AFTER REPEAL STORY

(CONTINUED FROM PAGE 1)

ida's legislature has submitted a county option amendment to the state constitution. It will be voted upon in November. Legislatures are expected to meet to consider liquor legislation soon in Illinois, Indiana, Iowa, Kansas, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Ohio, Oregon, Pennsylvania and Wyoming.

Despite the number of states which now are looking to return of liquor, certain states indicate strong opposition to breaking away from prohibition. In Maine, the original prohibition state, the legislature last winter voted down a proposal for a referendum on taking prohibition out of the state constitution.

In Kansas, one of the notably dry states, the legislature meets soon to consider legalization of beer, calling of a convention to deal with federal repeal and consideration of a referendum repealing prohibition from the state constitution.

Dregs believe Kansas will stay dry regardless of what it does concerning repeal of the 18th amendment. Prohibition is embedded in Kentucky's constitution and the question can not be taken up except at a regular session of the legislature. The next regular session will be in January.

Last winter the Oklahoma legislature voted down a proposal to strike prohibition out of the state constitution and the Texas legislature did the same thing in May. This question will be voted on in New Mexico Sept. 19 and in Ohio and Utah Nov. 7.

Farm Loan Board To Meet Saturday

A meeting of the directors of the First National Farm Loan association of Lane county will be held Saturday, September 2, in the office of C. F. Hyde, secretary-treasurer, for the purpose of considering applications for federal farm loans which have been made recently.

First mortgage money is now available at 4 1/2 per cent interest and a second mortgage money at 5 per cent. These loans run for a long term of years so that six per cent will retire both interest and principal and never have to be renewed, it is pointed out. The expense to the borrower averages about two per cent of the amount of his loan. A filing fee of \$20 must accompany all applications for amounts under \$5,000, it is stated.

BIG "CHIEF"!

More than 1,500 New York Boy Scouts thought President Roosevelt a great scout himself when he traveled 80 miles in the rain to visit them at Ten Mile Camp, Narrowsburg, N. Y. Their gesture of appreciation was to induct him into the Order of the Arrow, and crown him with the Indian headdress he is shown wearing.

DISCOVERY BECOMES RECOVERY!

One of nature's oldest and best bits of handwork has been named for America's latest effort to restore prosperity. Dick Royle (inset), veteran guide at the famous Oregon caves, near Grants Pass, Ore., on a recent exploration trip, discovered a wonderful new chamber with gleaming marble stalagmites, lace-like trimmings, etc. He named it "Niraland" in honor of the effort to put over the National Industrial Recovery Act. "And so far, there is no code for guides," avers Dick.

MINIMUM PRICES ON MEAT ADOPTED

LANE TIMBERMEN PETITION HEAVY ASSESSMENT CUT

Drastic reduction in the assessment of Lane county timber lands owned by 14 lumber and timber companies and individual holders has been asked for and the county board of equalization will consider the petitions in a few days, it was announced Wednesday. Reductions asked for range from 25 per cent to 50 per cent of the present rate of assessment and it is estimated by members of the board that if the reductions as asked for were made it would reduce the assessed valuation of this property over \$2,000,000.

All timber lands in Lane county are assessed at from \$15 to \$30 an acre, according to the records in the office of County Assessor B. F. Keeney, the ranges of valuations being based upon the quality of the timber on the different tracts assessed. No prediction as to what action if any will be taken by the board of equalization on the petitions for reduction of assessment was made by members of the board Wednesday. After the hearing, at which representatives of the different lumber and timber companies will be present, the matter will be taken under considera-

tion and a decision made at a later date. The Booth-Kelly Lumber company, which has the largest holdings of timber lands in Lane county, has a total of more than 81,000 acres, on all of which a reduction is asked. This company asks for a reduction of 47 per cent in the assessed valuation. Other timber holders petitioning for a reduction and the percentage of reduction sought are as follows: Alexander-Yockey Timber company, 50 per cent; Anderson-Middleton Lumber company of Oregon, 47; Booth-Kelly Lumber company, 47; Drs. S. A. and E. C. Brown, 33 1-3 to 50; Buehner Investment company, 47; Day Brothers Lumber company, 25 to 33 1-3; Robert Doller company, 47; Drew Timber company, 47; Eugene Lumber company, 47; John F. Kelly, 25; Wm. MacMaster, 40; James Sheldon Riley, 47; Ritau-Wentworth Timber company, 47; Weyerhaeuser Timber company, 25 to 33 1-3 per cent. The complaints and petitions for reductions of assessments before the county board of equalization, having to do with the assessment of property for the year 1933, are classified as follows: Residence property, Eugene, 20; business property, Eugene, 3; residence and small acreage tracts, Keeney, the ranges of valuations being based upon the quality of the timber on the different tracts assessed. Cottage Grove, 5; business property, Cottage Grove, 2; residence property, Springfield, 11; brush and cut-over lands, 9; sawmills, 2; farms, 15; miscellaneous, 8; timber lands, 23.

Of the 29 residence properties complained of in Eugene, 14 are owned by the Pacific Savings and Loan association. Most of the bacon eaten in Great Britain is imported from Denmark.

Youngsters Love It

Housewives Swear By This Wonderful New Bread

The reason why Spun Slices is getting over so well in Eugene is very simple: It is the only radical improvement made in bread since Williams introduced Malted Milk bread several years ago.

And "go over" it has. It is probably leading all other brands two to one in sales. This means that Eugene women like it twice as well as any other. "Money talks." Local women have elected Spun Slices to first place by their shopping cash.

NEW LOAF LASTS LONGER

Just recently we improved Spun Slices. We found a way to mix it so that it lasts even longer than the first Spun Slices sold here.

Deep gas holes, through which freshness escapes, have been eliminated. The diagonal texture literally seals freshness in. The Spun Slices loaf is larger than the old one. The price has been reduced to a dime.

Try a loaf today. You'll never want ordinary bread again. At your grocers.
