### Gandhi Taken To Hospital; Fast Checked

POONA, India, Aug. 21.—(AP)—The Mahatma Gandhi grew weaker today during the sixth day of his fast in protest against the government's refusal to grant him privileges to carry on his campaign for the untouchable class.

He was taken from Yeroda jail to the civil hospital, still in custody because of his one-year jail sentence for civil disobedience. It was believed an acute attack of kidney trouble brought about the removal.

The leader had a good night's rest, but nevertheless he was sinking today. He now weighs only 93 1/2 pounds. He was able to read newspapers, but received no visitors this morning.

### EUGENE WOMEN TO HAVE PART IN NRA DRIVE

#### Instructions Received For Intensive Campaign In Community

#### 10 GROUPS PLANNED

Dr. A. M. Smith Outlines How Organization Is To Cover District

Detailed instructions and information for organizing the women of Eugene in the president's emergency re-employment drive have been received by Dr. A. M. Smith, in charge of the local women's program for the NRA from Mary E. Hughes, head of women's work at the national headquarters.

Dr. Smith is to appoint a committee of ten women to whom specific duties will be assigned as follows:

All Clubs Contacted

Committee Woman Number One is to contact the president of every women's organization in the city to rouse the women to action. She is to find, interest, arouse and put to work all clubs under each classification, welfare, business, civics, literary, music, social, clubs, lodges, patriotic societies, churches and colleges and schools.

Committee Woman Number Two must study the program carefully to be able to educate, inform and answer questions regarding the work. Number Three is in charge of publicity for newspapers and she must see that the women's page of the local papers carries stories of women's clubs in the NRA.

Number Four is in charge of publicity for "Women's Part in the NRA" in all local publications other than newspapers. Number Five is to ascertain if the women's groups wish to advertise in local newspapers and is to advise them in this phase.

Support Blue Eagle

The sixth member of the committee is to see that the women support the employees who display the Blue Eagle. Number Seven will co-operate in arranging radio broadcasts, speakers and plan programs for the emergency re-employment drive.

Number Eight is to see that typed bulletins are placed in club rooms, department stores, etc., giving information on the drive. Number Nine is to contact every organization in the city.

### "BIG SHOT" ON DAM!

Four tons of dynamite blasted away a mountain of dirt and rock, marking the last "big shot" before actual construction of Hoover dam begins. The picture was taken as thousands of tons of rock fell into the Colorado river canyon. In the foreground may be seen the tunnel through which the river's flow has been diverted.

### Eugene Obsidian Takes Part In Rescue Of 3-C Lad After Mishap On Mount Jefferson

The story of a fast three-hour climb up Mt. Jefferson and a tortuous, slow descent bearing a 3-C lad who had broken his leg in an attempt to scale the mountain was told here Monday by Louis Waldorf, Obsidian chief, who was in the party of Mazamas who made the rescue.

Luck was with the unfortunate youth, at that. He was lucky in that his companions, equally inexperienced in the mountains, were able to find their way back down to the meadows below for help. He was particularly lucky in the fact that the Mazamas had not left camp before the call for help.

The Mazamas, according to Waldorf, were all packed to go home when the call for aid came. After two weeks of strenuous work, they were weary and eager for the joys of civilization. They had planned a leisurely hike out with warm baths at Breitenbush hot springs.

"But, of course," said Mr. Waldorf, who was worn and sun-seared, "we had to go back. It was my third trip up the big hill this week and it was tough."

### Lamson On Trial For Wife Murder At San Jose, Cal.

COURTHOUSE, SAN JOSE, Cal., Aug. 21.—(AP)—Six men and six women were in the jury box, temporarily today as the initial session of the murder trial of David A. Lamson, 31-year-old representative of the Stanford university publishing house, ended.

Questioning of the talesmen brought the first clearing of the clouds of mystery which surrounded the case since Memorial day when Lamson burst from the front door of his home on the Stanford campus to cry:

"My God, my wife has been murdered."

Allene Thorp Lamson, his pretty young wife, secretary of the campus Y. W. C. A., was found lying, nude, in the bath tub, her head crushed. Since that day Lamson has given no statement for the public records concerning the death of his wife and his statements then, as related by witnesses at the death cottage, left the question of who killed the popular young matron a complete mystery.

The state will ask the death penalty Assistant District Attorney Allan P. Lindsay declared as the first session adjourned for lunch.

### Forest Endangered When Barn Blazes

A barn belonging to John G. Montgomery near Vida was burned to the ground Sunday evening. When it was feared that the blaze would spread into the surrounding brush and timber a call was sent to Perry Thompson, supervisor of the Willamette forest, in the meantime the fire was extinguished before much damage was done to timber.

The fire was about 15 miles outside the forest boundary. No new fires were reported to the Willamette office over the week-end, according to Mr. Thompson.

### Bids For Bridges On Highway Called

Bids for the construction of two bridges on the new Willamette highway have been called for by department of agriculture. One span is to cross Salmon river near Oakridge, and the other will cross Salt creek about two miles above Oakridge. The grading on the highway in this section has been completed but the bridges remain to be put in.

Bids are also asked for clearing 74 acres of land on the North Santiam highway from Detroit to Sisters. The clearing is to be done on a section of the road north of Fish lake. Bids for both projects are to be opened in Portland at 10 a. m. on Sept. 7.

Information concerning contract forms, plans, and specifications may be obtained at the Willamette forest office in the postoffice building.

### SALEMITE PROMOTED

WASHINGTON, Aug. 21.—(AP)—Brigadier General Harold B. Fiske, a native of Salem, Ore., commander of the Atlantic sector at Panama canal, was today promoted by President Roosevelt to the rank of major general.

### TAX SCHEME AMENDED

SALEM, Ore., Aug. 21.—(AP)—Second petition to amend proposed tax-exemption amendment, eliminating clause relating to non-resident taxpayers, was filed today at secretary of state's office by Charles H. Ager of Portland.

### COAL MINERS NEXT ON NRA CODE LISTING

#### Johnson Intimates Plan To Retire In November, If All's Well

#### HAMMERS FOR SPEED

#### Starts Writing Own Ideas For Coal Agreement After Wrangle

By MELBOURNE CHRISTERSON (Associated Press Staff Writer) WASHINGTON, Aug. 21.—(AP)—Recovery administrators, jubilant over their success with steel and oil and lumber, today modeled a code of fair competition to bring the great bituminous coal industry quickly within NRA's widening circle.

At the same time, Hugh S. Johnson, NRA chief, pointed his aides for the big drive—the house to house, store to store canvass that starts next Monday with the objective of placing a Blue Eagle in every window and insuring victory of President Roosevelt's re-employment campaign.

Johnson to Retire

Johnson himself, it was learned authoritatively, has tentatively fixed mid-November, or the end of the year at the latest, to retire from the post he holds.

By then he expects his emergency work to be finished. He plans to return to private industrial life as an associate of Bernard M. Baruch, with whom he has worked since World war days. A permanent administrator will carry on in Johnson's place.

As soon as President Roosevelt approved codes for the basic steel and oil industries late Saturday night, Johnson and his aides turned immediately to coal, a stumbling block for weeks.

Writing Own Code

When a committee of 15 coal operators were unable to agree again yesterday, Johnson started writing his own to place before them today. The coal men will be able to suggest amendments to this trade charter, but they will not be permitted to re-new their wrangling.

Conferences are to be held this week, probably Tuesday or Wednesday, with officials of the automobile industry. Indications were that the open shop and maximum hour issues raised by the automobile code presentation.

### Johnson Intimates Plan To Retire In November, If All's Well

By then he expects his emergency work to be finished. He plans to return to private industrial life as an associate of Bernard M. Baruch, with whom he has worked since World war days. A permanent administrator will carry on in Johnson's place.

As soon as President Roosevelt approved codes for the basic steel and oil industries late Saturday night, Johnson and his aides turned immediately to coal, a stumbling block for weeks.

Conferences are to be held this week, probably Tuesday or Wednesday, with officials of the automobile industry. Indications were that the open shop and maximum hour issues raised by the automobile code presentation.

### Higher Wages For Hop Picking Here May Be Demanded

A demand for more than a dollar a hundred pounds for picking hops this fall may be made by the local Agricultural Workers' union, it was reported Monday by a number of the leaders of the organization. A mass meeting of workers is being called for Tuesday night at 8 o'clock at 720 Willamette street. This number is at the old Modern Woodmen hall.

Facts and figures regarding the cost of the raising and harvesting hops and the wages that are now being offered for picking will be brought out in open discussion at this meeting, it was announced, and a decision as to whether or not to demand more than \$1 a hundred, which is the offer made by valley growers, is expected to be made at that time.

Leaders in the Agricultural Workers' union declared Monday that the growers could well afford to pay \$2 a hundred for picking this fall in view of the prevailing prices for hops, which range above 50 cents a pound.

### Miss Annin Meets Accident, On Pass

Coming down the west slope of the McKenzie pass Sunday, a car driven by Miss Mary Annin, executive secretary of the Lane county chapter of Red Cross, was struck by another car going in the opposite direction and forced off the highway and down an embankment. No one in the car was injured but one of the fenders was badly damaged, Miss Annin reported. The other car failed to stop and it was traveling so fast nobody obtained the license number.

Miss Annin said that the other car was in the middle of the road on a sharp turn and she was compelled to act very quickly to avoid a head-on collision. With the assistance of occupants of two other cars that came along soon afterward the car she was driving was towed back on the highway. The damaged car is owned by Miss Annin's brother, R. H. Annin of Alhambra, Cal., who was with her at the time.

### Wilson River Fire Breaks Out Again

FOREST GROVE, Ore., Aug. 21.—(AP)—Blown into new life by a strong easterly wind, a forest fire which last week swept through timber holdings in the Wilson River district, was being battled by a crew of 600 men today.

Rains and heavy fog on the coast checked the fire materially Thursday and Friday, and forestry officials said it was definitely under control. Late yesterday, however, a strong wind blew up and fanned a tangent of the Wilson River fire into new fury. The flames turned north from Beeber's Retreat and entered Scroggins valley, burning in Blodgett company timber holdings.

### Lindy Helpful To Less Lucky British Pilot

REYKJAVIK, Iceland, Aug. 21.—(AP)—Col. Charles A. Lindbergh obeyed a rule of the air and lent a helping hand to a comrade in distress when he aided a young British pilot, John Grierson, in salvaging parts from the latter's plane, wrecked yesterday in an attempted takeoff from Greenland.

Grierson left England Aug. 5 on the first leg of an intended flight by stages to New York, and reached Iceland by way of the Orkney and Faroe islands. A wave broke over one of the floats and completely wrecked the craft.

Grierson was not hurt. Lindbergh was extremely sympathetic and did everything possible to lessen the Briton's disappointment.

The American aviator, who is engaged in a northern air mapping tour, conferred aboard the supply ship Jellinge which today awaited sailing orders from New York.

### REPEAL BY DEC. 6 HELD "POSSIBLE"

MISSOURI VOTE LEAVES ONLY 14 MORE STATES TO COMPLETE CHANGE

WASHINGTON, Aug. 21.—(AP)—Repeal by December 6 was anticipated by wets today as Missouri was recorded as the 22nd state to favor taking the 18th amendment out of the constitution. Fourteen more repeal votes are required.

Elections are scheduled to be held in 15 states by Nov. 7, with the likelihood that Virginia and Kentucky, where legislatures are meeting, and possibly other states, will be added to this group.

But even if wets win in each state, formal repeal action cannot be taken until December, when conventions will be held to give effect to the outcome of the vote in Maine, Ohio, Pennsylvania and North and South Carolina.

The states which have been set for action follow:

Texas—Votes Saturday, Convention Nov. 27.

Washington—Votes Aug. 29, Convention Oct. 8.

Vermont—Votes Sept. 5, Convention Sept. 18.

Maine—Votes Sept. 11, Convention Dec. 6.

Colorado—Votes Sept. 12, Convention Oct. 18.

Maryland—Votes Sept. 12, Convention Oct. 18.

Minnesota—Votes Sept. 12, Convention Oct. 10.

New Mexico—Votes Sept. 19, Convention Nov. 2.

Idaho—Votes Sept. 19, Florida—Votes Oct. 10.

Ohio—Votes Nov. 7, Convention Dec. 5.

Pennsylvania—Votes Nov. 7, Convention Dec. 6.

South Carolina—Votes Nov. 7, Convention Dec. 4.

Utah—Votes Nov. 7.

### BOOM, BOOM, BOOM!

LISBON, Vt., Aug. 21.—(AP)—An oil stove in the home of E. J. Sawyer exploded yesterday, setting fire to, and burning away one corner of the house. Just as the fire was under control the kitchen water tank blew up, blowing away another corner of the house. A few minutes later a gas range exploded, tearing away the third corner. The other corner then fell of its own accord.

### Peach Recipe Contest Proves Just As Popular As Peaches

The "Recipes for Using Peaches" contest is on! A flood of entries on the request topic being conducted in this week's household forum was received at the Register-Guard over the week-end and judges will have a difficult task in selecting the best from the large number of attractive and interesting recipes.

Peach whips, peach rolls, peach custard ice cream, peach conserve, peach puddings, peach honey, frozen desserts made of peaches—these are some of the favorites of Lane county women according to the list of entries.

Those who submit recipes are reminded that the contest closes Wednesday evening at 6 as a few letters on "Summer Pastries," last week's topic, reached the office too late for judging. Envelopes should be marked "recipes" to facilitate handling in the business office. A prize of one dollar will be given the best recipe and fifty cents for the eight next best. Winners must call at the Register-Guard for prizes.

Two more winning recipes in last week's contest are printed today:

Lemon Snow Pudding

Grated rind and juice of 1 lemon. Two tablespoons (rounding) cornstarch, dissolved in the 1-1/2 cup juice. Add 1 cup sugar, 1 cup boiling

### PRICE LIST CALLED FOR BY LEADERS

#### Recovery Board Preparing To Investigate All Unfair Tactics

#### JOHNSON THREATENED

#### Police Rush Protection On Rumor Of Demonstration By Communists

WASHINGTON, Aug. 21.—(AP)—The industrial recovery board decided today as a step to protect the public against profiteering to ask all industries now operating under codes of fair competition to submit information on recent price increases.

Attorney General Cummings, who presided in the absence of Secretary Roper, said the board discussed various means of collecting full data and statistics on prices in all industries, but for the present will study only the price situation as regards the 14 industries for which codes have been approved by President Roosevelt.

Cummings said several instances of "unconscionable increases" in prices had been reported and the board desired to study the facts concerning the higher costs, particularly for labor, which have been imposed as the result of codes.

JOHNSON THREATENED?

WASHINGTON, Aug. 21.—(AP)—Three policemen were placed at the doors of the office of Hugh S. Johnson, the NRA administrator, today to avoid a possible demonstration by longshoremen from Baltimore.

Notified by department of justice agents that a group described as communists was en route from the Baltimore wharves to present grievances to Johnson, police officials put guards around the building and sent sentries to Johnson's door.

The guards remained at the entrance to the commerce department building, and it was agreed that if Johnson was in his office when the group arrived, he would receive a delegation of three. Otherwise, McGredy would hear them.

### AUTO THIEVES ARE HELD AFTER CHASE

After a chase all the way from Junction City to Eugene, three 16-year-old boys from Oregon City were caught at the Eugene city limits Monday morning by Sandy Peterson, marshal of Junction City and special deputy sheriff, and they are now in the county jail charged with the theft of a car belonging to Dr. R. H. Allumbaugh of Junction City. The boys gave the names of Robert Boggs, George Knoetzel and Daniel L. Talmadge.

Someone on the street at Junction City saw the boys enter the car while it was standing in front of Dr. Allumbaugh's hospital and notified Peterson. Peterson gave chase in a car driven by Jake King, mechanic in a garage there, and caught up with the boys just as they entered Eugene. King and Peterson crowded them over to a curbing and they quietly submitted to arrest.

### Here's Real Gall! Yegg Makes Try at Sheriff's Office!

An unsuccessful attempt was made to break into the sheriff's office at the courthouse some time Sunday night. The lock of the door was broken, necessitating the removal of the glass portion of the door before the sheriff and his deputies could enter Monday morning.

It appeared that someone lunged heavily against the door in an effort to break the lock clear off so entrance could be gained to the office, but only a casting on the lock was broken in such a manner that it could not be unlocked.

Sheriff Swartz said that he and state police officer Morgan were in the office at 5 p. m. Sunday and the lock was broken some time after that hour. Judd Stauffer, janitor, said that all outside doors to the courthouse were securely locked during the night.

### Road Warrants Are Being Called in

Mrs. Grace Schiska, county treasurer, is issuing a call for special county road warrants to the amount of about \$500 and will pay them off on presentation at her office.

This will bring these warrants through to June 12. They are numbered up to 1709.

### Conducting Here, She Planned To Repeat During the Day Her Assertion That Chasness Had "Put Christ Under Fire" and She Was Retaliating for That.

Classen, meantime, stood by his guns and declared he "told the truth." Before calling on her to speak Saturday, Classen whispered, according to Mrs. Hutton: "Don't mind when I introduce you. I understand you are a good sport and can defend yourself."

In discussing the tilt, the evangelist said, "When I began to speak I told them I had not come expecting to hear that kind of a speech and that I thought it not nice to put the skills under me. I told them anything in the introduction I took with a grain of salt because the man who introduced me doesn't believe in Christ, doesn't pray and believes in science and evolution instead of the Bible. It was almost the most exciting experience in my life since my college days."

"She called me an atheist," said Classen, "but I'm not an atheist."
