“Here is water that makes beer as good as the beers of Burton and Munich”

THE DAILY OLYMPIAN

—said Leopold Schmidt when he established the first Olympia brewery at Tumwater in 1896

ABOVE is a reproduction of the "Olympian," September 5, 1895. It announced that Leopold Schmidt was to build a brewery at Tumwater and that he had acquired the site because of the special brewing qualities of the water which came from pure, sparkling, subterranean springs.

In 1896, he completed the brewery and marketed "Olympia Beer" with the famous slogan, "It's the Water."

Thirty-seven years later—in 1933—the Schmidt family of brewers built the modern Olympia Brewery, one of the finest in America and now offer you Olympia Beer, made exactly as it was before prohibition.

exclusively for Olympia Beer, performs four very important functions:

1. Extracts from the hops and grains hidden flavors.
2. Gives golden color and sparkling life to the beer.
3. Creates a more active fermentation of the yeast cells, thereby making the beer more digestible and of constant purity.
4. Prevents detrimental changes when the beer is bottled and chilled.

Serve It in Your Home

Olympia Beer is a wholesome, mildly stimulating beverage. Original imported yeast stock from Denmark guarantees complete fermentation; this means that Olympia Beer is predigested and, therefore, non-fattening. You can obtain it from your dealers. Olympia Brewing Co., Olympia, Wash.
