10c	
Mustard greens, lb. 5c	
Head lettuce, best, head 5c	
New beets, carrots, turnips, 3 bunches 10c	
New potatoes, 10 lbs. for 25c	
New cabbage, lb. 5c	
New peas, 4 lbs. 10c	
Green beans, 5c; 2 for 9c; Blue Lakos, 3 lbs. 25c	
Summer squash, lb. 10c	
Celery hearts, bunch 10c	
Fruits	Price
Red raspberries, crate \$1.40	
Currents, 4 boxes for 25c	
Rhubarb, 5 lbs. 10c	
Local strawberries, box 10c	
Cherries, lb. 35c	
Pie cherries, lb. 35c	
Loganberries, crate \$1.40	
Blackberries, crate \$1.40	
Apples, 6 lbs. 25c	
Peaches, basket 25c	
Young berries, crate \$1.40	
Poultry (dressed, drawn)	Price
Heavy hens, lb. 17c	
Leghorn hens, lb. 15c	
Broilers, lb. 20c	
Leghorn broilers, lb. 20c	
Miscellaneous	Price
Butter, lb. 25c	
HOPS QUIET	Price
NEW YORK, July 18.—(AP)—Hops quiet, unchanged.	
SILVER UP	Price
NEW YORK, July 18.—(AP)—Silver 34 higher at 40 3/4.
