50 YEARS A MARTYR
TO CONSTIPATION
But Kellogg's ALL-BRAN
Brought Welcome Relief
Read this splendid letter from
Mrs. Haynes:
"For 50 years I have been a
martyr to constipation. Have tried
every remedy under the sun.
"Once day I read an account of
some one who had been relieved by
ALL-BRAN, but I thought 'What
was the use of me trying anything
more when all else had failed?'
"A while after, I read it again.
That time I thought I would try it,
it would do no harm anyway.
"I began with a small dish of
POUR ALL-BRAN for breakfast, and
wonderful to say, I never need to
take any physic at all now. How I
wish other poor sufferers from con-
stipation could be persuaded to try
ALL-BRAN.
"Mrs. Sarah Haynes, 138 Ce-
larwood Terrace, Rochester, N. Y.
"Tests show Kellogg's ALL-BRAN
provides 'bulk' and vitamin B to
aid regular habits. Also iron for
the blood.
"This 'bulk' in ALL-BRAN is much
like that in leafy vegetables. It's
so much safer than taking patent
medicines! Two tablespoonfuls of
ALL-BRAN daily are usually suffi-
cient. Severe cases, with each meal.
If not relieved this way, see your
doctor.
"Get this delicious ready-to-eat
 cereal from your grocer. In the
red-and-green package. Made by
Kellogg in Battle Creek.

NO Luckies don't use the top leaves... because top leaves are under-developed... they are not ripe... They would give a harsh smoke.
YES Luckies use only the center leaves of the finest tobacco... because the center leaves are the mildest, tenderest, smoothest.
NO Luckies don't use the bottom leaves, because bottom leaves are inferior in quality. They grow close to the ground, and are tough, coarse and always sandy.

Lucky Strike presents the Metropolitan Opera Company
Saturday at 1:45 P. M., Eastern Stand-
ard Time, over Red and Blue Net-
works of NBC, Lucky Strike will
broadcast the Metropolitan Opera
Company of New York in the com-
plete opera, "Faust."
In making Lucky Strike, we actually discard
most of the tobacco plant—because we select
only the center leaves—and for these cen-
ter leaves farmers are paid a higher price.
We do not use the top leaves—because those
are under-developed. Nor the bottom leaves—
because those are inferior in quality—tough,
coarse and always sandy. But these center leaves
are the mildest leaves, silky, smooth, tender.
And so only these center leaves are used in
making Luckies the fully packed cigarette—
so round, so firm—free from loose ends. The
tobacco doesn't spill out. That's why Luckies
draw easily, burn evenly—and are always
mild and smooth... And then, too—"It's
toasted"—for throat protection—for finer taste.
NOT the top leaves—they're under-
developed—they are harsh!
The Cream of the Crop
"The tenderest, mildest,
smoothest tobacco"
NOT the bottom leaves—they're inferior
in quality—coarse and always sandy!
