

COMMENCEMENT TO SEE MANY RECEIVE ADVANCED DEGREES

(CONTINUED FROM PAGE 1)

school three students will be granted master of arts degrees with honors. These are: E. W. Ellis, Salem; Irvin H. Hill, Clatskanie; and Edna Curtis Spenser, Pendleton. Honors with thesis will be granted to Frances E. Frazier, Portland; Elizabeth J. Harcombe, Eugene; Evelyn H. Kimberling, Eugene; W. Gifford Nash, Eugene; Edwin Archibald Pitt, Eugene; Max R. McKinney, Grants Pass. General honors go to Ruth A. Irvin, Redmond.

Phi Beta Kappa

Election to Phi Beta Kappa, national honorary scholastic fraternity, regarded as the highest honor that can be attained, was conferred upon the following students during the past year: Fall election—Frances E. Frazier, Barbara R. Leisz, Portland; E. Madeline Gilbert, Martha H. Goodrich, Nancy Howe, Eugene; and Thomas H. Tongue, Hillsboro, Spring election—Hilda A. Ellis, Sterling Green, Eugene; Geraldine Erickson, Mary E. Kehoe, Stephen B. Kahn, Joseph Slavsky, Otto F. Vonderheide, Alice Wiedemeyer, Jay Wilson, Portland; William J. Dutton, Norma Huston, Edwin Pitt, Eugene; Norma Caswell, Corvallis; Robert Coen, Roseburg; Joan Cox, Oswego; Donald W. Enay, Hood River; Sherill Gregory, Westport; James Kennedy, Multnomah; Margaret Stauff, Marshfield; Siegfried Richard von Berthelsdorf, Olene.

Sigma Xi

Those who were elected to Sigma Xi, national science fraternity, were as follows: Active members—Floyd Bailey, Frederick E. Price, Robert E. Summers, Corvallis; Russel Baker, Gaston; Eldon Chumard, William T. Rayburn, Portland; Morton Ray, Eugene. Associate members—James W. Brooke, Claude Buxton, Evelyn F. French, Howard S. Stafford, Elroy Stromberg, Clarence Strong, Eugene; John W. Gardner, Sidney Mayer, Leo Schneider, Portland; Ruth Hopson, Springfield; Siegfried R. von Berthelsdorf, Olene.

Medical School

Those who will receive advanced degrees were as follows: Doctor of Medicine—John Ables, Portland; Arthur E. Alne, Astoria; Elmer J. Austin, Tacoma; Lyle M. Bain, Albany; Russel L. Baker, Gaston; Galen O. Belden, Longview; Bernard Berenson, Portland; Frank Boersma, Astoria; George John Bracher, and Kenneth C. Brown, Portland; Ralph Chesnut Brown, Mount Vernon, Washington; Walter Paul Browne, Portland; Orley Newell Callender, Boise, Idaho; John F. Card, Portland; Eldon G. Chumard, Kalamazoo, Washington; Keith M. Clabby, Portland; Vernon A. Coverstone, Medford; William Cutts, Portland; Joe Brady Davis, Salem; Luther C. Davidson, Oakland; Thomas B. Dodgson, Seattle; Robert Stone Dow, McMinville; Raymond Edward Duke, Portland; Ernest Galt, Everett, La.; View, Richard Scott Fickert, Portland; John A. Gius, Tacoma, Washington; Robert Travis Henry, Endicott, Washington; Melvin E. Johnson, Eugene. F. Howard Kurtz, Salem; Robert William Lloyd, Portland; Hugh D. Logan, Seaside; David Robert Loece, Benton, Washington; Donald O. McGowan, The Dalles; La. Roy Martin, Seattle; Philip H. Moore, David H. Naimark, Herbert Minor Nichols, and Allan Palmer, Portland; Leslie S. Porter, West Linn; Margaret Elizabeth Robson, Portland; Donald Howard Searing, Tacoma; George H. Selde, Portland; Edwin G. Simmer, Wenatchee, Washington; Merrill A. Sisson, and George A. G. Snyder, Portland; Frank E. Sohlter, Healdsburg, California; James Thomas Spenser, Baker; Dan Nikola Stofanoff, Wenatchee, Washington; Ralph M. Stolohase, Portland; Noell Z. Tanner, Layton, Utah; Margaret Alice Tingle, and Bruce L. Titus, Eugene; Daniel Perry Trullinger, Yamhill; Carl Trygve, Seattle, and Paul Arthur Westbrook, and Walter L. Wilbur, Portland.

Graduate Degrees

Doctor of Philosophy—Irving Allen Mather, Carpinteria, California, and Ira Albert Manville, Portland. Master of Arts with honors—Paul Warren Ellis, Salem; Irvin H. Hill, Clatskanie; and Edna Curtis Spenser, Pendleton.

Master of Arts—Raymond Adams, Elaine J. Anderson, Kenneth Baer, Leila C. Caplan, Portland; Corbin Brown, Donavan Cartwright, John Conway, Eugene; Joseph Angell, Gold Beach; Hubert Armstrong, Newberg; Richard Averill, Monmouth; Frank Bennett, Tillamook; Joel Berreman, Philomath; Anne Pearl Allison, Hollywood, California; Marie Callista de la Fontaine, Portland; Robert S. Dow, McMinville; Martha Duke, Eugene; Lowell B. Ellis, Colfax, Washington; Laurence E. Guttman, Newberg; Donald E. Hartung, Molalla; Rein E. Jackson, Portland; Katherine P. Kneeland, Portland; William E. Kratt, Portland; Troy L. McGraw, Woodburn; Ida J. Markusen, Junction City; Leo L. Oldright, Portland; Henry Jewett Pott, Eugene; Dorothy M. Sherman, Portland; Homer Sibley, Portland; Sister Bernadette Nicole, Mt. Angel; Errol E. Sloan, Coquille; Elroy L. Stromberg, Eugene; Florence B. Thompson, Eugene; Antonio R. Vejar, Portland; Willis C. Warren, Eugene.

Master of Science—Earl E. Bouhey, Eugene; J. C. Brannan, Humboldt, Missouri; Mabel E. Runke, Oakland, California; Oscar J. Ruseh, Palo Alto, California; Wallace J. Campbell, Eugene; John M. Childers, Portland; John E. Coleman, Silver Lake; Russell K. Cutler, Eugene; Homer J. Dixon, Madras; Jean F. Elberhart, Eugene; Robert T. Hall, Monmouth; Harry N. Lancaster, Eugene; Marion McCort, Ukiah, Cal.

Florida; Honorante Mariano, San Francisco; Ethel M. Peterson, Yoncalla; E. Gail Royer, St. Paul, Minn.; Alfred Eugene Shields, Eugene; Milton L. Smith, Echo; John S. Touman, Eugene; Juanita O. Young, Portland.

Master of Business Administration—Delbert O. Kimbeling, Prairie City; Ronello B. Lewis, New York.

Master of Education—William M. Campbell, Roseburg.

Master of Fine Arts—G. George F. Barron, Ashland; Eugene R. Ramsey, Eugene; and Marie Kathryn Ring, Portland.

Limited Dancing Allowed at Last For Willamette U

SALEM, Ore., June 9.—(AP)—Students of Willamette university will be permitted for the first time, officially, to hold dances next fall, as a result of action by the university trustees today. The dances will not be held on the campus but must receive the approval of the dean of women and be chaperoned by faculty members.

The resolution permitting dancing states that this action was taken "in deference to the judgment of many friends of Willamette and to meet a situation very difficult to control otherwise."

Apparently there will be no general student body dances as the resolution provides permission for dances by "smaller groups." It states that "the social life of Willamette should not be dominated by dancing." Attendance at public or other unchaperoned dances will be frowned upon.

The trustees heard a report from a committee considering selection of a president to succeed Dr. Carl G. Doney, to the effect that the committee was in virtual agreement upon a man but would not be ready to report for another month. It was intimated that a president would be chosen and installed before the fall term opens.

Opening festivities of commencement were held today, including the annual alumni banquet tonight.

Medical School

Those who will receive advanced degrees were as follows: Doctor of Medicine—John Ables, Portland; Arthur E. Alne, Astoria; Elmer J. Austin, Tacoma; Lyle M. Bain, Albany; Russel L. Baker, Gaston; Galen O. Belden, Longview; Bernard Berenson, Portland; Frank Boersma, Astoria; George John Bracher, and Kenneth C. Brown, Portland; Ralph Chesnut Brown, Mount Vernon, Washington; Walter Paul Browne, Portland; Orley Newell Callender, Boise, Idaho; John F. Card, Portland; Eldon G. Chumard, Kalamazoo, Washington; Keith M. Clabby, Portland; Vernon A. Coverstone, Medford; William Cutts, Portland; Joe Brady Davis, Salem; Luther C. Davidson, Oakland; Thomas B. Dodgson, Seattle; Robert Stone Dow, McMinville; Raymond Edward Duke, Portland; Ernest Galt, Everett, La.; View, Richard Scott Fickert, Portland; John A. Gius, Tacoma, Washington; Robert Travis Henry, Endicott, Washington; Melvin E. Johnson, Eugene. F. Howard Kurtz, Salem; Robert William Lloyd, Portland; Hugh D. Logan, Seaside; David Robert Loece, Benton, Washington; Donald O. McGowan, The Dalles; La. Roy Martin, Seattle; Philip H. Moore, David H. Naimark, Herbert Minor Nichols, and Allan Palmer, Portland; Leslie S. Porter, West Linn; Margaret Elizabeth Robson, Portland; Donald Howard Searing, Tacoma; George H. Selde, Portland; Edwin G. Simmer, Wenatchee, Washington; Merrill A. Sisson, and George A. G. Snyder, Portland; Frank E. Sohlter, Healdsburg, California; James Thomas Spenser, Baker; Dan Nikola Stofanoff, Wenatchee, Washington; Ralph M. Stolohase, Portland; Noell Z. Tanner, Layton, Utah; Margaret Alice Tingle, and Bruce L. Titus, Eugene; Daniel Perry Trullinger, Yamhill; Carl Trygve, Seattle, and Paul Arthur Westbrook, and Walter L. Wilbur, Portland.

CONFERENCES HELD FOR DOCK STRIKES

PORTLAND, Ore., June 9.—(AP)—Private conferences were continued here tonight by Joseph P. Ryan, president of the International Longshoremen's association, in efforts to bring agreement in the longshoremen's strike.

Silence followed a strike parley today attended by Ryan, Governor Julius L. Meier and other representatives of shippers, business men and strikers.

All referred inquiries to Governor Meier who in turn said he had nothing to report.

Ryan's only comment was that it "is my hope" that the strike will end to a settlement this week, and that no steps had been taken for a ballot by I. L. A. members on the government's "tripartite partnership" proposal for operation of the hiring halls. He indicated that government participation as well as supervision in the halls was desired by the I. L. A.

No mass meeting of longshoremen has been scheduled during Ryan's brief stay here. It was understood he would return to Seattle tomorrow night.

The hearing of 12 Portland policemen suspended for alleged neglect of duty when the crew walked off the old tanker Kekoskee and left town at the instance of picketing seamen was continued until Monday.

All the police questioned said they saw no violence and heard no protests from the crew or events from the strikers. Several officers said they saw the Kekoskee sailors laughing and talking as they tossed their bundles into a truck. None witnessed the beating of one member of the crew.

INJURED MAN STORY

(CONTINUED FROM PAGE 1)

party reached the hospital Tuesday night, more than a week after his fall.

The injured man insisted on walking in to a bed. Then relaxation sent him into an irrational coma from which he is slowly emerging. His condition is not regarded as serious, due to his wonderful physique.

His present troubles are considerably mental—the terrifying illusions of buzzards circling over his head.

Two Oregon Men Promoted in N. G.

(CONTINUED FROM PAGE 1)

SALEM, June 9.—(AP)—Lieutenant Colonel Alex C. Baker of Portland has been promoted to the rank of colonel and placed in command of the 18th infantry regiment, the state military headquarters announced today.

Major Ralph P. Cowgill of Medford was promoted to lieutenant colonel of the 18th infantry. Both men passed the federal examination board.

HOUSE ENTERED

The residence of E. O. Hawes, Oakridge, was entered during his absence and a radio, several tools and other articles taken, according to state police, who investigated the case with deputy sheriffs Saturday.

BOYER CALLS ON SCHOOLS TO SHOW SUPPORT JUSTIFIED

(CONTINUED FROM PAGE 1)

or judges. If they have the will and ability, however, there are many of the field of art, science, literature, history, economics, politics, philosophy, or law. He has learned that all human institutions are "quests for perfection," and he comes to have a high respect for excellence and an aversion to mediocrity, whether among business men, politicians, or poets.

Proper Functioning Valuable

"If the universities and colleges are functioning as they should, their value to the public is inestimable. The best thing that a college education can aspire to accomplish for you," William James wrote, "is that it should help you to know a good man when you see him." . . . He meant that to know a good man was to know excellence, and excellence alone saves education from mediocrity. Not only is this the best thing that a college training can do for its beneficiaries, but it is the best thing it can do for the public.

The college graduate should be a judge of men and measures. The courses which he has pursued have brought him in contact with master minds, whether in the field of art, science, literature, history, economics, politics, philosophy, or law. . . . He has learned that all human institutions are "quests for perfection," and he comes to have a high respect for excellence and an aversion to mediocrity, whether among business men, politicians, or poets.

Increasing membership was then brought up by Mr. Allen. He expressed the wish that alumni clubs be formed in every community of more than 1000 population, and that these groups have regular monthly meetings and some definite projects. For these projects he listed scholarships for university students, furnishing of an alumni lounge on the campus; yearly contributions to the student loan fund, and many others.

Lastly, Mr. Allen said he would like to see the groups truly representative of educational ideals. "I would like to see the alumni present a front to the state at large that would be truly representative of the ideals and aims of a great liberal arts institution."

Alumni day closed with the annual flower and fern procession participated in by a large group of alumnae and senior women, the two lines uniting to form a large O of flowers and ferns around the Pioneer Mother statue. The twilight concert followed the procession.

Women Meet, Elect

About 60 attended the annual meeting and breakfast of the State Association of University of Oregon Women, Saturday morning at the Osburn hotel. Mrs. C. V. Boyer, wife of the university president, was the honor guest for the breakfast.

Mrs. Ella T. Edmunkson, Eugene, was elected the new president, succeeding Mrs. E. S. Bryson, also of this city. Mrs. William Barker, Eugene, was named first vice-president, Mrs. George T. Gerlinger, Portland, second vice-president, and Miss Bertha Comings, Eugene, secretary.

The group passed the resolution asking that Old Oregon eliminate liquor advertisements from its publication.

Ans Porter Rapp (Mrs. Lee Rapp), member of the class of '31, wore the dress of her aunt, Lily Porter Forbes, a graduate of 1884, a quaint old costume with bustle and all, and the old-fashioned hat that was worn with the dress.

Mrs. Frank L. Chambers then announced that the dress had been given to the State Association of University of Oregon Women with the hope that other graduation dresses would be given so that in future years there would be seen in the flower and fern procession graduating dresses for all periods of the university history.

Reports were given from the Mary Spiller scholarship fund, one of the projects for which the association was founded 27 years ago, showing that the goal of \$5000 had been reached. Interest from this fund will be used for the scholarship to be loaned a worthy university girl each year. However, the fund is not effective until a certain sum above the \$5000 is reached, insuring that there will always be the \$5000 sum, interest from which will be used for the scholarship.

The senior women attending were introduced as were the women representatives from the classes holding reunion. No women from the class of '84 were present.

LEAVES FOR MAPLETON

Robert Reed, son of Mrs. Rex Reed, 1465 Eleventh avenue west, has left the city to spend the summer on the ranch owned by his uncle Bert Reed near Mapleton.

North Carolina faces losses from damage done wheat, oat and barley crops by the cold last winter.

RENNIE PROJECT HOPE IS SEEN IN GIGANTIC PROGRAM

(CONTINUED FROM PAGE 1)

power developments was available Saturday night. It was pointed out by J. W. McArthur, superintendent of Eugene public utilities, that if only \$15,000,000 were contemplated for power development on the Willamette tributaries, it could not do anything more than the Rennie dam unless this sum was in addition to money for the Rennie dam. This project has been estimated to cost twelve million.

Diversions Anticipated

"The fact that the president's committee has recommended the Rennie project is good news for this territory since it indicates the project has received the favorable attention of Washington authorities," Mr. McArthur said. "However, whether or not this report means the ultimate approval for the project, cannot be said at present."

In recommending the Waldo lake power project, it is believed the board had in mind the proposal to divert the waters of this lake into the McKenzie river, aiding power, irrigation and navigation projects on the Willamette river, Mr. McArthur said.

Advantages Many

Government engineers have made surveys of this project and have expressed the opinion that the waters of this lake should flow into the McKenzie so that the flow of that river could be aided during dry months. It is estimated that with the waters of Waldo lake diverted into the McKenzie, the flow of that

river could be increased by 400 feet during the low water periods of the dry season.

By thus improving the water flow of the McKenzie, more power could be generated at Rennie dam—should it be built—at a cheaper rate, more water would be available for irrigation projects, and navigation of the Willamette would be improved by the additional head of water during the dry months.

Engineers also point out that since the Waldo lake flow is more natural on the McKenzie side, the Willamette river, not suitable for power development anyway, could be maintained as a scenic stream.

In order to divert the lake into the McKenzie shed, a small project at the northwest end of the lake would be necessitated, taking the water into the South Fork of the McKenzie, which stream goes close to the lake.

Storage Dams Proposed

The project would include construction of storage dams to hold the water back during high water periods, allowing it to be released in the dry season.

In addition to power development along the Willamette and its tributaries, the report contemplated the expenditure of \$6,120,000 for studies of irrigation, navigation and the initial steps in developing locks and dams.

This is taken to mean that the committee favors the survey of the stream with the possible view of canalization since it is believed the board's report was based on the canalization report made by army engineers three years ago. This report, according to H. E. Maxey, president of the Willamette Valley Flood Control association, was very comprehensive and included data looking toward such action as is suggested in the board's report.

If the board's report is based on this earlier survey, it is likely the upper Willamette area will benefit greatly in the event the projects are approved, Mr. Maxey pointed out.

Local citizens eagerly awaited further news from Washington as to the full significance of the report.

THE FORD DRAMA OF PROGRESS

The Ford Motor Company invites you to visit its exposition at A Century of Progress, Chicago, where the absorbing story of Ford men, methods and ideals has been unfolded beneath a single roof.

In this story of advancement are imprints of Henry Ford's own career. Many devices in the display came into being through Mr. Ford's efforts, or through exigencies created by his insistent drive toward improvement and increased efficiency in every mechanical operation. Beside the Ford Exposition Building stands the gray, weather-beaten barn in which Henry Ford worked and played as a Michigan farmer boy. Its presence is peculiarly significant, because it has been equipped with machinery to illustrate how the farmer may process raw materials for industrial uses and bring about a closer and mutually profitable relationship between industry and the farmer.

Suppliers Join Ford in Educational Exhibit

Twenty-one of the suppliers who manufacture Ford V-8 parts have joined with the Ford Motor Company in the industrial exhibits to make them complete and informative. Each exhibit begins and

ends upon the same two keys—the first that every part of the Ford car comes from the earth. The second is that each part, from the smallest bolt to the heaviest steel part, must pass individual tests to make sure it is up to Ford standards.

From Mine to Finished Automobile Parts

The sources of iron, steel, copper, aluminum, zinc, lead and other metals are graphically portrayed. Exhibits depicting the processes that are used in manufacturing parts from these metals are actually at work producing the finished parts.
