"My Ford Has Been Honest Cars"

Figures from Ford V-8 owners show 272,815,970 miles of steady running, without a penny for repairs

THE true story of motor-car value is written on the road. There a car reveals its character. There it shows what it can do.

Figures from 34,954 Ford V-8 owners show a total of 272,815,970 miles without a penny for repairs. Their letters are further proof of Ford V-8 economy and dependability.

"I transport school children," writes a Ford owner in Minnesota, "and see plenty of tough going. In three years and eight months I have never missed a trip nor have I been late. My Fords have all been honest cars."

Another Ford V-8 owner writes: "A friend of mine was planning on buying a new car but was considering another make. To prove to him the economy of the Ford V-8 we made a 59-mile run. The gas used was exactly three gallons, measured for the run. It is needless to tell you that my friend now owns a V-8."

A salesman writes: "I drive about 1500 miles a month. I have not spent five dollars for repairs on the five Ford cars I have used. In more than 100,000 miles I have had no motor trouble."

A police officer writes: "To date I have operated my Ford V-8 for seven months and have driven 15,000 miles—most of which was done at speeds up to 88 miles per hour. I have not paid out one penny for repairs or replacements of any kind."

A business man writes: "I am interested in a corporation operating eleven cars in the same price range as the Ford. Five are Fords and six are other makes. "Our experience over a two-year period shows that the Ford is the most economical car to operate and it is our intention to replace the six other cars with Fords."

"I have had better results and been better satisfied with my Fords than with cars costing much more."

No words of ours about the Ford V-8 could be half so convincing as these letters from owners showing what the car is doing in actual service. We invite you to drive it and let it tell you its own story of performance, comfort, safety and economy.

"Not cheap dentistry but good dentistry cheap!"

Daylite Sleep

Absolutely minimizes dental pain. Extractions, each .XX

A new dental law is in effect which prohibits a dentist from ADVERTISING prices, free examination, to guarantee his dentistry, to perform painless operations, etc.

I maintain that a GREAT PUBLIC BENEFIT is being hampered by such a petty law and believe the deserving public will be wrongfully deprived of a common law right to know where to buy and what to pay for their dental work.
