There are other good cigarettes but they are not like Chesterfield

... and Chesterfields are not like any other cigarette.

As soon as you light up a Chesterfield, we believe you will notice that they are mild. And before very long, you will certainly notice that they taste better.

These things don't just happen so. There isn't any accident about it. For we put into CHESTERFIELDS all that Science knows and money can buy to make them "satisfy."

Just try them!
