

# RAIN THREATENS CROPS, WELCOMED BY FIREFIGHTERS

Rain, that may bring considerable damage to local crops, started Monday night with forecast for more. The rain is welcome by the forestry offices, however, since it aids in curbing all fires.

Grain harvesting, hop picking, as well as marketing of many of the smaller fruits and vegetables were being held up as the showers continued through Tuesday.

With nearly a half-inch of rainfall for the month recorded by 1 p. m. Tuesday, August is bidding to be one of the wettest Augusts on record here.

Up to 1 p. m. .12 of an inch had fallen since Monday night, bringing the total to .49 of an inch for the entire month. It rained .04 of an inch on August 3, .23 of an inch on August 4, and .10 of an inch on August 5. The record amount of rainfall for an August was 1.24 inches in 1926. In 1925 there were .85 of an inch for the month and in 1924, .49 of an inch.

Picking of early hops, due to start generally Wednesday may be delayed a day or two, it was said, Tuesday. From Seavey's Hop Island ranch it was said Tuesday that it could rain for three days without doing much damage to the hops.

All operations in harvesting of grain, now in the middle of its season, were held up, Tuesday. Growers were hauling it in Tuesday, but if the rain continues the grain will be too wet to haul in.

Local peaches, cantaloupes, and tomatoes were all being held back by the cool weather and rains. If the dampness continues considerable damage can be done to these crops.

## President Urges 3-C Men to Take Jobs If Offered

A message from President Franklin D. Roosevelt, urging members of the C. O. C. to accept jobs in private industry wherever possible, but assuring them of the continuance of the reforestation program for another six months, was being read in all camps of the Eugene district this week.

The message arrived here by radiogram through the Eugene district's short wave station at 1800 Williamette street, and copies were sent to all camps with the instructions they be read three times to assure every member of an opportunity to hear the president's letter. It follows:

"The president has authorized the continuance of the Civilian Conservation Corps camps for another six months enrollment.

"At the same time the president makes an appeal to every enrolled man to find a job if it is possible to do so, either through his own efforts, the efforts of his family or any agency set up for that purpose.

"The president does not want any enrolled man to accept a job that means the displacement of somebody else who is now working.

"This request to find jobs where possible will give an opportunity whenever a present enrolled man secures a job in private industry for some other boy who is out of luck and hasn't had a chance to get in, to take the place of the boy who goes out.

"If any of the boys now enrolled, after making an honest effort to find a job, cannot do so then the president will authorize that boy to re-enroll for another six month period.

"The president believes that this policy fairly carried out will be beneficial both to the present enrolled man and to others who desire to enroll for the second six month period.
