week. Further adjustment and changes may be made later. Oil Industry Balks In driving forward the mobilization for a national campaign to place public opinion actively behind the re-employment drive, the recovery administration meanwhile announced more than 200 speakers, including governors, congressmen, and even cabinet members, drafted to stump the country.

Steel, oil, lumber and many lesser industries were dealing with recovery officials in these efforts. The oil code, the only major one now in open session, brought out fresh strife today with Oscar Sutro, general counsel and vice-president of the Standard Oil company of California, denouncing the pending code as one not carrying out the views of the "liberal administration. He demanded that the government approve of rules for fixing oil prices.

Word of Robbery At Bend Received The Hudson-Duncan wholesale grocery warehouse at Bend was entered last night and six cases of Lucky Strike cigarettes and seven cases of the Chesterfield brand were stolen, according to word received here Thursday afternoon by the sheriff and state police.

down-town Denver as power and light service was cut off shortly after 9 a. m. (MST) when the flood waters demolished transmission lines in sweeping the Champa street bridge away.

Employees in business firms were working by candle light. Public service company officials said they were making every effort to restore the power and light service by putting emergency equipment into use.

It was unofficially estimated 5,000 persons were driven from homes in the city along Cherry creek and the South Platte river. Two steel and concrete bridges and one of concrete which carry traffic on the busy streets of Logan, Curtis and Colorado Boulevard were so torn and battered by the waters and their heavy load of timbers, trees and other wreckage, that they collapsed early today.

Police, forewarned of the water menace, raced through city districts along the creek and routed out sleeping residents. In the agricultural area between Denver and Castlewood dam, 40 miles away, telephone operators and volunteers warned farmers and their families who were in danger.

China have been received to assure production through September. In a notice posted in the mill today, Bunker stated he opposed price fixing and production regulation and assured the employees every effort to protect their interests would be taken and to provide continued employment.

CODE DELAYED WASHINGTON, Aug. 3.—(AP)—Delay in final action on the national lumber code is due to final decision on wage terms for the southern lumber territory. Dudley Cates, industrial assistant to Administrator Hugh S. Johnson and a committee of lumbermen are working on the proposal.

West coast operators have informed Cates that the moment the code is adopted they will make the wage terms prescribed retroactive to Aug. 1.

The state said it would introduce Deputy Sheriff Phil Lowd, to testify that Fehl had been active in inducing Sheriff-elect G. L. Schermerhorn to absent himself in California until Schermerhorn assumed office, and that Fehl had dictated Schermerhorn's

Patton, secretary of the grand jury, who testified yesterday that Fehl addressed the "Good Government Congress" meeting on the night of the ballot robbery at the request of the grand jury. The state contends this was the individual act of the Mrs. Patton, and not the grand jury as a body.
