Ray W. Jones, manager of the McDonald theater announces. It will start at 11 o'clock, following the regular showing of "Melody Cruise," which closes today. Harris fans will get a thrill out of "Isn't This a Night for Love," while Ruggles patients will find rare comedy in Charlie's interpretation of a philandering husband

Wheeler and Woolsey's latest contribution to the cinema industry, "So This Is Africa," has been held over Saturday by the management of the Heilig theater, and Eugene theatergoers in need of a good laugh, or a series of good laughs, will have their last chance to see the two comedians Saturday night. The film was originally scheduled to close Friday, but due to popular demand, Manager A. West Johnson decided to show the film again Saturday. Wisecracks that keep the audience in an uproar of laughter feature the Wheeler and Woolsey "expedition" to Africa, and they contribute some of the hottest harmony to be seen on the screen in the "Minnie the Moocher" sequence

NOTE: Through an error it was stated in Friday's paper that the Wheeler and Woolsey picture would be held over for Friday night. This picture has been held over for Saturday afternoon and evening also

The Colonial theater is making special preparations for the crowds that will want to see "Kid From Spain" which shows for the last time Saturday night. For the "early birds" a show will start promptly at 6:30, for which doors will be opened at six. A reduction in price is expected to lure many to hurry through supper to get in before 6:30. The second show will start at 8:45, with the "Owl Mat" featurette "Pullman Murder Case" scheduled for 10:45. This will end at 11:15, at which time a complete showing of "Kid From Spain" will be shown again. Best seats, says Glen Godfrey, manager, will be available for the first and the "midnight" showings

BUTTER MARKET STATUS IS

PORTLAND, July 29.—(AP)—There was no weakness in the market for butter here at the week-end from that created by continued cuts, which were able to bring their reduction in the price of exchange here

There was no change in buying prices. At the week-end there was change in the general market steady to firm but there were sorts of values reported for and short held storage

Somewhat better demand showing in the live chickens including practically all grades, keys were in excellent condition. All through the market it was possible on account of the fact that the market was really weak but without price changes

There was an acute shortage of quality corn in the wholesale market with resulting high prices. Poor stuff was moving freely

Owing to the presence of many carloads of unsold tomatoes of poor to good grade trade is overabundant. The stock was therefore slightly
