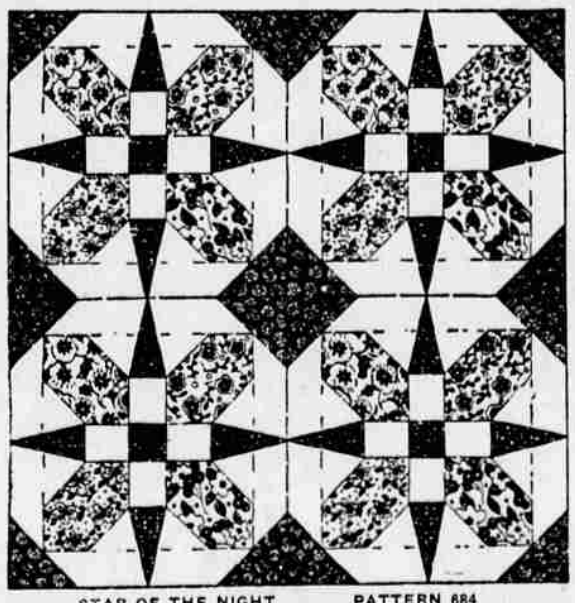
Livestock experts say immature grass in the spring of the year is about 90 per cent water and therefore it is impossible for grazing cattle to maintain their weight without other feed.



STAR OF THE NIGHT PATTERN 684

USE SCRAPS FOR EFFECTIVE BLOCK

Here is a chance to get out the scrap-bag and have the fun of using up all colors of the rainbow in this simple star block. The background and two of the other materials are repeated in each—they of course could also be made of scraps but tie up the blocks effectively if the same materials are used throughout. When finished, the stars joining each other from block to block seem to be set off by the gay colors of the scraps.

Pattern 684 comes to you with complete, simple instructions for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

Send 10c for this pattern to Register-Guard, Needlecraft Dept.
